Europe's Last Red Terrorists George Kassimeris, 2001-12 Since the 1970s Europe s last Marxist Leninist terroriststhe Greek Revolutionary Organization 17 November have waged a violent campaign against US and NATO personnel Turkish diplomats and members of the Greeks military and business elite In May 2000 they assassinated a top British diplomat in Athens in a daring daylight attack Yet no one suspected of belonging to the organization let alone of being involved in its terror campaign has ever been arrested This is the first book to deal with revolutionary terrorism in Greece Tracing the history of 17 November Kassimeris demonstrates how it has persevered with a one dimensional view of a world peopled by heroes and villains that has precluded the emergence of a coherent ideology Combining fanatical nationalism contempt for the existing order and the cult of violence for its own sake 17 November has stubbornly refused to accept that

its eclectic belief system is incompatible with modern democratic principles Unlike Italy's Red Brigades or Germany's Red Army Faction which both assailed the capitalist state and its agents 17 November hopes to create an insurrectionary mood that will propel the Greeks into revolutionary political action without disrupting society as a whole As such 17 November's terror campaign has been an audacious protest aimed at discrediting and humiliating the Greek establishment and the US government but one that has never sought to develop widespread revolutionary guerrilla warfare **Terrorism in America** J.
