European Religion In The Age Of The Great Cities 1830 193:

European Religion in the Age of Great Cities Hugh McLeod, 2005-08-18 Europe in the nineteenth century saw spectacular growth in the size and number of cities and in the proportion of the population living in urban areas Many contemporaries thought that this social revolution would bring about an equally dramatic change in religious life This book written by an international team of specialists provides an authoritative account of religious change both at the institutional and popular level in Catholic Protestant and Orthodox cities in seven European countries **A European Geography** Tim

Unwin, 2017-09-29 *A European Geography* provides a geographical interpretation and exposition of the whole of Europe Beginning with a historical and environmental introduction the text covers the cultural identity political structure economic organisation and social context of Europe examining the complex issues that are shaping the characteristics and meaning of contemporary Europe More than fifty contributors are drawn from Europe and North America contributing a wealth of research expertise in their specialist subject areas Detailed case studies provide empirical examples of the broader research themes examined *A European Geography* is written for undergraduate students taking courses on Europe Regional Geography European Studies and European Integration It will provide valuable reading for anyone interested in developing a detailed understanding of the processes shaping contemporary Europe **Orthodox Sisters** William G. Wagner, 2024-07-15

Orthodox Sisters explores the relationship between women religion and social cultural and economic change between 1700 and 1935 through the experiences of Orthodox convents in Nizhnii Novgorod diocese Focusing primarily on the Convent of the Exaltation of the Cross William G Wagner places the women s experiences in the broader context of developments in female monasticism and religious life in Russia as well as in Europe and North America over the same period This is the first comprehensive study that follows a Russian convent through all the stages of its life from its origins in the eighteenth century to its flourishing at the turn of the twentieth century to its resistance to Soviet assault and finally to its rebirth in the 1920s By the late nineteenth century the Convent of the Exaltation of the Cross and the other convents and women s religious communities in Nizhnii Novgorod diocese constituted a reimagined form of a traditional Orthodox monastic community Wagner shows how these nuns and novices adapted to the conditions of emergent modernity in a distinctively Orthodox way When almost everything but their communal life work and worship and their sacred spaces had been stripped away and they were subject to the socialist state s efforts at subversion the sisters of the Convent of the Exaltation of the Cross and the other convents in the diocese created an authentic Christian community that gave their lives a collective meaning In this way they were able to lead a rewarding life and survive the early years of Soviet Russia European Cities and Towns Peter Clark, 2009-01-30 Since the Middle Ages Europe has been one of the most urbanized continents on the planet and Europe s cities have firmly stamped their imprint on the continent s economic social political and cultural life This study of European cities and towns from the fall of the Roman Empire to the present day looks both at regional trends from across Europe and

also at the widely differing fortunes of individual communities on the roller coaster of European urbanization Taking a wide angled view of the continent that embraces northern and eastern Europe as well as the city systems of the Mediterranean and western Europe it addresses important debates ranging from the nature of urban survival in the post Roman era to the position of the European city in a globalizing world The book is divided into three parts dealing with the middle ages the early modern period and the nineteenth and twentieth centuries with each part containing chapters on urban trends the urban economy social developments cultural life and landscape and governance Throughout the book addresses key questions such as the role of migration including that of women and ethnic minorities the functioning of competition and emulation between cities as well as issues of inter urban cooperation the different ways civic leaders have sought to promote urban identity and visibility the significance of urban autonomy in enabling cities to protect their interests against the state and not least why European cities and towns over the period have been such pressure cookers for new ideas and creativity whether economic political or cultural

God in Gotham Jon Butler, 2020-09-29 A master historian traces the flourishing of organized religion in Manhattan between the 1880s and the 1960s revealing how faith adapted and thrived in the supposed capital of American secularism In Gilded Age Manhattan Catholic Jewish and Protestant leaders agonized over the fate of traditional religious practice amid chaotic and multiplying pluralism Massive immigration the anonymity of urban life and modernity's rationalism bureaucratization and professionalization seemingly eviscerated the sense of religious community Yet fears of religion's demise were dramatically overblown Jon Butler finds a spiritual hothouse in the supposed capital of American secularism By the 1950s Manhattan was full of the sacred Catholics Jews and Protestants peppered the borough with sanctuaries great and small Manhattan became a center of religious publishing and broadcasting and was home to august spiritual reformers from Reinhold Niebuhr to Abraham Heschel Dorothy Day and Norman Vincent Peale A host of white nontraditional groups met in midtown hotels while black worshippers gathered in Harlem's storefront churches Though denied the ministry almost everywhere women shaped the lived religion of congregations founded missionary societies and in organizations such as the Zionist Hadassah fused spirituality and political activism And after 1945 when Manhattan's young families rushed to New Jersey and Long Island's booming suburbs they recreated the religious institutions that had shaped their youth *God in Gotham* portrays a city where people of faith engaged modernity rather than foundered in it Far from the world of disenchantment that sociologist Max Weber bemoaned modern Manhattan actually birthed an urban spiritual landscape of unparalleled breadth suggesting that modernity enabled rather than crippled religion in America well into the 1960s

Religious Dissent Between the Modern and the National Bojan Aleksov, 2006 Bojan Aleksov's study portrays the origins and the spreading of the Nazarenes the first Protestant Serbs in South Hungary and Serbia as an indicator of social change among the Serbian people whose demands and needs the Orthodox Church had failed to meet In order to account for the success of Nazarene missionaries it also illuminates the strategies employed by

Nazarenes in expanding and maintaining their communities which range from communalism group mores and practices internal economic organization of the Nazarene communities and their attitude towards economic change and finally the appeal of the Nazarene faith and worship Looking at the social economic cultural and historical motives of conversions to Nazarenes it examines in depth the Nazarenes challenge to the Serbian Orthodox Church and the latter's belated response in the form of the so called re Orthodoxization in line with newly invented tradition of the Serbian version of Orthodox Christianity Svetosavlje and the development of the mass Bogomoljci movement with its implications for the development of the Serbian national self identification observed in the changes of the notions of Church religion and piety which finally during the interwar period resulted in a discourse that combined and fused the nation and the Orthodox Church and closed the long lasting gap between the Church and the Serbian people nation *Salvo el poder todo es ilusión* María Victoria Uribe, 2007 CONTENIDO De los reclamos pacíficos a los reclamos violentos Etnicidad y nacionalismo en Sri Lanka Insurgencia y política en Colombia Religión e historia en Irlanda del Norte El mal de la violencia estatal Consolidación de las identidades insurgentes Negociaciones sin cambio de régimen Mitos de origen insurgentes A European Geography P. T. H. Unwin, 1998 A European Geography provides a geographical interpretation and exposition of the whole of Europe Beginning with a historical and environmental introduction the text covers the cultural identity political structure economic organisation and social context of Europe examining the complex issues that are shaping the characteristics and meaning of contemporary Europe More than fifty contributors are drawn from Europe and North America contributing a wealth of research expertise in their specialist subject areas Detailed case studies provide empirical examples of the broader research themes examined A European Geography is written for undergraduate students taking courses on Europe Regional Geography European Studies and European Integration It will provide valuable reading for anyone interested in developing a detailed understanding of the processes shaping contemporary Europe **Fighting Like the Devil for the Sake of God** Mark Doyle, 2009 Sectarian conflict in Northern Ireland has often had an air of inevitability about it For over three decades of turmoil and warfare in the twentieth century innumerable observers spoke of the ancient hatred between Protestants and Catholics their primordial quarrel and their deep rooted hostilities The author challenges the notion that violent conflict was ever natural or inevitable in this troubled region Focusing on the city of Belfast he demonstrates how through a series of riots beginning in the 1850s working class Protestants and Catholics constructed a new tradition of violence that set the stage for the tumultuous twentieth century He locates the city's tradition of violence in the everyday lives of its people Showing how violence became a regular routine fact of urban life how in effect violence shaped people's attitudes toward one another and toward the city itself he charts the emergence of two polarized mutually hostile communities in Belfast At the same time he also examines Belfast within its broader imperial context asking what role the British state played in fostering this violence and comparing Belfast's experience with that of the relatively tranquil city of Glasgow **The British National**
