Bell, 2006 Darwinian theory the big idea of the nineteenth century and its impact on the writing of Benito Pérez Galdós Despite the fact that Darwinian theory was perhaps the big idea of the nineteenth century most critics in the past have assumed that Benito Pérez Galdós would have remained unaffected by this scientific and philosophical revolution This work contends otherwise charting the influence of evolutionary theories on Galdós throughout his literary career From his adaptation of the early nineteenth century costumbristas depiction of social species into a more sophisticated portrayal of Madrid society to his treatment of shifting social forces at a time of major socioeconomic change Galdós's outlook is shown to be deeply enmeshed in the Darwinian debate Attention is paid not only to the hypotheses of Darwin himself but also for instance to Ernst Haeckel's evolutionary thought to Herbert Spencer's social Darwinism and to the radical histology of Santiago Ramón y Cajal Galdós and Darwin discusses how Spain's greatest novelist since Cervantes imaginatively reworked these epoch making theories and investigates the impact of science on culture as the Spanish nation approached the twentieth century T E BELL completed his Ph D under the supervision of Professor Nicholas Round at Sheffield University

*El Amigo Manso* Benito PÉREZ BENITO PÉREZ GALDÓS, 2021-08-06 BENITO PÉREZ GALDÓS **The Cambridge Companion to the Spanish Novel** Harriet Turner, Adelaida López de Martínez, 2003-09-11 The Cambridge Companion to the Spanish Novel presents the development of the modern Spanish novel from 1600 to the present Drawing on the combined legacies of Don Quijote and the traditions of the picaresque novel these essays focus on the question of invention and experiment on what constitutes the singular features of evolving fictional forms It examines how the novel articulates the relationships between history and fiction high and popular culture art and ideology and gender and society Contributors highlight the role played by historical events and cultural contexts in the elaboration of the Spanish novel which often takes a

self conscious stance toward literary tradition Topics covered include the regional novel women writers and film and literature This companionable survey which includes a chronology and guide to further reading conveys a vivid sense of the innovative techniques of the Spanish novel and of the debates surrounding it **Monsters by Trade** Lisa Surwillo,2014-06-11 Transatlantic studies have begun to explore the lasting influence of Spain on its former colonies and the surviving ties between the American nations and Spain In *Monsters by Trade* Lisa Surwillo takes a different approach explaining how modern Spain was literally made by its Cuban colony Long after the transatlantic slave trade had been abolished Spain continued to smuggle thousands of Africans annually to Cuba to work the sugar plantations Nearly a third of the royal income came from Cuban sugar and these profits underwrote Spain s modernization even as they damaged its international standing Surwillo analyzes a sampling of nineteenth century Spanish literary works that reflected metropolitan fears of the hold that slave traders and the slave economy more generally had over the political cultural and financial networks of power She also examines how the nineteenth century empire and the role of the slave trader are commemorated in contemporary tourism and literature in various regions in Northern Spain This is the first book to demonstrate the centrality of not just Cuba but the illicit transatlantic slave trade to the cultural life of modern Spain **The Cambridge History of Spanish Literature** David T. Gies,2004 Publisher Description *The Reframing of Realism* Hazel Gold,1993 In the writing of Benito P rez Gald s Spain s most prolific and innovative nineteenth century novelist Hazel Gold finds the act of framing insistently at work By exploring Gald s s methods of structuring and evaluating literary and historical experience Gold illuminates the novelist s art and uncovers the far reaching narratological social and epistemological implications of his framing strategies A close look at Gald s s novels reveals the artist at pains to contain and interpret what he perceived to be the distinctive and often disheartening experience of bourgeois liberalism of his day Looking beyond text to context Gold examines the ways in which Gald s s work itself has been framed by readers and critics in accordance with changing allegiances to contemporary literary theory and the canon The highly ambiguous status of the frame in Gald s s fiction confirms the author s own signal position as a writer poised at the limits between realism and modernity **The Gastronomical Arts in Spain** Frederick A. de Armas,James Mandrell,2022-03-01 *The Gastronomical Arts in Spain* includes essays that span from the medieval to the contemporary world providing a taste of the many ways in which the art of gastronomy developed in Spain over time This collection encompasses a series of cultural objects and a number of interests ranging from medicine to science from meals to banquets and from specific recipes to cookbooks The contributors consider Spanish cuisine as presented in a variety of texts including literature medical and dietary prescriptions historical documents cookbooks and periodicals They draw on literary texts in their socio historical context in order to explore concerns related to the production and consumption of food for reasons of hunger sustenance health and even gluttony Structured into three distinct courses that focus on the history of foodstuffs food etiquette and culinary fashion *The Gastronomical Arts in Spain*
