concludes with a newly written examination of the relationship between EU and national initiatives of market regulation symbiosis or disruption A readable yet critically sound textbook this fully updated edition will be indispensable for both postgraduate and undergraduate students of EU law It will also appeal strongly to all academics regulators and practising lawyers with an interest in EU trade law or indeed European law more generally

The Politics of Systematization in EU Product Safety Regulation: Market, State, Collectivity, and Integration Kai Purnhagen, 2013-06-26 This book examines the increasing role of the legal method of systematisation in European Union EU law It argues that the legal method of systematisation that has been developed in a welfare state context is increasingly used as a regulative tool to functionally integrate the market The book uses the example of EU product regulation as a reference to illustrate the impact of systematisation on EU law It draws conclusions from this phenomenon and redefines the current place and origin of systematisation in the EU legal system It puts forward and demonstrates two main arguments First in certain sectors such as in EU product safety law the quality of EU law changes from a sector specific and reactive field of law to an increasingly coherent legal system at European level Therefore instead of punctual market intervention it increasingly governs whole market areas By doing so it challenges and often fully replaces the respective welfare based legal systems in the Member States for the benefit of the ideal of a market driven EU legal system Second at European level the ideal is in development This illustrates the change of the function of Statecraft from nation states to market states

Deepening EU-Moldovan Relations Michael Emerson, Denis Cenușă, 2018-10-15. For Moldova, the signing of the Association Agreement and the DCFTA with the European Union in 2014 was an act of strategic geopolitical significance. Of all the EU's eastern neighbours, Moldova is objectively the most European on several counts, including sharing a common history, language, culture and border with EU member state Romania. These provide a positive foundation for a successful Agreement notwithstanding the major political challenges that confront contemporary Moldova. The purpose of this Handbook is to make the complex political, economic and legal content of the Association Agreement readily understandable. This second edition, published two years into the Agreement's implementation, adds new value, charting Moldova's progress in putting the Agreement into effect. Two teams of researchers from leading independent think tanks, CEPS in Brussels and the Expert Group in Chisinau, collaborated on this project with the support of the Swedish International Development Agency Sida. This Handbook is one of a trilogy examining similar Association Agreements made by the EU with Ukraine and Georgia.
