**Simon Glendinning**

## European History And World Culture:

**The Oxford Handbook of Postwar European History** Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the 35 chapters of this book As well as diplomatic political institutional economic and social history the The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the thirty five essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by acknowledged experts as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe

*Encyclopedia of Blacks in European History and Culture* Eric Martone, 2008-12-08 Blacks have played a significant part in European civilization since ancient times This encyclopedia illuminates blacks in European history literature and popular culture It emphasizes the considerable scope of black influence in and contributions to European culture The first blacks arrived in Europe as slaves and later as laborers and soldiers and black immigrants today along with others are transforming Europe into multicultural states This indispensable set expands our knowledge of blacks in Western civilization More than 350 essay entries introduce students and other readers to the white European response to blacks in their countries the black experiences and impact there and the major interactions between Europe and Africa the Caribbean and the United States that resulted in the settling of blacks in Europe The range of information presented is impressive with entries on noted European political literary and cultural figures of black descent from ancient times to the present major literary works that had a substantial impact on European perceptions of blacks black holidays and festivals the struggle for civil equality for blacks the role and influence of blacks in contemporary European popular culture black immigration to Europe black European identity and much more Offered as well are entries on organizations that contributed to the development of black political and social rights in Europe representations of blacks in European art and cultural symbols and European intellectual and scientific theories on blacks Individual entries on Britain Spain Portugal France Italy Germany the Netherlands Russia

Central Europe Scandinavia and Eastern Europe include historical overviews of the presence and contributions of blacks and discussion of country s role in the African slave trade and abolition and its colonies in Africa and the Caribbean Suggestions for further reading accompany each entry A chronology resource guide and photos complement the text **AP European History Premium, 2024: 5 Practice Tests + Comprehensive Review + Online Practice** Seth A. The 1950s in*

*European History, Politics, Society and Culture* Heiko Feldner, Claire Gorrara, Kevin Passmore, 2010-10-12 This volume of essays explores the social political and cultural legacies of a decade which has until relatively recently received scant scholarly attention Sandwiched uncomfortably between the traumatic events of the Second World War and the dramatic changes of the 1960s the 1950s appeared as seemingly transitional years while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re evaluated and new models were road tested to be either developed or rejected An important intervention in the dynamic scholarly re examination of the 1950s this volume analyzes these years in relation to three broadly defined areas historiography politics and society and culture What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post war European identities in two key respects as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the new variously formulated and contested across and within national borders Written by experts in the field the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US They combine high intellectual standards with accessibility and will appeal to academics students and the general reader alike

**The Oxford Handbook of European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

*AP European History Premium, 2025: Prep Book with 5 Practice Tests + Comprehensive Review + Online Practice* Seth A. guide to offer expert customized study plans for every student's needs You've had a year to study but also a year to forget As the AP test approaches other guides reexamine the entire year of material But only one guide identifies your strengths and weaknesses then points you directly to the review you need most My Max Score a new concept developed by AP teachers and exam graders offers separate review materials for long term prep and last minute cram sessions no matter when you start studying This is just what you need plus strategies sample essays and full length practice tests to bring out your best on test day

*Europe: A Philosophical History, Part 1* Simon Glendinning, 2021-07-14 Europe is inseparable from its history That history has been extensively studied in terms of its political history its economic history its religious history its literary and cultural history and so on Could there be a distinctively philosophical history of Europe Not a history of philosophy in Europe but a history of Europe that focuses on what in its history and identity ties it to philosophy In the two volumes of *Europe A Philosophical History* The Promise of Modernity and Beyond Modernity Simon Glendinning takes up this question telling the story of Europe's history as a philosophical history In Part 1 The Promise of Modernity Glendinning examines the conception of Europe that links it to ideas of rational Enlightenment and modernity Tracking this self understanding as it unfolds in the writings of Kant Hegel and Marx Glendinning explores the transition in Europe from a conception of its modernity that was philosophical and religious to one which was philosophical and scientific While this transition profoundly altered Europe's own history Glendinning shows how its self confident core remained intact in this development But not for long This volume ends with an examination of the abrupt shattering of this confidence brought on by the first world wide war of European origin and the imminence of a second The promise of modernity was in ruins Nothing for Europe would ever be the same again Part 2 Beyond Modernity is available now from Routledge ISBN 9781032015828

**Eurocentrism in European History and Memory** Marjet Brolsma, Robin Bruin, Matthijs Lok, 2025-10-01 Eurocentrism means seeing the world in Europe's terms and through European eyes This may not be unreasonable for Europeans but there are unforeseen consequences Eurocentric history implies that a scientific modernity has diffused out from Europe to benefit the rest of the world through colonies and development aid It involves the imposition of European norms on places and times where they are often quite inappropriate In *Eurocentrism in European History and Memory* well known scholars explore and critically analyse manifestations of Eurocentrism in representations of the European past from different disciplines history literature art memory and cultural policy as well as from different geographical perspectives The book investigates the role imaginings of the European past since the eighteenth century played in the construction of a Europeanist worldview and the ways in which Europe was constructed in literature and art

*The Cambridge Companion to Medievalism* Louise D'Arcens, 2016-03-10 An introduction to medievalism offering a balance of accessibility and sophistication with comprehensive overviews as well as detailed case studies

**Perspectives on Feminist Political Thought in European History** Tjitske Akkerman, Siep Stuurman, 2013-06-17 Spanning six centuries of political thought in European history this book puts the ideas of thinkers

from Christine de Pizan to Simone de Beauvoir in the broader contexts of their time This intriguing collection of essays shows that feminism is not a variant of modern radical discourse but a mode of analysing the issues of authority power and virtue that have been at the heart of European political thought from the middle ages

### **Encyclopedia of European Peoples**

Carl Waldman, Catherine Mason, 2006 Presents an alphabetical listing of information on the origins prehistory history culture languages relationships to other cultures and more regarding European peoples

### **The Oxford Handbook of Early**

**Modern European History, 1350-1750** Hamish M. Scott, 2015 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

### **East and Central European History**

**Writing in Exile 1939-1989** Maria Zadencka, Andrejs Plakans, Andreas Lawaty, 2015-07-28 The studies in East and Central European History Writing in Exile 1939 1989 all written by experts in the history of the region give answers to the comprehensive question of how the experience of exile during the time of the Nazi and Communist totalitarianism influenced and still influences history writing and the historical consciousness both in the countries hosting exile historians as well as in the home countries which these historians left The volume comprises difficult to access information about the organization and the work of historians exiled from the Baltic States including Baltic Germans Belorussia Ukraine and Poland And it provides reflections on the intellectuals networking between their own national and the foreign traditions in the exile Contributors are Olavi Arens Mirosław Filipowicz Jörg Hackmann Volodymyr Kravchenko Oleg atyszonek Andreas Lawaty Iveta Leitová Artur M. Karski Andrzej Nowak Gert von Pistohlkors Andrejs Plakans Toivo Raun Rafał Stobiecki Mirosław A. Supruniuk Jaan Undusk and Maria Zadencka
