Spenser's Amoretti William Clarence Johnson, 1990 This work analyzes Spenser's setting of the entire Amoretti courtship against a backdrop of sacred time and his efforts to demonstrate the interpenetration of the divine and the human The eighty nine sonnets are shown to be sequential in their complex pattern of balanced themes structural frameworks developing images and clusters of etymological wordplay

Edmund Spenser in Context Andrew Escobedo, 2016-10-24 Edmund Spenser's poetry remains an indispensable touchstone of English literary history Yet for modern readers his deliberate use of archaic language and his allegorical mode of writing can become barriers to understanding his poetry This volume of thirty seven essays written by distinguished scholars offers a rich introduction to the literary political and religious contexts that shaped Spenser's poetry including the environment in which he lived the genres he drew upon and the influences that helped to fashion his art The collection reveals the multiple personae that Spenser constructs within his work to read Spenser is to read a rich archive of literary forms and this volume provides the contexts in which to do so A reading list at the end of the volume will prove invaluable to further study

Edmund Spenser Andrew Hadfield, 2014-09-19 This collection represents some of the best recent critical writing on Edmund Spenser a major Renaissance English poet The essays cover the whole of Spenser's work from early literary experiments such as *The Shepheardes Calendar* to his unfinished crowning work *The Fairie Queene* The introduction provides an overview of critical responses to Spenser setting his work and the debates which it has generated in their perspective contexts new historicist post structural psychoanalytic and feminist His study also covers the critical responses of leading British Irish and American scholars

Love's Wounds Cynthia N. Nazarian, 2017-01-10 *Love's Wounds* takes an in depth look at the widespread language of violence and abjection in early modern European love poetry Beginning in fourteenth century Italy this book shows how Petrarch established a pattern of inequality between suffering poet and exalted Beloved rooted in political patriarchy Sixteenth and early seventeenth century French and English poets reshaped his model into an idiom of extravagant brutality coded to their own historical circumstances Cynthia N Nazarian argues that these poets exaggerated the posture of the downtrodden lover adapting the rhetoric of powerless desire to forge a new countersovereignty from within the heart of vulnerability a potentially revolutionary position through which to challenge cultural religious and political authority Creating a secular equivalent to the martyr early modern sonneteers crafted a voice that was both critical and unstoppable because it suffered *Love's Wounds* tracks the development of the countersovereign voice from Francesco Petrarca to Maurice Scève Joachim du Bellay Théodore Agrippa d'Aubigné Edmund

Spenser and William Shakespeare Through interdisciplinary and transnational analyses Nazarian reads early modern sonnets as sites of contestation and collaboration and rewrites the relationship between early modern literary forms

Allegorical Quests from Deguileville to Spenser Marco Nievergelt, 2012 An examination of sixteenth century quest narratives focussing on their conscious use of a medieval tradition to hold a mirror up to contemporary culture Offers the first full study of the allegorical knightly quest tradition from the Middle Ages to the Renaissance Richly satisfying as impressive in the detail of its scholarship as in the elegance of its critical formulations It seamlessly moves between different literary traditions and across conventional period boundaries In Dr Nievergelt's treatment of this theme the successive retellings of the tale of the knight's quest come to stand as an emblem of shifting values and norms both religious and worldly and of our repeated failures to realise those ideals Dr Alex Davis Department of English University of St Andrews The literary motif of the allegorical knightly quest appears repeatedly in the literature of the late medieval early modern period notably in Spenser but has hitherto been little examined Here in his examination of a number of sixteenth century English allegorical chivalric quest narratives focussing on Spenser's Faerie Queene but including important lesser known works such as Stephen Bateman's Travayled Pylgrime and William Goodyear's Voyage of the Wandering Knight the author argues that the tradition begins with the French writer Guillaume de Deguileville His seminal *Plerinage de la vie humaine* was composed c 1331-1355 it was widely adapted translated rewritten and printed over the next centuries Dr Nievergelt goes on to demonstrate how this essentially medieval literary form could be adapted to articulate reflections on changing patterns of identity society and religion during the early modern period and how it becomes a vehicle of self exploration and self fashioning during a period of profound cultural crisis Dr Marco Nievergelt is Lecturer Maître Assitant and SNF Swiss National Science Foundation Research Fellow in the English Department at the Université de Lausanne

[The Song of Songs and Its Tradition in Renaissance Love Lyric](#) Camilla Caporicci, 2025-01-29 Traditionally attributed to King Solomon and called by Rabbi Akiva the Holy of Holies among sacred Scriptures Mishnah Yadayim 3:5 the Song of Songs is one of the most fascinating and controversial biblical books and played an essential role in the shaping of European spirituality and culture Combining in a unique way a sensual and deeply lyrical celebration of love with a well established tradition of Christian allegorical interpretation this text crucial to both the Middle Ages and the early modern period held a particular appeal for poets devoted not only to religious verse but also to love poetry The Song of Songs and Its Tradition in Renaissance Love Lyric is the first systematic and wide ranging investigation of the multifaceted use of the Song

of Songs in Renaissance love lyric poetry with specific attention to Italian French and especially English poetic production At the same time this investigation is embedded into a narrative that comprising two initial chapters devoted to medieval poetry and to Francesco Petrarca represents an unprecedented attempt to trace the role of the Song of Songs in the rise and development of the European love lyric following its path or rather one of its paths from the medieval origins of this tradition to the end of the sixteenth century The picture of the general impact of the Song of Songs in the development of the European love lyric is combined with in depth analysis of key works by specific authors including Dante Alighieri Francesco Petrarca Torquato Tasso Marguerite de Navarre Anne de Marquets Cl ment Marot Richard Barnfield Edmund Spenser William Shakespeare John Donne Elizabeth Melville and Aemilia Lanyer promoting a contextualization of their significance within a new interpretative framework While the comparative standpoint characterizing this study fosters a deeper comprehension of the evolution of the European love lyric its multidisciplinary approach which considers the Song of Songs as the centre of a web of dynamics pertaining to the fields of literature philosophy theology and religious and cultural history contributes to the understanding of the thought and spirit of ages crucial to the shaping of European culture
