Dan Doll, Jessica Munns

Eighteenth Century Journal:

The British Journal for Eighteenth-century Studies, 1996 **Recording and Reordering** Dan Doll, Jessica Munns, 2006 The essays in this collection consider the diaries And journals of the seventeenth and eighteenth centuries Diaries and journals took many forms depending on the occupation gender social status and religious commitment of the writer They ranged in their forms from brief notes Related to family business and national events In preprinted almanacs or the pages of a family Bible to examinations of spiritual and material States in books dedicated to that purpose Both Domestic and foreign travel afforded women And men reasons for keeping a diary and these Varied from highly scientific accounts to more Personal considerations of the pleasures and discomforts of travel Generically the diary is situated uneasily yet fascinatingly between literature and history Once considered as a pure form of unstructured personal truth telling the diary is now recognized as a form of writing created by historic conditions governed by cultural imperatives and based on literary models and therefore reflects powerfully on its historical moments and the relationship between life as lived and life as represented in texts The English Press in the Eighteenth Century (Routledge Revivals) Jeremy Black, 2010-10-18 First published in 1987 this is a comprehensive analysis of the rise of the British Press in the eighteenth century as a component of the understanding of eighteenth century political and social history Professor Black considers the reasons for the growth of the print culture and the relations of newspapers to magazines and pamphlets the mechanics of circulation and chronological developments Extensively illustrated with quotations from newspapers of the time the book is a lively as well as original and informative treatment of a topic that must remain of first importance for the literate historian **Eighteenth-Century Environmental Humanities** Jeremy Chow, 2022-11-11 This groundbreaking interdisciplinary collection demonstrates how eighteenth century studies can be taught through the lens of the environmental humanities Activating topics such as climate change new materialisms the blue humanities indigeneity and decoloniality and green utopianism to interpret eighteenth century literature and culture each essay includes recommendations for innovative teaching and learning **Journal for Eighteenth-century Studies**, 2008 *War in the Eighteenth-Century World* Jeremy Black, 2012-12-07 Placing eighteenth century warfare in a truly global context Jeremy Black challenges conventional accounts and offers a reappraisal of debates in Western and Asian history This concise up to date survey assumes little prior knowledge and provides cutting edge historical insights into a crucial period of world history **Popular science and public opinion in eighteenth-century France** Michael Lynn, 2018-02-28 In this book Michael R Lynn analyses the popularisation of science in Enlightenment France He examines the content of popular science the methods of dissemination the status of the popularisers and the audience and the settings for dissemination and appropriation Lynn introduces individuals like Jean Antoine Nollet who made a career out of applying electric shocks to people and Perrin who used his talented dog to lure customers to his physics show He also examines scientifically oriented clubs like Jean Fran ois Pil tre de Rozier s Mus e de Monsieur which provided

locations for people interested in science Phenomena such as divining rods used to find water and ores as well as to solve crimes and balloons the most spectacular of all types of popular science demonstrate how people made use of their new knowledge Lynn s study provides a clearer understanding of the role played by science in the Republic of Letters and the participation of the general population in the formation of public opinion on scientific matters A Companion to Eighteenth-Century Europe Peter H. Hague, Karen Lipsedge, 2021-09-17 The eighteenth century home in terms of its structure design function and furnishing was a site of transformation of spaces identities and practices Home has myriad meanings and although the eighteenth century in the common imagination is often associated with taking tea on polished mahogany tables a far wider world of experience remains to be introduced At Home in the Eighteenth Century brings together factual and fictive texts and spaces to explore aspects of the typical Georgian home that we think we know from Jane Austen novels and extant country houses while also engaging with uncharacteristic and underappreciated aspects of the home At the core of the volume is the claim that exploring eighteenth century domesticity from a range of disciplinary vantage points can yield original and interesting questions as well as reveal new answers Contributions from the fields of literature history archaeology art history heritage studies and material culture brings the home more sharply into focus In this way At Home in the Eighteenth Century reveals a more nuanced and fluid concept of the eighteenth century home and becomes a steppingstone to greater understanding of domestic space for undergraduate level and beyond **Making Ideas Visible in the Eighteenth Century** Jennifer
