Einführung In Die Deutsche Wortbildungslehre:

Morphologie G. E. Booij, Christian Lehmann, Joachim Mugdan, 2000 This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness theoretical explicitness reliable documentation of data and findings and up to date methodology The editors both of the series and of the individual volumes and the individual contributors are committed to this aim The languages of publication are English German and French The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks however no inflexible pre set limits will be imposed on the scope of each volume The series is open ended and can thus take account of further developments in the field This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time table for the publication of the whole series Each volume will be a self contained work complete in itself The order in which the handbooks are published does not imply any rank ordering but is determined by the way in which the series is organized the editor of the whole series enlist a competent editor for each individual volume Once the principal editor for a volume has been found he or she then has a completely free hand in the choice of co editors and contributors The editors plan each volume independently of the others being governed only by general formal principles The series editor only intervene where questions of delineation between individual volumes are concerned It is felt that this modus operandi is best suited to achieving the objectives of the series namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume

Wortbildung des modernen Deutschen Michael Lohde, 2006 *Einführung in die Wortbildungslehre des Deutschen* Bernd Naumann, 2012-02-14 Bei der 3 Auflage dieses Arbeitshefts standen folgende Gesichtspunkte im Vordergrund Historische und gegenwartssprachliche Teile sollten stärker getrennt der historische Aspekt insgesamt zurückgenommen werden Dennoch sollte dargestellt werden da sich Sprache ständig verändert aber das lässt sich auch an gegenwartssprachlichem Material demonstrieren Die Theoriedebatten der 70er und 80er Jahre sind heute nicht mehr aktuell das Interesse an der Theorie der Wortbildung ist überwiegend der auf deskriptiv funktionaler Basis arbeitenden Wortbildungspraxis gewichen Vieles was noch 1986 zur Theorie der Wortbildung gesagt werden musste konnte jetzt weggelassen

Darüber hinaus wurde der exemplarische Charakter der Einführung verdeutlicht. Aus diesem Grund wurden die zentralen Wortbildungstypen Komposition und Derivation nur noch an den für sie besonders typischen Hauptwortarten exemplifiziert. Der Typ der Komposition am Substantiv, der Typ der Derivation am Adjektiv. An der Wortbildung des Verbs haben dagegen beide Typen gleichermaßen Anteil. Den Abschluss des Hefts bilden textbezogene und psycholinguistische Fragestellungen und ein Ausblick auf künftig interessante Bereiche wie die Wortbildung in der elektronischen Kommunikation. Damit zeichnet das Heft den Gang der sprachwissenschaftlichen Forschung der letzten fünfzig Jahre nach von der historischen Sprachwissenschaft hin zu den klassischen morphologiezentrierten Strukturalismus, Fleischer über Syntax und semantikdominierte Verfahren, von Lees und Kerschner zu pragmalinguistischen textbezogenen.

Wortbildung und Wirtschaftssprachen Valentina Crestani, 2010. Dies ist der erste Beitrag zur substantivischen Wortbildung in den Wirtschaftsfachsprachen aus der kontrastiven Perspektive Deutsch-Italienisch. Der Band führt ein in die theoretischen Grundlagen der Fachsprachenforschung der Wirtschaftssprachen und der Wortbildung des Substantivs. Den Kernteil bildet die Analyse von Wirtschaftstexten aus verschiedenen Textsorten 2007-2008. Dabei wird das Problem der Klassifizierung von Wortbildungsprodukten aus einer sprachübergreifenden Perspektive und deren Fachlichkeit untersucht. Liegen alle Komposita, alle Derivate auf derselben Ebene? Verfügen Wirtschaftswörter über denselben Grad an Fachlichkeit? Was verbirgt sich hinter dem Kompositum Eigenkapital, capitale proprio und den anderen Wortbildungen? Mit Hilfe von Fachwörterbüchern und von Beispielen aus den analysierten Texten und aus den IDS-Korpora wird diesen Fragen auf den Grund gegangen.

Deutsche Wortbildung im Spannungsfeld zwischen Lexikon und Syntax Vladimir M. Pavlov, Vladimir Pavlov, 2009. In dieser Arbeit werden die substantivische Komposition in ihrer historischen Entwicklung, die Zusammenrückungen auf der verbalen und adjektivischen Basis und die Substantivierungen untersucht. Auf das Sprachmaterial werden erstmals in konsistenter Weise die Theorie der Feldstruktur des Sprachsystems und das Prinzip der Asymmetrie von Form und Funktion sprachlicher Einheiten angewandt. Die Syntax wird als aktuelles Aufeinanderbeziehen von Lexemen verstanden und der Schreibweise zusammen oder getrennt wird formal-grammatische
