**The European Parliament and its International Relations** Stelios Stavridis, Daniela Irrera, 2015-03-24. Following the Lisbon Treaty, the powers of the European Parliament in external relations have gradually expanded, and it is increasingly influencing the foreign policy of the European Union. This book analyses the role of the European Parliament as an international actor and presents a new debate about its role outside the EU territory. It explores different policy areas including human rights, international aid, trade, crisis management and the environment, to provide a systematic analysis of the modern global role of the European Parliament. The book also considers the European Parliament's regional interactions with Africa, Latin America, the United States, Asia and the Middle East. With a common analytical framework and research covering the lifespan of the European Parliament from its first direct elections in 1979 to the present day, this comprehensive volume presents an unparalleled analysis of one of the most important institutions in the European Union. Felder-Stindt,2025-06-20 This book expands our understanding of the so far overlooked territorial dimension of the EU s knowledge policies crossing policy area boundaries It examines how EU regional policy endowed with substantial financial resources influences the comparatively weakly endowed EU higher education policy The analysis finds that sub national actors not only implement EU regional policy instruments but also actively shape EU policies By showing this co shaping transcends policy fields the book provides new insights into the feedback effects of EU funded cross border cooperation It shows that regionalization endeavours are political projects of regional and EU decision makers which remain exposed to Europeanization processes in the long term This book is of key interest to scholars and students of European policymaking EU integration EU regional policies EU public policy courses and more broadly to geography development social policy governance and education policies      **Legal and Institutional Aspects of the European Anti-Fraud Office (OLAF)** Jan F. bottom up policy oriented solutions while taking into account global EU based and local perspectives and the shifting universes of EU migration border and asylum policies In 15 chapters we explore the multifaceted dimensions of the EU external migration policy and its evolution in the post crisis geopolitical environment of the Global Compacts

**EU-NATO Relations** Simon J. Smith, Carmen Gebhard, Nina Graeger, 2020-04-28 For almost fifteen years both the EU and North Atlantic Treaty Organization NATO have claimed to partake in a relationship that is purported to be a Strategic Partnership albeit one that is troubled by lasting political blockages The constraints that affect the formal relationship between the two organizations are well covered terrain in the academic literature including by most of the contributors to this volume however the popular argument that the EU and NATO simply do not cooperate in any substantive way warrants deeper investigation both theoretically and thematically Thus EU NATO relations might not at first seem like an under researched area but much of the existing literature on the issue re engages oversimplified and formulaic statements about the nature quality and practice of interactions between the EU and NATO This volume aims to develop the EU NATO research agenda by pursuing three key objectives 1 reduce the lacuna of theoretically informed analyses of the relationship 2 add empirically and analytically rigorous case studies to the relevant body of literature and 3 point to possible developments and solutions in the Strategic Partnership The chapters in this book were originally published as a special issue in European Security
