Rhetorics of Insecurity Zeynep Gambetti, Marcial Godoy-Anativia, 2013-08-23 In Rhetorics of Insecurity Zeynep Gambetti and Marcial Godoy Anativia bring together a select group of scholars to investigate the societal ramifications of the present-day concern with security in diverse contexts and geographies The essays claim that discourses and practices of security actually breed insecurity rather than merely being responses to the latter By relating the binary of security/insecurity to the binary of neoliberalism/neoconservatism the contributors to this volume reveal the tensions inherent in the proliferation of individualism and the concurrent deployment of techniques of societal regulation around the globe Chapters explore the phenomena of indistinction/reversal of terms ambiguity and confusion in security discourses Scholars of diverse backgrounds interpret the paradoxical simultaneity of the suspension and enforcement of the law through a variety of theoretical and ethnographic approaches and they explore the formation and transformation of forms of belonging and exclusion Ultimately the volume as a whole aims to understand one crucial question whether securitized neoliberalism effectively spells the end of political liberalism as we know it today Zeynep Gambetti is Associate Professor of Political Theory at Bogazici University Istanbul Marcial Godoy Anativia is Associate Director of the Hemispheric Institute of

This latest volume in the World Yearbook of Education Series considers changing spaces times of education by asking how
they become unevenly textured as our worlds globalise horizons shift and familiar points of reference melt and are remade.
Acknowledging the reach of economic and cultural change digital communication geopolitics and persistent inequalities the
chapters trace processes that are remaking education and societies. Examining the depth of their impact on practices
methods and concepts reveals the significance of knowledge building and socially embedded forms of reasoning in emerging
patterns of educational governance pedagogic and policy reforms as well as in lived understandings of self and social worlds.
The organisation of the collection into three sections Making Spaces Troubling Temporalities and Mobility and Contexts
begins to map out an ambitious project. It calls on education researchers and professionals to write the present as history by
grasping the socio spatial historical and political dimensions and effects that frame form and filter the educational present.
This research calls for a revitalised historical sociology and novel forms of comparative education that can provide productive
insights inform creative problem solving and suggest practical directions for education. This agenda recognises the

Espacio urbano, comunicación y violencia en América Latina Mabel Moraña, 2002 El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo la miseria interna y la depredación imperialista la penetración cultural las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieron en cada caso para perpetuar su poder El presente volumen que compila trabajos que fueron presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevó a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y representado por los medios de comunicación de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of

power at all levels The painful Spanish American republics of which Mart spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture **Debates críticos en América Latina** Nelly Richard,2008 **Comunicación** ,2002
