Educational Administration Theoretical Perspectives On Practice And Research:

Educational Administration Paula F. Silver, 1983 Educational Administration Wayne K. Hoy, Cecil G. Miskel, 1996 This text provides a synthesis of theory and research in organizational behaviour as it applies to the practice of educational administration Organizational theory can be taught at either the introductory or advanced levels in educational administration curriculums *Educational Administration: Theory, Research, and Practice* Wayne Hoy, Cecil Miskel, 2012-03-22 *Greenfield on Educational Administration* Thomas Greenfield, Peter Ribbins, 2005-08-08 This collection is a representative set of ten of the key papers which Thomas Greenfield arguably the doyen of contemporary theories of educational administration has published over the last twenty years His writings as they appear are eagerly sought after and studied by scholars students and practitioners in Britain and across the English speaking world but are not always readily available individually The collection charts the development of Greenfield's views of social reality as human invention and explores strands of argument on the nature of knowledge on administrative theory and research on values on the limits of science and the importance of human subjectivity truth and reality The volume is concluded by a discussion between Greenfield and Peter Ribbins which reflects on Greenfield's career and elaborates on the range of his complex and often controversial ideas **THE POSTMODERN CHALLENGE TO THE THEORY AND PRACTICE OF EDUCATIONAL ADMINISTRATION** 2003-01-01, 2003-01-01 Based on nearly a decade of scholarship this is a highly focused book on the implications of postmodernism for the construction and assessment of theory and practice in educational administration Current ideas of practice are deconstructed from the notions of sound research to the use of national standards in the preparation of educational leaders along with ways of examining and resolving the theory practice gap Part One of the book contains chapters dealing with the rise of postmodernism and describes its broad based dissent from a century of thought in the field including a penetrating examination of whether the concept of a field itself is viable Part Two of the book explores the many ramifications of postmodernism to practice beginning with ideas concerning educational research These chapters tackle the tough issues of the efficacy of the Interstate Leaders Licensure Standards ISLLC and the national exam as examples of job deskilling and deprofessionalization in the guise of raising standards of preparation of future educational leaders Other chapters deal with deconstructing the popular managerial ideas contained in Stephen Covey's works and dispute Joe Murphy's call for a new center of gravity in the field as reinforcing the status quo Finally the book tackles the issue of the theory practice gap and indicates that new and progressive theories which anticipate problems of practice are what is required to deal with this persistent issue The book contains many helpful exhibits in understanding the issues concerning theory and practice as well as a glossary of terms most commonly found in postmodern discourse This book is designed for college and university programs engaged in the preparation of educational leaders for elementary secondary schools and college administrative positions *EDUCATIONAL ADMINISTRATION Theory and Practice* Edgar Leroy
