**European Integration** Frank Roy Willis,1975-01-01      *European Integration* Frank Roy Willis,1975

**Understanding European Integration** R. Pavananthi Vembulu,2003 In The Background Of New Questions Of Identity Culture And Community Emerged After Maastricht Treaty This Book Explores The European Integration Process Since It Throws Immanent Challenge To The Existing Theoretical Paradigms Such As Nationalism And Globalization Drawing Influence From This Intellectual Climate This Book Tries To Understand The Integration Process Within The Cultural History Of Europe The Study Structured Itself Along Three Axes First It Circled Down On The Problematic Over Defining What Europe Means Here The Efforts Were On To Highlight The Constant Flux And Contingent Nature Of The Definition Of Europe Second How This Contingent Nature Of Europe Has Compelled The European Union To No Longer Skirt Away The Question Of Identity If It Is To Consolidate The Process And Expand Its Boundary Towards East By Focusing Upon The Cultural Policy Of The Union The Study Brought Forth The Various Efforts Of The Union Particularly The European Commission To Transform The Loyalties And Identities Of People From The National Crucible To A Broader European Spectrum Thirdly The Study Critically Evaluates These Policy Initiatives And Highlights How They Are Structured Around The Nineteenth Century Colonial Discourse Of Europe      The Unfinished History of European Integration Koen Zon,Matthew Broad,Aleksandra

Komornicka,Paul Reef,Alessandra Schimmel,2025-10-01 The Unfinished History of European Integration is a companion to the history of the European Union From the aftermath of the First World War to the EU of 27 member states and Russia s invasion of Ukraine it guides the reader past the main events crucial sites and key actors that shaped the EU we know today How did it evolve from a market project to a geopolitical force what explains the expansion of its membership institutions policies and the resistance to this growth and why does it function as it does This book provides more than just a chronological account of over seventy years of European integration It also shows how observers past and present have made sense of the EU The Unfinished History of European Integration is therefore a unique introduction for readers with different disciplinary backgrounds to understanding the EU If over seventy years of European integration have taught us anything it is that fundamental crises as well as moments of rapid institutional change have been constants in its history      **Themes in**

**Modern European History Since 1945** Rosemary Wakeman,2003-06-26 Twelve chapters consider the key political cultural and economic changes of post 1945 Europe      **Imagined, Embodied and Actual Turks in Early Modern Europe** Bent

Holm,Mikael Bøgh Rasmussen,2021-07-23 The confrontation between European countries and the expanding Ottoman Empire in the early modern era has played a major role in numerous fields of history The aim of this book is to investigate the European Ottoman interrelations from three angles One deals with the circumstances How did the Europeans meet the Turks in pragmatic and diplomatic connections Another concerns imagery how were the Turks depicted in literature and art The third examines performativity how were the Turks inserted into plays operas and ceremonies This book confronts mental

visual and embodied images with historical positions and conditions The focus therefore is on the dynamic interactive processes of experience embodiment and imagination in context Bringing together Turkish and European scholars it applies a number of research strategies used by historians to the history of art literature music and theatre Contributions by P l cs Robert Born Asli irakman Anne Duprat Kate Fleet Bent Holm Marcus Keller Maria Pia Pedani Mogens Pelt Mikael B gh Rasmussen G nsel Renda Pia Schwarz Lausten Charlotte Colding Smith Suna Suner Dirk Van Waelderren European Integration and the Problem of the State Stefan Borg,2015-04-07 This study argues that the practices of European integration reproduce rather than transcend the practices of modern statecraft Therefore the project of European integration is plagued by similar ethico political dilemmas as the modern state and is ultimately animated by a similar desire to either expel or interiorize difference *Alan S. Milward and Contemporary European History* Fernando Guirao,Frances M.B. Lynch,2015-10-14 Alan S Milward was a renowned historian of contemporary Europe In addition to his books as well as articles and chapters in edited books he also wrote nearly 250 book reviews and review articles some in French and German which were published in journals world wide Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution This book brings together these previously unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century Many of these discussions continue to influence us today such as the role of Germany in Europe the economic social and political foundations of European integration the European rescue of the nation state the reasons for launching the single currency the conditions for retaining the allegiance of European citizens to the notions of nation and supra nation and ultimately the issue of democratic governance in a global environment In bringing together these reviews and review articles the book provides an introduction to the main scholarly achievements of Milward in his own words Fernando Guirao and Frances M B Lynch provide an introduction to the volume which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance By introducing and bringing together this hitherto overlooked treasure trove of historical analysis this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond This unique volume will be of great interest to scholars of economic history European history and historiography Reflections on European Integration D. Phinnemore,A. Warleigh-Lack,2009-01-15 Exploring the development of the European Union this book examines the ways in which it has been studied over fifty years from the vantage point of four disciplines each side of the Atlantic and both academic and practitioner perspectives Drawing on contributions by some of the world s leading scholars in the field it maps the past and present of both the EU and EU studies before setting out a provocative agenda for future work in the area

**Christianity and Human Rights Reconsidered** Sarah Shortall, Daniel Steinmetz-Jenkins, 2020-09-24 This is the first global examination of the historical relationship between Christianity and human rights in the twentieth century Leading historians anthropologists political theorists legal scholars and scholars of religion develop fresh approaches to issues such as human dignity personalism religious freedom the role of ecumenical and transatlantic networks and the relationship between Christian and liberal rights theories In doing so they move well beyond the temporal and geographical limits of the existing scholarship exploring the connection between Christianity and human rights not only in Europe and the United States but also in Africa Latin America and China They offer alternative chronologies and bring to light overlooked aspects of this history including the role of race gender decolonization and interreligious dialogue Above all these essays foreground the complicated relationship between global rights discourses whether Christian liberal or otherwise and the local contexts in which they are developed and implemented

EU Law Stories Fernanda Nicola, Bill Davies, 2017-05-29 Through an interdisciplinary analysis of the rulings of the Court of Justice of

the European Union this book offers thick descriptions contextual histories and critical narratives engaging with leading or minor personalities involved behind the scenes of each case The contributions depart from the notion that EU law and its history should be narrated in a linear and incremental way to show instead that law evolves in a contingent and not determinate manner The book shows that the effects of judge made law remain relatively indeterminate and each case can be retold through different contextual narratives and shows the commitment of the European legal elites to the experience of legal reasoning The idea to cluster the stories around prominent cases is not to be fully comprehensive but to re focus the scholarship and teaching of EU law by moving beyond the black letter and unravel the lawyering techniques to achieve policy results

*The Struggle over Law in Europe* Aldo Sandulli, 2024-04-29 This book examines the role of law in Europe at a time when economic policies have become dominant not only on this continent but globally Can law be seen as a mere infrastructure Or does it contribute to defining the social and legal order through its own inherent rules If the second hypothesis is true what might these rules be and how may they be identified Lastly to what extent can agreeing a definition of the role of law affect the future of Europe With the Next Generation European Union the EU has introduced an unprecedented investment plan for economic recovery and resilience In doing so it has become the most important financial intermediary on the continent But is this simply the prelude to a European economic and financial revival or does it also aim to strengthen the European legal order in social political and constitutional terms This book argues that the role of law in Europe should be to achieve a balanced relationship between freedom and solidarity encouraging economic competition but also social cohesion Analyzing the role of law in the project of European integration it maintains that law should be more than an infrastructure for finance and economics showing how it can act as a guide and a binding force to achieve a more balanced relationship between economics politics and law This book will be of interest to scholars in the fields of public law European law law and economics the philosophy of law legal history political theory and political science as well as others concerned with the future of European integration

### **Rulers and Rulership in the Arc of Medieval Europe, 1000-1200**

Christian Raffensperger, 2023-08-24 *Rulers and Rulership in the Arc of Medieval Europe* challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from

one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it

**International Law and the Politics of History** Anne Orford, 2021-08-05 Explores the ideological political and economic stakes of struggles over international law's history and its relation to empire and capitalism

**Framing History in East-Central Europe and Beyond** LIT Verlag, 2022-09-06 During the 1970s today's Austrian Federal Ministry of Education Science and Research Bundesministerium für Bildung Wissenschaft und Forschung BMBWF supported the founding of the Center for Austrian Studies at the University of Minnesota in Minneapolis and the Austrian Chair at Stanford University in California These foundations were the initial incentives for the worldwide spreading of similar institutions currently nine Centers for Austrian and Central European Studies exist in seven countries on three continents The funding of the Ministry enables to connect senior scholars with young scholars to help young PhD students to participate in and to benefit from the scientific connection of experienced researchers and to get in touch with the national scientific community by sniffing scientific air as the Austrians like to say Furthermore it aims to avoid prejudices and to spread a better understanding and knowledge about Austria and Central Europe by promoting scientific exchange This volume contains the annual reports 2018 2019 2019 2020 of the Center Directors and the papers of their PhD students which discuss various topics on mostly East Central European History from several perspectives and in different centuries Ferdinand K hnelt Postdoc researcher at the Institute of East European History University of Vienna Ned ad Ku PhD candidate at the Institute of East European History University of Vienna Marija Wakounig Professor at the Institute of East European History University of Vienna

**Eurocentrism in European History and Memory** Marjet Brolsma, Robin Bruin, Matthijs Lok, 2025-10-01 Eurocentrism means seeing the world in Europe's terms and through European eyes This may not be unreasonable for Europeans but there are unforeseen consequences Eurocentric history implies that a scientific modernity has diffused out from Europe to benefit the rest of the world through colonies and development aid It involves the imposition of European norms on places and times where they are often quite inappropriate In Eurocentrism in European History and Memory well known scholars explore and critically analyse manifestations of Eurocentrism in representations of the European past from different disciplines history literature art memory and cultural policy as well as from different geographical perspectives The book investigates the role imaginings of the European past since the eighteenth century played in the construction of a Europeanist worldview and the ways in which Europe was constructed in literature and art

**Cassis de Dijon** Albertina Albors-Llorens, Catherine Barnard, Brigitte Leucht, 2021-02-25 Why is the 1979 the Court of Justice judgment in Cassis de Dijon so famous and so significant in the evolution of EU trade law As this landmark judgment approaches middle age this book revisits this decision with the benefit of hindsight why did the Court of Justice decide Cassis de Dijon as it did How has the decision been developed by the EU And looking forward how has the decision been used to

develop international trade This book brings together some of the leading writers in the field of EU trade law constitutional law and European history for a fresh examination of this ground breaking judgment looking at it from the perspective of its past who what and why its present is it making a difference and its future how does it fit in international trade agreements
