Hunters of the Recent Past Leslie B. Davis, Brian O.K. Reeves, 2014-10-30 One of a series of more than 20 volumes resulting from the World Archaeological Congress September 1986 which brought together archaeologists and anthropologists from many parts of the world. Academics from contingent disciplines and non-academics from a wide range of cultural backgrounds. This book considers prehistoric and more recent manifestations of human hunting behaviour with a general emphasis on communal hunting. It demonstrates that the combination of archaeological ethnographic and ethnohistorical approaches provides a researched basis for consideration of the topic on worldwide regional and local scales. It includes theoretical and methodological issues within a context of enquiry, original data presentation and discussion. It is of interest to archaeologists, anthropologists and ethnohistorians.
