By An Ancient Egyptian Priest Dieter Kurth, 2004 This is the oldest and most authentic guide to an ancient Egyptian temple ever written its author was an ancient Egyptian priest who lived in the first century B C under the last kings of the Ptolemaic dynasty when the construction and decoration of the huge temple of Edfu was completed The anonymous priest s tasks was to compose a text long enough to make up a line of hieroglyphic inscription on the girdle wall of the temple stretching around it to a length of some 300 meters and in it describe the temple in detail its layout and construction the functions of its chambers and chapels and its external appearance and the impression it conveyed to the faithful The language of the text arising within the long tradition of Egyptian temple building is stylized and poetic but remarkably the priest fulfilled his assignment with such accuracy devotion and enthusiasm that the monumental inscription can be used today by the modern visitor as a reliable and informative guide to the temple The inscription is here translated in full and appears with notes by the translator on the essentials of ancient Egyptian religion and ritual and on the discovery and documentation of Edfu Temple while a comprehensive glossary explains unfamiliar terms and concepts Illustrations of the temple the original hieroglyphs and the kings who build the temple complement the text BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Egyptian Coffeehouse Dalia Mostafa, Amina Elbendary, 2020-11-26 The coffeehouse is a microcosm of the larger Egyptian society with its history of multiculturalism and great diversity It is not only a social space which was created and shaped by the people over decades in their streets neighbourhoods and cities but it also occupies a sphere in the popular imagination full of stories memories and social networks Despite the coffeehouse s cultural centrality and socio political importance in Egypt academic research and publications on its significance remain sparse This volume aims to fill this gap by presenting for the first time in English a full study analysing the importance of the coffeehouse as an urban phenomenon with its cultural historical economic and political significance in contemporary Egyptian society The volume shows how historically the coffeehouse has always played a key

role as a commercial enterprise and culturally as a place for rich literary and artistic production which has multi layered representations in Egyptian novels cinema and popular music amongst other genres Economically the coffeehouse has been vital for accessing job opportunities especially for informal workers in addition to having played a crucial role in political mobilisation during decisive historical events as well as in recent years during the 2011 revolution and its aftermath Through extended interviews with six residents in Cairo the authors further examine the role and influence of the coffeehouse as a significant feature of contemporary Egyptian life and urban landscape

Understanding Cairo David Sims,2012-04-01 This book moves beyond superficial generalizations about Cairo as a chaotic metropolis in the developing world into an analysis of the ways the city's eighteen million inhabitants have in the face of a largely neglectful government built and shaped their own city Using a wealth of recent studies on Greater Cairo and a deep reading of informal urban processes the city and its recent history are portrayed and mapped the huge spontaneous neighborhoods housing traffic and transport city government and its people and their enterprises The book argues that understanding a city such as Cairo is not a daunting task as long as pre conceived notions are discarded and care is taken to apprehend available information and to assess it with a critical eye In the case of Cairo this approach leads to a conclusion that the city can be considered a kind of success story in spite of everything

Mohieddin,2013-12-09 In January

2011 after three decades under President Hosni Mubarak the Egyptian people joined together in an uprising subsequently dubbed the January 25 Revolution that was widely seen as an important move towards greater civil and political freedoms in the country. However since then security in the country has deteriorated and it is Egypt's religious minorities who are bearing the brunt of this renewed violence. This report drawing on interviews with minority representatives and human rights activists in the country explores the troubling continuation of the marginalization and insecurity that characterized the situation of religious minorities during the Mubarak era. These include an ongoing climate of impunity enabled by the government's unwillingness to prevent or prosecute sectarian violence as well as restrictive legislation engrained prejudice and the prevalence of hate speech in political and religious discourse. The discrimination and violence that religious minorities still face almost three years on from the removal of Mubarak reflect deep and persistent inequalities that have remained remarkably intact in spite of the country's political upheaval. As the findings of this report suggest Egypt requires a comprehensive transformation of its current social and institutional environment from education and media to legislation and the judiciary if the root causes of the problems confronting religious minorities are to be effectively addressed. As sectarian violence is an important factor in its continued instability the situation of Egypt's minority groups will also have lasting implications for the future of the entire population.
