Education And The Second World War:

Education in the Second World War Peter Gosden, 2013-10-15 Originally published in 1976 this substantial study of wartime education shows how the framework of the present educational system came to be established in the 1944 Education Act *Education and the Second World War: Education in England During the Second World War* Roy Lowe, 2012 This was the first book which globally surveyed the impact of the Second World War on schooling It offers fascinating comparisons of the impact of total war both in terms of physical disruption and its effects on the ideology of schooling By analysing the effects on the education systems of each of the participant nations the contributors throw new light on the responses made in different parts of the globe to the challenge of world wide conflict [Education and the Second World War](#) Roy Lowe, 2012-05-16 This was the first book which globally surveyed the impact of the Second World War on schooling It offers fascinating comparisons of the impact of total war both in terms of physical disruption and its effects on the ideology of schooling By analysing the effects on the education systems of each of the participant nations the contributors throw new light on the responses made in different parts of the globe to the challenge of world wide conflict [American Education, Democracy, and the Second World War](#) C. Dorn, 2015-12-25 American Education Democracy and the Second World War examines how U S educational institutions during World War II responded to the dilemma of whether to serve as weapons in the nation s arsenal of democracy or citadels in safeguarding the American way of life By studying the lives of wartime Americans as well as nursery schools elementary and secondary schools and universities Charles Dorn makes the case that although wartime pressures affected educational institutions to varying degrees these institutions resisted efforts to be placed solely in service of the nation s war machine Instead Dorn argues American education maintained a sturdy commitment to fostering civic mindedness in a society characterized by rapid technological advance and the perception of an ever increasing threat to national security [Soviet Schooling in the Second World War](#) John Dunstan, 1997 [Wartime Schooling and Education Policy in the Second World War](#) Sarah Van Ruyskensvelde, 2016-08-18 This book deals with the development of private secondary schooling during the Second World War in Belgium It focuses on how the German occupier used education to gain acceptance of the regime and discusses the attitudes of Belgian education authorities schools teachers and pupils towards the German occupation Suggesting that the occupation forced Belgian education authorities such as the Roman Catholic Church to take certain positions the book explores the wartime experiences and memories of pupils and teachers It explains that the German Culture Department was relatively weak in establishing total control over education and that Catholic schools were able to maintain their education project during the war However the book also reveals that in some cases the German occupation did not need total control over education in order to find support for some authoritarian ideas As such Van Ruyskensvelde s analysis presents a nuanced view of the image of the Catholic Church schools teachers and pupils as mere victims of war **Wartime Schools** Gerard Giordano, 2004 The politically conservative

educators of World War II dramatically and rapidly altered policies programs schedules learning materials classroom activities and the content of academic courses They motivated students to salvage materials sell war stamps grow crops learn about wartime issues and take pride in patriotism They prepared millions of people for the armed services and the defense industries These accomplishments were possible because the educators were supported by an unprecedented alliance that included teachers school administrators industrialists military personnel government leaders and the President himself After the war conservative educators continued to portray themselves as home front warriors waging a life threatening battle against enduring global dangers A terrified public accepted this depiction and continued to back them for decades

Education for Democracy in England in World War II Hsiao-Yuh Ku, 2020-04-07 Education for Democracy in England in World War II examines the educational discourse and involvement in wartime educational reforms of five important figures Fred Clarke R H Tawney Shena Simon H C Dent and Ernest Simon These figures campaigned for educational reforms through their books publishing articles in newspapers delivering speeches at schools and conferences and by organizing pressure groups Going beyond the literature in this key period the book focuses on exploring the relationship between democratic ideals and reform proposals in each figure s arguments Displaying a variety of democratic forums for debates about education beyond parliament the book re interprets wartime educational reforms from a different perspective and illustrates the agreements and contradictions in the educational discourse itself Eastern Europe Education Nellie Mary
