European Parliament Moving Toward Democracy In The Eu:

The European Parliament Bernard Steunenberg, J. J. A. Thomassen, 2002 Exploring the European Union's democratic deficit this book traces the halting development of parliamentary democracy at the European level Arguing that the key actor in this crucial process is the European Parliament the contributors concentrate on two of the classic functions of a parliament the legislative and the representative The contributors analyze the ongoing tensions between party orientations and national loyalties between national parties and European party groups and between representatives at the national and regional level Visit our website for sample chapters *The European Parliament in Times of EU Crisis* Olivier Costa, 2018-11-24 This book assesses the many changes that have occurred within the European Parliament and in its external relations since the Lisbon treaty 2009 and the last European elections 2014 It is undoubtedly the institution that has evolved the most since the 1950s Despite the many crises experienced by European integration in the last years the Parliament is still undergoing important changes in its formal competences its influence on policy making its relations with other EU institutions its internal organisation and its internal political dynamics Every contribution deals with the most recent aspects of these evolutions and addresses overlooked topics providing an overview of the current state of play which challenges the mainstream intergovernmental approach of the EU This project results from research conducted at the Department of European Political and Governance Studies of the College of Europe Individual research of several policy analysts of the European Parliamentary Research Service EPRS have contributed to this endeavour *Debating the Democratic Legitimacy of the European Union* Beate Kohler-Koch, Berthold Rittberger, 2007-04-18 The discussion about a constitution for the European Union and its rejection by referendum in two of the EU founding member states has once again spurred public and scholarly interest in the democratic quality and potential of the European Union *Debating the Democratic Legitimacy of the European Union* brings together distinguished thinkers from law political science sociology and political philosophy to explore the potential for democratically legitimate governance in the European Union Drawing on different theoretical perspectives and strands from democratic theory this volume is the first of its kind to overcome the present state of fragmentation in the debate about the conditions and possible remedies for what is often called the democratic deficit of the European Union Among the pressing questions addressed by the contributors are What future is there for parliamentary democracy in the European Union Can we observe the evolution of a European public sphere and civil society Can participatory democracy or deliberative democracy pave the road for a democratically legitimate European Union Conversations about democracy have engaged the public in a new way since the beginning of the Iraq war and this volume is the best resource for students and readers who are interested in democracy in the European Union Contributions by Rudy B Andeweg Katrin Auel Arthur Benz Lars Erik Cederman Damian Chalmers Deirdre Curtin Donatella Della Porta Klaus Eder Erik O Eriksen Ulrich Haltern Hubert Heinelt Doug Imig Christian Joerges Beate Kohler Koch Christopher Lord Paul Magnette Andreas Maurer Jeremy Richardson

Berthold Rittberger Rainer Schmalz Bruns Michael Th Greven Hans J rg Trenz and Armin von Bogdandy **A Democratic Audit of the European Union** C. Lord,2003-11-30 A Democratic Audit of the European Union provides a systematic assessment of democracy in the EU against clearly defined criteria Christopher Lord offers a double challenge to generalizations about a democratic deficit in the EU On the one hand it shows that standards of democratic performance in the EU may vary across Union institutions and decision making processes On the other hand it shows that they can vary across key dimensions of democratic governance including citizenship rights participation representation responsiveness transparency and accountability **Parliamentary Democracy in the Lisbon Treaty** Sotirios Petrovas,2011 The Lisbon Treaty is the latest and most crucial reform to the European Union As the successor to the much debated and innovative Constitution it represents the culmination of the unification process for it aims to simultaneously enhance efficiency and cover the democratic deficit inherent in the outdated decisionmaking mechanisms of the past as a consequence of excessive enlargement and deepened integration Thus the first question is the extent to which the Lisbon Treaty renders the Union more democratic and according to what criteria that may be evaluated Another question is related to the fact that the Treaty is the result of a fundamental debate on the very nature of the European Union Is the latter to become an authentic political union or a mere free trade area with secondary political attributions And will its internal operating rules correspond more to a parliamentary or a presidential regime The present work proposes to focus on the claim that the European Union as a polity shall become more democratic with the Lisbon Treaty and seeks to provide answers using representative democracy and parliamentarianism as indicators To achieve such an ambitious aim special attention is given to parliamentary bodies first at the supranational level with the European Parliament as part of the institutional triangle Commission Council Parliament then at the internal level with the Member States national Parliaments as part of the framework of existing and new competences oversight vertical separation of powers and subsidiarity The changes brought about by the Lisbon Treaty towards more democracy are not without consequence to its second proclaimed goal efficiency It is thus interesting to examine how both are combined and if there is a positive or a negative interaction between the two Moreover the very articulation of the sensitive balance between measures for more efficiency and measures for more democracy has a noticeable impact on the European Union as a political system Will it function like a federal or an intergovernmental system Although much of the above will undeniably be determined through the practice of the institutions and the overall political equilibrium that will be achieved the present work offers useful methods and elements of analysis that are an indispensable guide to anyone with an interest in European Union law and politics A Constitution for the European Union Charles Beat Blankart,Dennis C. Mueller,2004 The leaders of the European Union member states have declared that a European constitution should have the aim of bringing institutions closer to the citizens This text looks at how a common policy could be agreed as well as discussing what powers it might have *How the EU Really Works* Olivier Costa,Nathalie

Brack,2016-04-29 The European Union is facing a profound crisis and is confronted with multiple challenges Over the last two decades it has experienced a series of dramatic changes to its powers its institutional design its constitutional framework and its borders At the same time the uneasy relationship between European citizens and elites has complicated both the reform and the function of the Union While the Lisbon treaty provided some answers to crucial questions it did not clarify the nature of the EU which remains at the crossroads of federal and intergovernmental logic The current economic and financial crisis puts the EU s legitimacy further under pressure and creates the impression of a turning point This book provides a concise analysis of the EU and its dynamics by paying particular attention to its day to day operation It aims to help students and scholars understand its evolution its institutions its decision making and the interactions between the EU and various actors Avoiding abstract theorizing the authors propose an easy to read analysis of how the Union works while recognizing the complexity of the situation Throughout the book the key issues of European integration are addressed democratic deficit politicization the role of member states institutional crisis and citizen involvement

How the EU Really Works Ms

Nathalie Brack,Professor Olivier Costa,2014-05-28 This book provides a concise analysis of the EU and its dynamics by paying particular attention to its day to day operation It proposes to help students and scholars understand its evolution its institutions its decision making and the interactions between the EU and various actors Avoiding abstract theorizing the authors propose an easy to read analysis of how the Union works while recognizing the complexity of the situation Throughout the book the key issues of European integration are addressed democratic deficit politicization the role of member states institutional crisis and citizen involvement

Civil Society and Governance in Europe William A. Maloney,Jan

W. Van Deth,2008-01-01 The research presented in this book based on new primary data demonstrates that in terms of civil society actors adapting to the European political space the Europeanization process has an uneven development This innovative book integrates top down approaches for the study of relationships within the developing EU multilevel system i e the consequences of Europeanization for civil society at the local level and bottom up approaches i e the consequences of civil society for the process of European integration and democracy in the EU The contributors argue that exploration of these recursive linkages requires a rethinking of the relationships between local national and trans national civil society on the one hand and multi level governance on the other In analyzing the opportunities for civil society associations to contribute to European integration and decision making from various perspectives the following findings are presented amongst others engagement with and confidence in the EU compared to national institutions is relatively weak among associational members party elites play a key gatekeeper role in the European space the EU and interest groups have had limited success in stimulating the development of citizen engagement civil society and social capital in various countries In the rapidly expanding field of research on democratic decision making in Europe this book will be welcomed by academics and scholars alike at postgraduate levels and above Experts working in the field of European decision making such as

lawyers and lobbyists who are looking for conclusions based on high quality empirical research will also find much in this book to engage them

Legislative Codecision in the European Union Anne Rasmussen, 2017-07-05 This volume takes stock of twenty years of practising and studying codecision in the European Union EU and examines the procedure's long term implications for the EU's institutions politics and policies The introduction of co legislation between the Council of Ministers and the European Parliament in 1993 raised the prospect of increased parliamentary involvement in EU decision making and promised a new era of more transparent inclusive and accountable policy making This collection draws together contributions from diverse theoretical and methodological perspectives in order to analyse the extent to which codecision has delivered the expected gains and to review the unexpected effects that have followed from its introduction such as the growing informalisation of EU decision making Using a combination of in depth qualitative case studies wider quantitative analyses practitioners insights and a review of the procedure's democratic legitimacy the contributions offer a holistic assessment of the effect of co decision on the political system of the EU This book was published as a special issue of the Journal of European Public Policy

Christian Democratic Parties in Europe Since the End of the Cold War Steven Van Hecke, Emmanuel Gerard, 2004 The period since the end of the Cold War has been characterised by an acceleration in the European integration process a changing pattern of political ideologies and the emergence of new political parties and issues This book assesses the impact of these phenomena on Christian Democratic parties in the current and future member states of the European Union and highlights some of the particularities and universalities of European Christian Democracy from a comparative and transnational perspective Political scientists and historians from various universities examine the way in which Christian Democratic parties have responded to these challenges for instance by a rapprochement with non Christian Democrats and explain how those responses have resulted in failure in some cases and success in others

Democratic Federalism Robert P. Inman, Daniel L. Rubinfeld, 2023-09-26 Federalism defined generally as a collection of self governing regions under a central government is widely viewed as a sensible choice of polity both for emerging democracies and for established states But while federal institutions are positively correlated with valued economic democratic and justice outcomes ultimately it is unclear how they are connected and which cause which In Democratic Federalism Robert Inman and Daniel Rubinfeld explore how federalism works and propose concrete and proven policy guidance on how federalist policies can be designed and implemented successfully The authors define federalism according to three parameters how much federal revenue comes through local governmental bodies the number of local governmental bodies and the extent to which these local bodies are represented federally In applying these parameters to economic concepts and theory Inman and Rubinfeld explain how federalism works in a way meant to engage scholars in political science and sociology and policymakers drafting regulation in federalist governments The book offers applicable ideas and comparative case studies on how to assess potential policies and how to actually design federalist institutions from scratch

Both authors have real experience with both most notably in their work advising the South African government on how to build a federalist democracy This book will be an essential guide to understanding and applying federalist concepts and principles *Western Constitutionalism* Andrea Buratti,2023-10-31 This book explores the theoretical origins historical foundation political meaning and legal development of western constitutionalism as well as the structure and transformation of constitutional law in the Western World Introducing the historical background of western constitutional traditions it links this rich conceptual framework with the legal arrangements of states constitutions and the current trends of the internationalization of constitutional law Serving as a comprehensive introduction to constitutional studies this book provides detailed information on the design of legal systems while addressing the main critical theoretical issues raised by constitutionalism in western democracies and in the global landscape This new third edition covers a broader scope reflecting recent political and legal transformations and is enriched in terms of didactic instruments for university students

The European Union Jonathan Olsen,John McCormick,2018-05-04 Covering the history governing institutions and policies of the European Union Jonathan Olsen and John McCormick present the EU as one of the world s economic and political superpowers which has brought far reaching changes to the lives of Europeans and has helped its member states to take a newly assertive role on the global stage Unlike most other books on the EU this text pays particular attention to the implications of the EU for the United States Thoroughly revised with new photographs and updated tables and figures the sixth edition of *The European Union* explains developments that have brought severe challenges to the Union such as the Greek crisis the Brexit tensions with Russia over Ukraine and new waves of refugees into Europe Essential reading for students of European politics this book offers an up to the minute look at both the opportunities and existential threats facing this powerful institution

Patent Politics Shobita Parthasarathy,2017-02-21 Over the past thirty years the world s patent systems have experienced pressure from civil society like never before From farmers to patient advocates new voices are arguing that patents impact public health economic inequality morality and democracy These challenges to domains that we usually consider technical and legal may seem surprising But in *Patent Politics* Shobita Parthasarathy argues that patent systems have always been deeply political and social To demonstrate this Parthasarathy takes readers through a particularly fierce and prolonged set of controversies over patents on life forms linked to important advances in biology and agriculture and potentially life saving medicines Comparing battles over patents on animals human embryonic stem cells human genes and plants in the United States and Europe she shows how political culture ideology and history shape patent system politics Clashes over whose voices and which values matter in the patent system as well as what counts as knowledge and whose expertise is important look quite different in these two places And through these debates the United States and Europe are developing very different approaches to patent and innovation governance Not just the first comprehensive look at the controversies swirling around biotechnology patents *Patent Politics* is also the first in depth analysis of the political

underpinnings and implications of modern patent systems and provides a timely analysis of how we can reform these systems around the world to maximize the public interest

The Role of Political Parties in the European Union Bjorn Lindberg, Anne Rasmussen, Andreas Warntjen, 2013-09-13 At the national level political parties play an important role in making representative democracy work They help to aggregate and communicate policy preferences link decision making between different legislative bodies and hold politicians accountable In the European Union however the electoral connection is weak This casts doubt on the impact of partisan politics at the European level Are political parties able to fulfil their role as transmission belts ensuring political accountability and consistent decision making in the European Union To answer this question we look at the micro foundations of partisan politics in the European Union The contributions in this volume all depart from a common theoretical framework but use a wide range of empirical data and research designs covering qualitative process tracing elite interview and large N quantitative analysis Moreover they examine party effects in the electoral and legislative arena Finally the volume covers all European institutions the Commission the Council of the European Union the European Council and the European Parliament The findings enhance our understanding of the workings of decision making in Brussels add to the debate on the EU democratic deficit and highlight the usefulness of drawing upon insights from the literature on Comparative Politics when studying the European Union This book was published as a special issue of the Journal of European Public Policy

Regional Governance in the EU Gabriele Abels, Jan Battke, 2019 The role of regions in the European Union has been frequently debated since the 1980s This comprehensive book provides a thorough overview of the issue from a variety of perspectives analysing regional governance and territorial dynamics in the EU and its member states Focusing on the implications of the democratisation regionalisation nexus it argues that a Europe with the regions may promote good governance and ameliorate the democratic deficits of the EU

Research Handbook on EU Institutional Law Adam Lazowski, Steven Blockmans, 2016-09-30 Research Handbook on EU Institutional Law offers a critical look into the European Union its legal foundations competences and institutions It provides an analysis of the EU legal system its application at the national level and the prevalent role of the Court of Justice Throughout the course of the Handbook the expert contributors discuss whether the European Union is well equipped for the 21st century and the numerous crises it has to handle They revisit the call for an EU reform made in the Laeken Conclusions in 2001 to verify if its objectives have been achieved by the Treaty of Lisbon and in daily practice of the EU institutions The book also delves into the concept of a Europe of different speeds which according to some is inevitable in the EU comprising 28 Member States Overall the assessment of the changes introduced by the Lisbon Treaty is positive even if there are plenty of suggestions for further reforms to re fit the EU for purpose

Europeanisation and Party Politics Erol K ulahci, 2012-05-01 A sophisticated theoretical framework and up to date analysis of the Europeanisation of domestic party systems and political parties policy stances This book covers a range of contemporary topics party systems policy stances of political parties

opposition co operation over European integration cleavage theory of party response to European integration domestic depoliticisation and EU representation It presents a sophisticated political analysis of Europe and an exceptional amount of factual information about European countries and parties *Official Report of Debates* Council of Europe Parliamentary Assembly Staff, Europe. Council of, Parliame, 1997-12-01

European Parliament Moving Toward Democracy In The Eu: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthraling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have enthralled audiences this year. The Must-Read :

Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph.

European Parliament Moving Toward Democracy In The Eu : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
