Women's contribution to business is fundamental to creating a sustainable economy such that businesses try to strengthen women's presence within their organisations, especially on their boards. Today, sustainable companies cannot survive without strategies involving women. Stakeholders, regulators, NGOs and rating agencies track both women-focused strategies and the corporate sustainability reports of companies. Well-designed strategies for women workers help companies to develop their financial and social sustainability initiatives progressively. This book analyses the practice of women in sustainable business in terms of company performance, social responsibility, board management, entrepreneurship, employment, education, management, social sustainability, environmental politics and technology from a wide range of diverse regional perspectives and highlights the differences between the underdeveloped, developing and developed world.

International Handbook of Women and Small Business Entrepreneurship Sandra L. Fielden, Marilyn Davidson, 2005. Sandra Fielden and Marilyn Davidson, already well known for their contributions to gender issues in management, have brought together an absorbing collection of articles that serve to enhance our understanding of a complex area within organisation studies. This particular Handbook is not a mere glossary. The editors provide a forum for scholarly works in a specialised area of small business and entrepreneurship research. And the International Handbook of Women and Small Business Entrepreneurship provides a rich resource. Collectively, the papers serve to summarise and re-examine much of the relevant research to date. An accessible book that follows a logical and coherent pattern, the range of this book is significant and the accomplishment considerable. The International Handbook of Women and Small Business Entrepreneurship is a serious contribution to a niche area of entrepreneurship scholarship. The editors and authors have established a place for women in the literature, confirming that gender issues cannot be dismissed as a mere adjunct to the broader field of entrepreneurship study. This collection offers the reader intelligent engagement with the range of research and ways of knowing about women and entrepreneurship. Established scholars will find much of interest and we would also confidently recommend the Handbook to interested newcomers. Robyn Walker and Kate Lewis, *Women in Management Review*. Sandra L.
