This knowledge is of crucial importance in grasping not just the Union's way of doing business but also the current debate on the future of the enlarged European Union and its new Constitution. In the Storms of Transformation Ulf Brunnbauer, Philipp Ther, Piotr Filipkowski, Andrew Hodges, Stefano Petrungaro, Peter Wegenschimmel, 2024-12-16. In the 1990s, states in what would become the eastern edge of the European Union transformed their political systems and economies, leaving state socialism behind for liberal democracies and free markets. In the ensuing decades, two shipyards that were once the pride of their cities in Gdynia, Poland and Pula, Croatia, went bankrupt, unable to withstand global competition. Through an interdisciplinary study of these two shipyards, *In the Storms of Transformation* brings together a team of researchers to re-evaluate the shift from state socialism to market capitalism and offer a new periodization. With perspectives from social anthropology, sociology and business history, the book argues that this transformation began with the oil crisis of the early 1970s and ended with EU accession in 2004 in Poland and in 2013 in Croatia, highlighting the EU competition laws and global competition that pushed the shipyards into bankruptcy and diminishing the role of the revolutions of 1989. In *In the Storms of Transformation*, bridges local labour history with global market forces, going beyond prevalent narratives of loss and nostalgia or successful neoliberal change, to offer a novel and nuanced reading of post-communist transformation and its contradictions.
