special varieties of the Egyptians belief in gods it is best to try to avoid a misunderstanding of their whole conception of the supernatural The term god has come to tacitly imply to our minds such a highly specialized group of attributes that we can hardly throw our ideas back into the more remote conceptions to which we also attach the same name It is unfortunate that every other word for supernatural intelligence has become debased so that we cannot well speak of demons devils ghosts or fairies without implying a noxious or a trifling meaning quite unsuited to the ancient deities that were so beneficent and powerful If then we use the word god for such conceptions it must always be with the reservation that the word has now a vastly different meaning from what it had to ancient minds
