## **European Socialist Realism:**

European Socialist Realism Michael Scriven, Dennis Tate, 1988 Provides a broad European and cross cultural perspective on the theory and practice of literature and the Left over the past 50 years      **Socialist Realism in Central and Eastern European Literatures Under Stalin** Evgeny Dobrenko, 2018-02-15 Socialist Realism in Central and Eastern European Literatures is the first published work to offer a variety of alternative perspectives on the literary and cultural Sovietization of Central and Eastern Europe after World War II and emphasize the dialogic relationship between the centre and the satellites instead of the traditional top down approach The introduction of the Soviet cultural model was not quite the smooth endeavour that it was made to look in retrospect rather it was always a work in progress often born out of a give and take with the local authorities intellectuals and interest groups Relying on archival resources the authors examine one of the most controversial attempts at a cultural unification in Europe by providing an overview with a focus on specific case studies an analysis of distinct particularities with attention to the patterns of negotiation and adaptation that were being developed in the process      **European Socialism** William Smaldone, 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century Striving for sweeping social economic cultural and political change socialists were a diverse lot However they were united by principles asserting the social and political equality of all people ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents William Smaldone shows how over the course of 200 years socialists successfully promoted the democratization of European society and a more equitable division of wealth At the same time he illustrates how conflicts over the means of achieving their aims divided them into rival socialist and communist currents a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War Although many predicted the demise of socialism as a potent force after the end of the Cold War the Soviet Union's dissolution and the rise of neo liberal ideology recent developments show that such a judgment was premature The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems especially following the deep global crisis that began in 2008 Combining an analytical narrative with a selection of primary texts and visual images this book provides undergraduate students with a brief readable history including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning This new edition brings this text up to date and examines the European socialist movement in the face of 21st century challenges It includes a new preface including the 2017 American election updated bibliographies two new chapters and an afterword      Central and Eastern Europe, 1944-1993 Tibor Iván Berend, 1996 An ambitious comparative analysis of Eastern Bloc economies during a period of revolutionary change      **Socialist Realism in Central and Eastern European Literatures Under Stalin** Evgeniï

**Ukraine and Europe** Giovanna Brogi Bercoff, Marko Pavlyshyn, Serhii Plokhyy, 2017-01-01

Ukraine and Europe challenges the popular perception of Ukraine as a country torn between Europe and the east. Twenty-two scholars from Europe, North America, and Australia explore the complexities of Ukraine's relationship with Europe and its role in the continent's historical and cultural development. Encompassing literary studies, history, linguistics, and art history, the essays in this volume illuminate the interethnic, interlingual, intercultural, and international relationships that Ukraine has participated in. The volume is divided chronologically into three parts: the early modern era, the 19th and 20th century, and the Soviet and post-Soviet period. Ukraine in Europe offers new and innovative interpretations of historical and cultural moments while establishing a historical perspective for the pro-European sentiments that have arisen in Ukraine following the Euromaidan protests.

**Eastern Europe** Sabrina P. Ramet, 1998

Eastern Europe addresses the emergence of uncertain pluralism in the region following the disintegration of the communist regimes in 1989. Taking a broad historical approach, the volume considers issues and challenges that have marked Eastern Europe from 1939 through World War II and the era of socialism up to the present. Eight comprehensive country studies are augmented by detailed assessments of economic developments, security issues, religious currents, cultural policies, and gender relations in the region.

**The Novels of Mulk Raj Anand** Manmohan Krishna Bhatnagar, Mittapalli Rajeshwar, 2000

Mulk Raj Anand is one of the best-known novelists in English in India. Translated into many languages in India as well as abroad, he has been universally acclaimed as a progressive writer. The present anthology of recent critical essays probes into his internationally reputed novels like *Untouchable*, *Coolie*, *Gauri*, as well as his various collections of short stories. The critical perspective is fresh and innovative, embracing the latest critical theories and schools. The essays come up with novel insights into themes and characters, form and design. In the texts explored, the structural and rhetorical devices employed in the texts have also been analysed. Threadbare, a detailed interview with Anand facilitates a peep into the writer's workshop, revealing hitherto unexplored facets of Anand's artistic persona. A welcome addition to fiction studies, an indispensable collection of articles for students, teachers, and researchers in literary theory, fiction, Indian English literature, sociology of literature, and progressivism.

**Postmodernism and the Postsocialist Condition** Ales Erjavec, 2003-09-30

The Berlin Wall was coming down, the Soviet Union was dissolving, Communist China was well on its way down the capitalist path, the world was witnessing political and social transformations without precedent. Artists seeing it all firsthand responded with a revolution of their own. What form this revolution took, how artists in the 1980s marked their societies' traumatic transition from decaying socialism to an insecure future, emerges in this remarkable volume. With in-depth perspectives on art and artists in the former Soviet Union, the Balkans, and Mitteleuropa, China, and Cuba, all from scholars and art critics who were

players in the tumultuous cultural landscapes they describe this stunningly illustrated collection captures a singular period in the history of world art and a critical moment in the cultural and political transition from the last century to our own Authors Ales Erjavec Gao Minglu Boris Groys Peter Gyrgy Gerardo Mosquera and Misko Suvakovic observe distinct national differences in artistic responses to the social and political challenges of the time But their essays also reveal a clear pattern in the ways in which artists registered the exhaustion of the socialist vision and absorbed the influence of art movements such as constructivism pop art and conceptual art as well as the provocations of western pop culture Indebted to but not derived from capitalist postmodernism the result was a unique version of postsocialist postmodernism an artistic political innovation clearly identified and illustrated for the first time in these pages

**The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century** Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 Intellectual Horizons offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2004-05-28 National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities especially in multicultural East Central Europe the region between the German and Russian hegemonic cultural powers stretching from the Baltic states to the Balkans History of the Literary Cultures of East Central Europe which covers the last two hundred years reconceptualizes these literary traditions by de-emphasizing the national myths and by highlighting analogies and points of contact as well as hybrid and marginal phenomena that traditional national histories have ignored or deliberately suppressed The four volumes of the History configure the literatures from five angles 1 key political events 2 literary periods and genres 3 cities and regions 4 literary institutions and 5 real and imaginary figures The first volume which includes the first two of these dimensions is a collaborative effort of more than fifty contributors from Eastern and Western Europe the US and Canada The four volumes of the History comprise the first volume in the new

Presenting case studies from the UK France Sweden Spain Italy and the transnational Party of European Socialists this text provides a theoretically innovative explanation for the new social democratic turn to Europe It will be of interest to postgraduate students and academics studying researching social democratic parties      Periodization in the Art Historiographies of Central and Eastern Europe Shona Kallestrup, Magdalena Kunińska, Mihnea Alexandru Mihail, Anna Adashinskaya, Cosmin Minea, 2022-06-07 This volume critically investigates how art historians writing about Central and Eastern Europe in the late nineteenth and early twentieth centuries engaged with periodization At the heart of much of their writing lay the ideological project of nation building Hence discourses around periodization such as the mythicizing of certain periods the invention of historical continuity and the assertion of national specificity contributed strongly to identity construction Central to the book's approach is a transnational exploration of how the art histories of the region not only interacted with established Western periodizations but also resonated and entangled with each other In their efforts to develop more sympathetic frameworks that refined ignored or hybridized Western models they sought to overcome the centre periphery paradigm which equated distance from the centre with temporal belatedness and artistic backwardness The book thus demonstrates that the concept of periodization is far from neutral or strictly descriptive and that its use in art history needs to be reconsidered Bringing together a broad range of scholars from different European institutions the volume offers a unique new perspective on Central and Eastern European art historiography It will be of interest to scholars working in art history historiography and European studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license      Building the State: Architecture, Politics, and State Formation in Postwar Central Europe Virag Molnar, 2013-10-08 The built environment of former socialist countries is often deemed uniform and drab an apt reflection of a repressive regime Building the State peeks behind the grey facade to reveal a colourful struggle over competing meanings of the nation Europe modernity and the past in a divided continent Examining how social change is closely intertwined with transformations of the built environment this volume focuses on the relationship between architecture and state politics in postwar Central Europe using examples from Hungary and Germany Built around four case studies the book traces how architecture was politically mobilized in the service of social change first in socialist modernization programs and then in the postsocialist transition Building the State does not only offer a comprehensive survey of the diverse political uses of architecture in postwar Central Europe but is the first book to explore how transformations of the built environment can offer a lens into broader processes of state formation and social change      **Representation and the Twentieth-century Novel** Paul D.
