Ancient Egyptian Women John Malam, Ruth Manning, 2002-07-01 Presents information on how women lived in ancient Egypt discussing their education family life and fashion

Creating the New Egyptian Woman M. Russell, 2004-11-12 A New Woman was announced in Egypt at the turn of the nineteenth century With a new genre of prescriptive literature new products a new education and a physically changed home she increasingly emerged in public life This book discusses and debates the place of Egyptian women while focusing on consumerism and education Russell sheds much needed light on the struggle for identity in Egypt at a time of considerable flux and tension and provides a powerful angle to explore changing concepts of social dynamics and broader debates of what it meant to be modern while retaining local authenticity

All the Women of the Bible Herbert Lockyer, 1988 This volume part of Lockyer's All Series contains detailed indexing of the life and times of all the women of the Bible

Women in Ancient Egypt Mariam F. Ayad, 2022-11-15 Cutting edge research by twenty four international scholars on female power agency health and literacy in ancient Egypt There has been considerable scholarship in the last fifty years on the role of ancient Egyptian women in society With their ability to work outside the home inherit and dispense of property initiate divorce testify in court and serve in local government Egyptian women exercised more legal rights and economic independence than their counterparts throughout antiquity Yet their agency and autonomy are often downplayed undermined or outright ignored In *Women in Ancient Egypt* twenty four international scholars offer a corrective to this view by presenting the latest cutting edge research on women and gender in ancient Egypt Covering the entirety of Egyptian history from earliest times to Late Antiquity this volume commences with a thorough study of the earliest written evidence of Egyptian women both royal and non royal before moving on to chapters that deal with various aspects of Egyptian queens followed by studies on the legal status and economic roles of non royal women and finally on women's health and body adornment Within this sweeping chronological range each study is intensely focused on the evidence recovered from a particular site or a specific time period Rather than following a strictly chronological arrangement the thematic organization of chapters enables readers to discern diachronic patterns of continuity and change within each group of women

Mistress of Heaven Anne K. Capel, Glenn Markoe, 1996 The first of its kind exhibit cataloged here focuses on the women of Egypt from all levels of society in works compiled strictly from American collections by American curators Because the quantity of written records is limited though enormous in comparison to most early societies there is still much guesswork involved in determining the place women held in Egyptian society It is clear that unlike most ancient and not so ancient societies Egypt conferred on women the legal right to own property and to barter their own goods which means a larger record for current study The essays here are both erudite and fascinating to read the illustrations are clear and well presented in conjunction with the text 117 colour 112 b w illustrations **Egyptian Woman** Hilary Wilson, 2014-05-20 Described in vivid and accurate detail Egyptian Woman provides an absorbing fictional account of a year in the life of an exceptional woman in ancient Egypt **Western Women and Imperialism** Nupur Chaudhuri, Margaret Strobel, 1992-05-22 Western Women and Imperialism provides fascinating insights into interactions and attitudes between western and non western women mainly in the 19th and early 20th centuries It is an important contribution to the field of women s studies and primarily British imperial history in that many of the essays explore problems of cross cultural interaction that have been heretofore ignored Nancy Fix Anderson A challenging anthology in which a multiplicity of authors sheds new light on the waves of missionaries memsahibs nurses and feminists Ms a long overdue engagement with colonial discourse and feminism excellent essays The Year s Work in Critical Cultural Theory *Gender and Class in the Egyptian Women's Movement, 1925-1939* Cathlyn Mariscotti, 2008-10-31 The women s movement in Egypt has been heralded as improving the lives of women in Egypt and paving the way for women throughout the Arab world As seen through the eyes of the university educated elite and middle class this is no doubt true yet such a narrow view fails to account for the diversity of women s experience In Changing Perspectives Cathlyn Mariscotti provides a critical re examination of the women s movement framing it within the broader economic and political movements occurring in Egypt and abroad Her nuanced account unveils a rich differentiated and complex history of Egyptian women Drawing upon published journal reports and newspaper articles Mariscotti explores the tensions between upper class harem women and lower class women Rather than a unified movement the author describes the way in which elite feminism created a concept of womanhood that fed into the nationalist cultural ideal one that was not necessarily progressive for all Egyptian women Demonstrating active resistance the non elite women constructed a model of feminism in line with their own class position and political interests Mariscotti s reveals the tension in the movement through the profiles of From this class struggle a unique synthesized form of feminism emerged infused with the politics and culture of Egypt at that time Humanizing her analysis the author profiles two outspoken and prominent women who symbolize the conflict the university educated and wealthy Huda Sha rawi and Munira Thabit who represented the working class women The first book to emphasize the class conflict among women this book makes an invaluable contribution to the fields of women s studies and Middle East studies Feminist Theory Reader Carole Ruth
