The Men with the Movie Camera Philip Cavendish, 2013-12-01 Unlike previous studies of the Soviet avant garde during the silent era which have regarded the works of the period as manifestations of directorial vision this study emphasizes the collaborative principle at the heart of avant garde filmmaking units and draws attention to the crucial role of camera operators in creating the visual style of the films especially on the poetics of composition and lighting In the Soviet Union of the 1920s and early 1930s owing to the fetishization of the camera as an embodiment of modern technology the cameraman was an iconic figure whose creative contribution was encouraged and respected Drawing upon the film literature of the period Philip Cavendish describes the culture of the camera operator charts developments in the art of camera operation and studies the mechanics of key director cameraman partnerships He offers detailed analysis of Soviet avant garde films and draws comparisons between the visual aesthetics of these works and the modernist experiments taking place in the other spheres of the visual arts

Youngblood, 2014-09-10 The golden age of Soviet cinema in the years following the Russian Revolution was a time of both achievement and contradiction as reflected in the films of Eisenstein Pudovkin and Kuleshov Tensions ran high between creative freedom and institutional constraint radical and reactionary impulses popular and intellectual cinema and film as social propaganda and as personal artistic expression In less than a decade the creative ferment ended subjugated by the ideological forces that accompanied the rise of Joseph Stalin and the imposition of the doctrine of Socialist Realism on all the arts *Soviet Cinema in the Silent Era*

1918-1935 records this lost golden age. Denise Youngblood considers the social, economic, and industrial factors that influenced the work of both lesser-known and celebrated directors. She reviews all major and many minor films of the period as well as contemporary film criticism from Soviet film journals and trade magazines. Above all, she captures Soviet film in a role it never regained: that of dynamic artform of the proletarian masses. *Devastation and Laughter* Annie G rin, 2018-01-01 In *Devastation and Laughter* Annie G rin explores the use of satire in the visual arts, the circus, theatre, and cinema under Lenin and Stalin. G rin traces the rise and decline of the genre and argues that the use of satire in official Soviet art and propaganda was neither marginal nor untheorized. The author sheds light on the theoretical texts written in the 1920s and 1930s by Anatoly Lunacharsky, the Soviet Commissar of Enlightenment, and the impact his writings had on satirists. While the Avant Garde and Socialist Realism were necessarily forward-looking and utopian, satire afforded artists the means to examine critically past and present subjects, themes, and practice. *Devastation and Laughter* is the first work to bring Soviet theoretical writings on the use of satire to the attention of scholars outside of Russia. By introducing important bodies of work that have largely been overlooked in the fields of art history, film, and theatre history, Annie G rin provides a nuanced and alternative reading of early Soviet art.
