Edmund Wilson John Wain,1978-01-01      **Edmund Wilson** Lewis M. Dabney,2005-08-03 From the Jazz Age through the McCarthy era Edmund Wilson 1895 1972 stood at the center of the American cultural scene In his own youth a crucial champion of the young Ernest Hemingway and F Scott Fitzgerald Wilson went on to write three classics of literary and intellectual history *Axel's Castle* *To the Finland Station* and *Patriotic Gore* searching reportage and criticism that has outlasted many of its subjects Wilson documented his unruly private life a formative love affair with Edna St Vincent Millay a tempestuous marriage to Mary McCarthy and volatile friendships with Fitzgerald and Vladimir Nabokov among others in openly erotic fiction and journals but Lewis Dabney is the first writer to integrate the life and work Dabney traces the critic's intellectual development from son of small town New Jersey gentry to America's last great renaissance man a deep commentator on everything from the Russian classics to Native American rituals to the Dead Sea Scrolls Along the way Dabney shows why Wilson was and has remained in his cosmopolitanism and trenchant nonconformity a model for young writers and intellectuals as well as the favorite critic of the general reader Edmund Wilson will be recognized as the lasting biography of this brilliant man whose life reflected so much of the cultural social and human experience of a turbulent century

**Edmund Wilson's America** George H. Douglas, 2021-11-21 When Edmund Wilson died in 1972 he was widely acclaimed as one of America's great literary critics But it was often forgotten by many of his admirers that he was also a brilliant and penetrating critic of American life In a literary career spanning half a century Wilson commented on nearly every aspect of the American experience and he produced a body of work on the subject that rivals those of Tocqueville and Henry Adams In this book George H Douglas has distilled the essence from Wilson's many writings on America An active reporter and journalist as much as a scholar Wilson ranged from Harding to Nixon from bathtub gin to marijuana Douglas here surveys Wilson's mordant observations on the roaring twenties the Great Depression income tax suburbia sex populist politics the Vietnam War the Great Society the failure of American scholarship pollution of the landscape and the breakdown of traditional American values The Wilson who emerges from this survey is a historical writer with deep and unshakable roots in Jeffersonian democracy Among his most far seeing and poignant books are studies of the literature of the American Civil War and of the treatment of the American Indian Pained by the crumbling moral order Wilson was never completely at home in the twentieth century In politics he was neither a liberal nor a conservative as those terms are understood today He endured those ideologies and their adherents but his genius was that he could bring them into hard focus from the perspective of the traditional American individualist who was too pained to accept the standardized commercial world that had grown up around him Edmund Wilson's America offers a distinctive overview of the nation's life and culture as seen and judged by its leading man of letters

**A Mirror in the Roadway** Morris Dickstein, 2021-08-10 In a famous passage in *The Red and the Black* the French writer Stendhal described the novel as a mirror being carried along a roadway In the twentieth century this was derided as a naive notion of realism Instead modern writers experimented with creative forms of invention and dislocation Deconstructive theorists went even further questioning whether literature had any real reference to a world outside its own language while traditional historians challenged whether novels gave a trustworthy representation of history and society In this book Morris Dickstein reinterprets Stendhal's metaphor and tracks the different worlds of a wide array of twentieth century writers from realists like Theodore Dreiser Sinclair Lewis Edith Wharton and Willa Cather through modernists like Franz Kafka and Samuel Beckett to wildly inventive postwar writers like Saul Bellow Günter Grass Mary McCarthy George Orwell Philip Roth and Gabriel García Márquez Dickstein argues that fiction will always yield rich insight into its subject and that literature can also be a form of historical understanding Writers refract the world through their forms and sensibilities He shows how the work of these writers recaptures yet also transforms the life around them the world inside them and the universe of language and feeling they share with their readers Through lively and incisive essays directed to general readers as well as students of literature Dickstein redefines the literary landscape a landscape in which reading has for decades been devalued by society and distorted by theory Having begun with a reconsideration of realism the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism
