Norberto Bobbio

El Futuro De La Democracia:

El futuro de la democracia Norberto Bobbio, 1986 **Pensar la democracia** Corina Yturbe, 2007 *El Manifiesto Antidemocrático* Sebastián Sölter, 2025-02-14 El Manifiesto Antidemocrático de Sebastián Sölter es una obra provocadora que invita a reimaginar los fundamentos de la gobernabilidad moderna. Con una crítica mordaz a las democracias contemporáneas y un análisis profundo de sus fallas estructurales, Sölter propone un sistema alternativo radicalmente diferente: el Consejo de Sabios. Este enfoque respaldado por un algoritmo de selección pública busca eliminar la corrupción y el populismo que según el autor plagan a los sistemas democráticos actuales. La fortaleza del libro radica en su combinación de análisis filosófico, ejemplos históricos y un enfoque visionario. Sin embargo, su principal desafío es presentar una propuesta que no solo sea idealista sino también factible en el mundo real. La obra tiene el potencial de ser un punto de partida para debates académicos y sociales sobre el futuro de la política global. X MANIFIESTO

El futuro de la democracia Norberto Bobbio, 2003 **Las Encrucijadas de la Democracia Moderna**, **Internet y el futuro de la democracia** Daniel Innerarity, Serge Champeau, 2012-10-04 Los artículos que componen este volumen no pretenden abordar en su totalidad las cuestiones relativas a las relaciones entre internet y la democracia. Es un asunto esencial: el de la gobernanza de Internet resulta de tal complejidad y es objeto de debates tan técnicos que no podrá ser tratada de manera exhaustiva ni en el marco de uno de los tres artículos. En este libro vamos a analizar cuatro problemas fundamentales que son objeto de numerosos debates desde hace unos quince años. Nuestro objetivo es presentar con la colaboración de reconocidos especialistas internacionales una síntesis de estos debates con objeto de que el lector pueda comprender los diferentes retos a los que nos enfrentamos, los puntos de encuentro entre investigadores y profesionales y las divergencias que persisten en el tratamiento de estos problemas. El primer problema abordado es el de medir con la perspectiva de la que disponemos los efectos de la aparición de la Web 2.0 en las prácticas políticas democráticas. El segundo problema es el de la frontera entre las esferas privada y pública en la era digital. El tercer problema lo ha suscitado la actualidad reciente que ha colocado en un primer plano la crisis de la prensa escrita y de los medios de comunicación tradicionales. El cuarto problema es el del futuro de internet. *Política y derecho*

Lorenzo Cordova, 2005 La presente obra se trata de un ejercicio de reflexión colectiva para repensar a Bobbio con verdaderos artículos científicos por parte de los estudiosos de su obra más acreditados en Europa y América Latina. Michelangelo Bovero, Arnaldo Cordova, José Fernández Santillán, Ermanno Vitale entre otros. A la vez que un homenaje al filósofo, se logra con estos textos una revisión crítica de muchas de las ideas clave de su pensamiento a la luz de los retos del siglo XXI: democracia, terrorismo, derechos fundamentales, etc.

Construcción de Europa, democracia y globalización Ramón Maíz Suárez, 2001 Nuevos paradigmas de la democracia en un mundo en transformación, La democracia y la gobernanza como sistema político y social se encuentra en un punto de inflexión. Los desafíos globales del siglo XXI que incluyen la revolución tecnológica, la creciente desigualdad económica, la polarización política, las crisis migratorias, el cambio

climático la nueva gestión pública y las pandemias están poniendo a prueba los cimientos de las democracias liberales en todo el mundo. En este contexto de incertidumbre y transformación acelerada es imperativo analizar críticamente los nuevos paradigmas que están emergiendo y que podrán fortalecer o por el contrario debilitar la democracia en el futuro. Este libro se propone como un espacio de reflexión y debate sobre estos temas cruciales reuniendo las voces de investigadores de diversas disciplinas y universidades de todo el mundo. La democracia y la gestión pública como sistema de gobierno y forma de vida se encuentra en un momento crucial de su historia. En este contexto surge la necesidad de analizar y repensar los fundamentos de la democracia explorando nuevos paradigmas que permitan fortalecerla y adaptarla a las realidades del siglo XXI.

Nuevas perspectivas desde, sobre América Latina Mabel Moraña, 2000. El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad. A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas. América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica. De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles. Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo, la miseria interna y la depredación imperialista, la penetración cultural, las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder. El presente volumen que compila trabajos que fueran presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea, la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y re-presentado por los medios de comunicación de masas tanto como por la cultura popular, el arte, la literatura y otras formas de discurso, letras y la alta cultura. The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present. At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that

conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures. Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication. In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels. The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism, the internal misery and imperialistic greed, the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power. This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence: it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture, art, literature and other forms of literary discourse and high culture.

El riesgo de la democracia María de los Ángeles Moreno Uriegas, Luis Ángeles
Ángeles, 2019-06-13 Las democracias siempre han sido frágiles sin embargo ahora no sólo se ven amenazadas las más jóvenes sino también las maduras e incluso las centenarias. Los riesgos que enfrentan los sistemas democráticos proceden de los gobiernos populistas encabezados por líderes autoritarios que aprovechan la generosidad y las libertades de las democracias para presentarse como salvadores de los problemas sociales. María de los Ángeles Moreno Uriegas y Luis Ángeles Uriegas analizan las experiencias de más de una veintena de países que han padecido gobiernos populistas y por ende el colapso de sus democracias así como los efectos económicos de las políticas de esos regímenes que sin excepción han fracasado. El libro es una convocatoria a prevenir la extensión global del populismo y un manifiesto que demanda a las nuevas generaciones comprometer socialmente la reconstrucción de las economías y defender las instituciones de la democracia representativa con un compromiso inequívoco por la libertad.

The Changing Role Of The State In Latin America Menno
Vellinga, 2018-02-19 Since the 1930s the state has played a primary role in the development process of Latin American countries and political systems have had strong corporatist and authoritarian centralist features. In the last several years as that role has become increasingly incompatible with neoliberal reforms and the requirements of a transition to democracy state power has been significantly decentralized and the state has withdrawn from direct intervention in the economy. This book examines the consequences of the redefinition of the state for processes of democratization and state-civil society.

relations Since the 1930s the state has played a primary role in the development process of most Latin American countries and political systems have had strong corporatist and authoritarian centralist features In the last several years as that role has become increasingly incompatible with neoliberal reforms and the requirements of a transition to democracy state power has been significantly decentralized and the state has withdrawn from direct intervention in the economy This book examines the consequences of the redefinition of the state for processes of democratization and statecivil society relations looking for example at transfers of power to local and regional authorities the role of NGOs and other interest groups in policymaking the emergence of new social movements and privatization and the introduction of market criteria Several country case studies are also included

LA DIFÍCIL DEMOCRACIA Boaventura de Sousa Santos, 2017-03-21 Portugal España y Grecia pasan hoy por transformaciones políticas muy turbulentas Son procesos muy diferentes pero tienen en común el hecho de producirse en países europeos considerados periféricos en relación a un centro que tiene poder para condicionar de manera decisiva sus opciones y aspiraciones políticas y sociales Y todo ello dentro de un contexto histórico de larga duración en el que siempre se ha producido de diferentes maneras la subordinación de las periferias al centro En el presente libro Boaventura de Sousa Santos aborda la transición portuguesa de los años sesenta así como la situación derivada de la reciente crisis económica ya que como sucede en España considera que no se puede entender esta última sin revisar las transformaciones políticas ocurridas durante la primera Tanto Portugal como España vivieron intensos procesos de transición democrática tras décadas de dictadura fascista con repuestas a crisis muy diferentes a las que en la actualidad preocupan a los dos países Pero debemos preguntarnos si las diferencias entre ambos periodos no ocultan semejanzas perturbadoras si las discontinuidades evidentes no están atravesadas por continuidades subterráneas En el fondo se trata de saber si los países periféricos no están condenados a transitar de transición en transición en tanto dura su condición periférica y si esas sucesivas transiciones no son al final el instrumento utilizado por el centro para reproducir su condición periférica Todo ello conduce a partir de la participación activa del autor en los procesos mencionados a una parte final que constituye una reflexión política de índole general y programática con la que el autor pretende interpelar a las izquierdas en el sentido de reinventarse a la luz de las condiciones del presente dominado a escala mundial como nunca por la ortodoxia neoliberal

Caída y ascenso de la democracia David Stasavage, 2021-11-22 Una vigorosa exposición de las sorprendentes lecciones que nos brinda la historia de los sistemas democráticos La democracia no nació en Atenas Tiene una historia más larga En la América precolombina en África precolonial e incluso en Mesopotamia existían prácticas democráticas que se remontan al origen social de la humanidad Al profundizar en la prevalencia de la democracia temprana Stasavage argumenta que entender cómo y dónde florecieron estas democracias y cuándo y por qué cayeron nos proporciona información clave sobre el funcionamiento de los gobiernos modernos Basándose en ejemplos milenarios Stasavage descubre cuándo y por qué una sociedad se inclina por un gobierno de tipo democrático o por uno autocrático También explica la democracia moderna como un esfuerzo por combinar el control

popular de las democracias primitivas con un Estado fuerte en un territorio extenso característica del poder autoritario En medio de crecientes tensiones políticas Caída y ascenso de la democracia amplia a la lenta histórica sobre el desarrollo de las instituciones democráticas ofrece lecciones sorprendentes de buen gobierno y propone una historia del mundo alternativa y convincente

Consent of the Damned David M K Sheinin, 2012-11-18 Under violent military dictatorship Operation Condor and the Dirty War scarred Argentina from the mid 1970s to the early 1980s leaving behind a legacy of repression state terror and political murder Even today the now democratic Argentine government attempts to repair the damage of these atrocities by making human rights a policy priority But what about the other Dirty War during which Argentine civilians including indigenous populations and foreign powers ignored and even abetted the state's vicious crimes against humanity In this groundbreaking new work David Sheinin draws on previously classified Argentine government documents human rights lawsuits and archived propaganda to illustrate the military constructed fantasy of bloodshed as a public defense of human rights Exploring the reactions of civilians and the international community to the daily carnage Sheinin unearths how compliance with the dictatorship perpetuated the violence that defined a nation This new approach to the history of human rights in Argentina will change how we understand dictatorship democracy and state terror

The ^ACatholic Church and Argentina's Dirty War Gustavo Morello SJ, 2015-07-01 Drawing on interviews with victims of forced disappearance documents from the state and the Church as well as field work and participant observation The Catholic Church and Argentina's Dirty War explores how the Argentine government deployed the legitimating discourse of Catholicism to justify terrorism in the case of La Salette missionaries It examines how the official Catholic hierarchy rationalized their silence and how the victims understood their Catholic faith in such a context
