Dreams for Ireland Ethel Goddard,1903 In the Way Kenelm Burridge,2011-11-01 Christian missionaries usually regarded as relics of an outgrown and mostly discredited colonialism are still playing an active role in many parts of the

world Their number is in fact increasing In this book Kenelm Burridge examines their work from a new perspective combining anthropology with insights from history sociology missiology and theology He exposes and explicates the contradictions and ambiguities involved in missionary endeavours and establishes a theory about the apparently inevitable processes that arise out of the nature of Christianity and the building of a Christian community Burridge presents the missionaries as a class of men and women dedicated to a cause which involves them and others at personal and collective levels when faced with the particular problems of inculturating a transcultural faith without unnecessarily affecting the local culture He also acknowledges the achievements in practical affairs and social developments which have characterized the work of missionaries in spite of their often being at odds with local governments and secular agents Discussing the difficulties of manifesting Christian love Burridge comments on the ambivalences that characterize the Christian systemic He shows how missionaries caught in the processes of Christianity find themselves moving between God and the world torn between conviction and scepticism and between their faith and social work The author points out that this is a continuous and cyclical process which missionaries sometimes fail to resolve while at other times it leads to renewal of faith In the Way not only contributes to a better understanding of missionaries and the significance of their work it also shows how central the missionary impulse is to Christianity and how frequently it has been lost and rediscovered throughout history Healthy Compulsive Gary Trosclair, 2020-02-08 Gary Trosclair explores the power of the driven personality and the positive outcomes those with obsessive compulsive personality disorder can achieve through a mindful program of harnessing the skills that can work and altering those that serve no one If you were born with a compulsive personality you may become rigid controlling and self righteous But you also may become productive energetic and conscientious Same disposition but very different ways of expressing it What determines the difference Some of the most successful and happy people in the world are compelled by powerful inner urges that are almost impossible to resist They re compulsive They re driven But some people with a driven personality feel compelled by shame or insecurity to use their compulsive energy to prove their worth and they lose control of the wheel of their own life They become inflexible and critical perfectionists who need to wield control and they lose the point of everything they do in the process A healthy compulsive is one whose energy and talents for achievement are used consciously in the service of passion love and purpose An unhealthy compulsive is one whose energy and talents for achievement have been hijacked by fear and its henchman anger Both are driven one by meaning the other by dread The Healthy Compulsive Healing Obsessive Compulsive Personality Disorder and Taking the Wheel of the Driven Personality will serve as the ultimate user's guide for those with a driven personality including those who have slid into obsessive compulsive personality disorder OCPD Unlike OCD which results in specific symptoms such as repetitive hand washing and intrusive thoughts OCPD permeates the entire personality and dramatically affects relationships It also requires a different approach to healing Both scientifically informed and practical The Healthy Compulsive describes how compulsives

get off track and outlines a four step program to help them consciously cultivate the talents and passions that are the truly compelling sources of the driven personality Drawing from his 25 years of clinical experience as a psychotherapist and Jungian psychoanalyst and his own personal experience as someone with a driven personality Trosclair offers understanding inspiring stories of change and hope to compulsives and their partners about how to move to the healthy end of the compulsive spectrum The Sax & Brass Book Paul Trynka, 2003-06-01 Book This is the first illustrated history of the horns that have defined jazz since the 1920s and enhanced more recent pop and rock music with their distinctive classy sounds Offering superb specially commissioned photography and inviting descriptive text The Sax Brass Book tells the unique 70 year story of these instruments Exquisite color pictorials included throughout enhance detailed historical profiles of master brass and woodwind manufacturers including Buescher Buffet Conn Holton King Leblanc Martin Sax Selmer Yanagisawa and Christian Mission Dana L.
