**European Conquest and the Rights of Indigenous Peoples** Paul Keal, 2003-08-28 Paul Keal examines the historical role of international law and political theory in justifying the dispossession of indigenous peoples as part of the expansion of international society. He argues that paradoxically law and political theory can now underpin the recovery of indigenous rights. At the heart of contemporary struggles is the core right of self-determination and Keal argues for recognition of indigenous peoples as peoples with the right of self-determination in constitutional and international law and for adoption of the Draft Declaration on the Rights of Indigenous Peoples by the General Assembly. He asks whether the theory of international society can accommodate indigenous peoples and considers the political arrangements needed for states to satisfy indigenous claims. The book also questions the moral legitimacy of international society and examines notions of collective guilt and responsibility.      **America in European Consciousness, 1493-1750** Karen Ordahl Kupperman, 1995 For review see Stephen J Homick in The Hispanic Historical Review HAHR vol 77 no 1 February 1997 p 78 80      **European Encounters** Carlos Reijnen, Marleen Rensen, 2014-04-20 *European Encounters* explores the making and remaking of ideas of Europe between 1914 and 1945 as a result of intellectual encounters and intellectual exchange. Against the background of the first half of the twentieth century European intellectuals feverishly chased new and uncharted territories most often across national borders. Their encounters with other intellectuals or ideas, cultures, concepts and practices produced new understandings of Europe and triggered projects for Europe's future. West European writers turned to Russian literature. Catholic politicians from Northern Europe embraced corporatist and fascist solutions from Mediterranean Europe. Scientists pointed at science and their network as sources of peace and reconciliation and others committed themselves to the European federalism of the Pan-Europa Movement. This volume unravels the encounters and exchanges that lie at the roots of this attempt at rethinking Europe.      **The Oxford History of the British Empire: Volume I: The Origins of Empire : British Overseas Enterprise to the Close of the Seventeenth Century** Nicholas Canny, 1998-05-28 Volume I of the *Oxford History of the British Empire* explores the origins of empire. It shows how and why England and later Britain became involved with transoceanic navigation, trade and settlement during the sixteenth and seventeenth centuries. The chapters by leading historians both illustrate the interconnections between developments in Europe and overseas and offer specialist studies on every part of the world that was substantially affected by British colonial activity. As late as 1630 involvement with regions beyond the traditional confines of Europe was still tentative; by 1690 it had become a firm commitment. Series blurb: The *Oxford History of the British Empire* is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. It deals with the interaction of British and non-western societies from the

Elizabethan era to the late twentieth century aiming to provide a balanced treatment of the ruled as well as the rulers and to take into account the significance of the Empire for the peoples of the British Isles It explores economic and social trends as well as political *European Images of the Americas and the Classical Tradition* Wolfgang Haase, Reinhold

**Geometrical Landscapes** Amir R. Alexander, 2002 This challenging book argues that a new way of speaking of mathematics and describing it emerged at the end of the 16th century Leading mathematicians began referring to their field in terms drawn from the exploration accounts of Columbus and Magellan Many of those who promoted the vision of mathematics as heroic exploration also played central roles in developing the most important mathematical innovation of the period the infinitesimal methods which the author shows was no coincidence *Cosmopolitanism and the Enlightenment*

Joan-Pau Rubiés, Neil Safier, 2023-03-23 As we face new global challenges from climate change to the international political order the need to re-examine the historical roots of cosmopolitanism and liberal principles on a global scale has become increasingly central to the political conversation *Cosmopolitanism and the Enlightenment* brings together leading scholars in cultural history the history of ideas and global politics in order to reassess the complexity of cosmopolitanism during the Enlightenment and its various interpretations over time Through a fresh and revisionist perspective the volume explores issues of universalism and cultural diversity the idea of civilization race gender empire colonialism global inequality national patriotism international and civil conflict and other forms of political discourse challenging the simple negative stereotype that the Enlightenment was inevitably hierarchical and Eurocentric This timely intervention into the debate about the legacy of the Enlightenment highlights both the plurality and the continuing relevance of Enlightened cosmopolitanism to contemporary global concerns *A Concise History of History* Daniel Woolf, 2019-01-17 An incisive account of the entire history of historical writing worldwide by one of the leading intellects in the field

*Visions of British Culture from the Reformation to Romanticism* Celestina Savonius-Wroth, 2022-01-17 This book is a major new contribution to the study of cultural identities in Britain and Ireland from the Reformation to Romanticism It provides a fresh perspective on the rise of interest in British vernacular or folk cultures which has often been elided with the emergence of British Romanticism and its Continental precursors Here the Romantics' discovery of and admiration for vernacular traditions is placed in a longer historical timeline reaching back to the controversies sparked by the Protestant Reformation The book charts the emergence of a nuanced discourse about vernacular cultures developing in response to the Reformers' devastating attack on customary practices and beliefs relating to the natural world seasonal festivities and rites of passage It became a discourse grounded in humanist Biblical and antiquarian scholarship informed by the theological and pastoral problems of the long period of religious instability after the Reformation and over the course of the eighteenth century colored by new ideas about culture drawn from Enlightenment historicism and empiricism This study shows that Romantic literary primitivism and Romantic

social thought both radical and conservative grew out of this rich context It will be welcomed by historians of early modern and eighteenth century Britain and those interested in the study of religious and vernacular cultures      **Bridging the Early Modern Atlantic World** Caroline Williams,2009 Bridging the Early Modern Atlantic World brings together ten essays exploring the outcomes of the intermingling of people circulation of goods and exposure to new ideas that are the hallmark of the early modern Atlantic Spanning the period from the earliest French crossings to Newfoundland to the end of the wars of independence in Spanish South America the contributors direct particular attention to regions communities and groups whose activities in and responses to an ever more closely bound Atlantic world remain under represented in the literature All share a central concern to explore the myriad ways in which ordinary people through their own travels relationships and day to day choices engaged with and contributed to the changes set in motion as the Atlantic world came into being      A Culture of Fact Barbara J. Shapiro,2000 Shapiro traces the genesis of the fact a modern concept that originated not in natural science but in legal discourse She follows the concept s evolution and diffusion across a variety of disciplines in early modern England      *Global Goods and the Spanish Empire, 1492-1824* B.
