*EBOOK: Critical Challenges For Health Care Reform In Europe* Richard B. Saltman, Josep Figueras, Constantino Sakellarides, 1998-10-16 This volume explores the central issues driving the present process of healthcare reform in Europe 17 chapters written by scholars and policy makers from all parts of Europe draw together the available evidence from epidemiology and public health economics public policy organizational behaviour and management theory as well as real world policy making experience laying out the options that health sector decision makers confront Through its cross disciplinary cross national approach the book highlights the underlying trends that now influence health policy formulation across Europe An authoritative introduction provides a broad synthesis of present trends and strategies in European health policy

**Social Cohesion and Social Change in Europe** Gerard Boucher, Yunas Samad, 2017-10-02 Social cohesion has had different meanings for people depending on their background their interests where they live in the world and at what time they lived In the social sciences social cohesion is a term used to explain the social and cultural consequences of structural changes related to industrialization and modernity In the European Union structural changes which relate to globalization European integration the restructuring of welfare states ageing societies and transitions from communism have often led to more insecurity and material inequalities between people Higher rates of immigration and issues related to the integration of migrants and their descendants have also led to anxieties about the preservation of national cultures and

identities This book argues that perceived crises in social cohesion in Europe have more to do with the consequences of structural change rather than the failure of multiculturalism and immigration It looks at the relationship between social cohesion and social change in Europe focusing on the European Union as a whole and on urban areas such as Paris France and Bradford UK This book was originally published as a special issue of *Patterns of Prejudice* *Britain and Canada and Their Large Neighboring Monetary Unions* Amy Verdun,2006 Britain is confronted with the EU and its Economic and Monetary Union or the eurozone an area of 12 EU Member States in which the Euro is the single currency At a time in which the discussion revolves around the future of national currencies this work looks at the question of monetary integration for the cases of Britain and Canada *The End of European Integration* Paul Taylor,2007-11-30 Written by a leading international expert on European integration this volume examines the European Union in a period of hesitation about future integration in the early twenty first century **Europe Since 1945** Mary Fulbrook,2001 This text brings home the waves of transformation that have washed across Europe in the second half of the 20th century sketching out general patterns of this change and exploring some of the local themes and variations in parts of Europe **Social Security Pension Reform in Europe** Martin Feldstein,Horst Siebert,2009-02-15 Social Security in the United States and in Europe is at a critical juncture Through the essays assembled in *Social Security Pension Reform in Europe* Martin Feldstein and Horst Siebert along with a number of distinguished contributors discuss the challenges facing Social Security reform in the aging societies of Europe A remarkable range of European nations Germany France Finland the Netherlands Poland Romania Italy Sweden the United Kingdom and Hungary have implemented or are about to implement mixed Social Security systems that combine a traditional defined benefit of the pay as you go system with an individual retirement account defined contribution of a capital funded system The essays here highlight the problems that the European pension reform process faces and how it differs from that of the United States This timely volume will significantly enrich the debate on pension reform worldwide **Health Care and Cost Containment in the European Union** Elias Mossialos,Julian Le Grand,2019-05-20 First published in 1999 this volume aims to describe and analyse the experience of cost containment in Europe over the last fifteen years in order to understand that experience and to determine as best we can which methods were successful and which were not Part I provides an overview of healthcare in the European Union an overview of recent expenditure trends Part II complements the first examining in detail cost containment policies in each EU Member State The country based chapters refer to developments up to mid 1997 **Activation and Labour Market Reforms in Europe** S. Betzelt,S. Bothfeld,2011-06-14 This book analyzes in what way activation policies impact on given patterns of social citizenship that predominate in national contexts It argues that the liberal paradigm of activation introduced into labour market policies in all Western European states challenges the specific patterns of social citizenship in each country **Reforming Long-term Care in Europe** Joan Costa-Font,2011-07-25 *Reforming Long term Care in Europe* offers the most up to date analysis of the features and

developments of long term care in Europe Each chapter focuses on a key question in the policy debate in each country and offers a description and analysis of each system Offers the very latest analysis of long term care reform agendas in Europe Compares countries comparatively less studied with the experiences of reform in Germany the UK Netherlands and Sweden Each chapter focuses on a key question in the policy debate in each country and portrays a description and analysis of each system Contributions from a wide range of European scholars for an exceptionally broad perspective

**Reforming Early Retirement in Europe, Japan and the USA** Bernhard Ebbinghaus, 2008-10-16 Since the 1970s early exit from work has become a major challenge in modern welfare states Governments employers and unions alike once thought of early retirement as a peaceful solution to the economic problems of mass unemployment and industrial restructuring Today governments and international organizations advocate the postponement of retirement and an increase in activity among older workers Comparing the USA eight European countries and Japan this book demonstrates significant cross national differences in early retirement across countries and over time The study evaluates the impact of major variations in welfare regimes production systems and labor relations It stresses the importance of the pull factor of extensive welfare state provisions particularly in Continental Europe the push factor of labor shedding strategies by firms particularly in Anglo American market economies and the role of employers and worker representatives in negotiating retirement policies particularly in coordinated market economies Over the last three decades early retirement has become a popular social policy and employment practice in the workplace adding to the fiscal crises and employment problems of today s welfare states Attempts to reverse early retirement policies have led to major reform debates Unilateral government policies to cut back on social benefits have not had the expected employment results due to resistance from employers workers and their organizations Successful reforms require the cooperation of both sides This study provides comprehensive empirical analysis and a balanced approach to studying both the pull and the push factors affecting early exit from work needed to understand the development of early retirement regimes

*Tax Systems and Tax Reforms in Europe* Luigi Bernardi, Paola Profeta, 2004 This impressive book featuring contributions from leading scholars will be of great interest not only to academics but also to those involved in the financial sectors across the world

New Capitalism? Kevin Doogan, 2009-03-02 Looks at contemporary social transformation through the lens of the labour market This book covers major themes of the day globalization technological change the pension and demographic timebombs flexibility and traditional employment

*Reforms in Long-Term Care Policies in Europe* Costanzo Ranci, Emmanuele Pavolini, 2012-11-08 Over the last two decades many changes have happened to the social welfare policies of various industrial countries Citizens have seen their pensions unemployment benefits and general healthcare policies shrink as belt tightening measures are enforced But in contrast long term care has seen a general growth in public financing an expansion of beneficiaries and more generally an attempt to define larger social responsibilities and related social rights The aim of this book is to describe and interpret the changes

introduced in long term care policies in Western Europe The volume argues that recent reforms have brought about an increasing convergence in LTC policies Most of the new programs have developed a new general approach to long term care based on a better integration of social care and health care The book explores increasing public support given to family care work in the past the family would take care of the elderly or infirm and increasing growth and recognition of a extended social care market by which care has shifted from a moral obligation based on family reciprocity to a paid professional activity A new social care arrangement has therefore been developing in Western countries based on a new mix of family obligations market provision and public support In order to understand such changes this analysis will take into account the social and economical impact of these reforms      Unemployment in the New Europe Nancy Bermeo,2001-08-27 This book

examines the consequences and interconnections between unemployment and European unification      **Environmental Policies for Air Pollution and Climate Change in the New Europe** Caterina De Lucia,2010-09-13 The interlinked issues of air pollution and energy policies in an enlarged Europe are currently subjects of major interest in economic environmental geography and regional sciences This interest is understandable given the considerable consequences on human health and on climate change issues at not only a European but a global level In addition the recent effects of economic fluctuation and oil prices as well as the actual restructuring of the European energy supply and security market raise a great deal of policy challenges These issues have become an increasingly relevant concern as the optimal design of policy by centralised European institutions has come under greater scrutiny This book presents an integrated approach to recent regulations on air pollution with particular emphasis on transborder air pollution climate change and energy policies in the new Europe This integrated vision embraces the extent to which global pollution influences policy decisions at different institutional levels the magnitude by virtue of policy simulation analysis of environmental policy tools i e environmental taxes on aggregate welfare and transboundary air emissions fluxes in light of the recent enlargement process the European Trading System and its flexible mechanisms to curb carbon emissions and fulfil the European Union Kyoto Protocol s commitments and the developments of the new European energy strategy and its interdependencies across energy requirements innovation competitiveness and climate change The book is primarily aimed at Postgraduates and Postdoctoral research students in economics environmental economics environmental sciences or environmental policy disciplines However it should also be of interest to environmental economists energy policy analysts members of governmental and non governmental agencies dealing with environmental policy climate change or air pollution      **EMU and Political Science** Henrik Enderlein,Amy

Verdun,2013-10-31 Europe s Economic and Monetary Union EMU celebrated its tenth anniversary in 2009 Before its birth many observers were concerned about its viability This volume examines a number of noteworthy concerns that were heard a decade ago and it assesses what has become of them The contributors to this volume examine various topics Has EMU been a failure or success Does EMU require more political integration What type of deeper integration in the financial market has

occurred because of EMU Does the public like EMU Does EMU cause a decline of the welfare state reduce the role of labour unions and are adjustments now made mainly through the labour market Do countries in EMU become more similar over time Is EMU sustainable in the long run Will EMU survive the global financial crisis The contributors to this book are leading Political Scientists in the field and draw on a wealth of research and experience This book was published as a special issue of the Journal of European Public Policy      *Climate Change Policy in the European Union* Andrew Jordan,Dave Huitema,Harro van Asselt,Tim Rayner,Frans Berkhout,2010-04-29 The European Union EU has emerged as a leading governing body in the international struggle to govern climate change The transformation that has occurred in its policies and institutions has profoundly affected climate change politics at the international level and within its 27 Member States But how has this been achieved when the EU comprises so many levels of governance when political leadership in Europe is so dispersed and the policy choices are especially difficult Drawing on a variety of detailed case studies spanning the interlinked challenges of mitigation and adaptation this volume offers an unrivalled account of how different actors wrestled with the complex governance dilemmas associated with climate policy making Opening up the EU s inner workings to non specialists it provides a perspective on the way that the EU governs as well as exploring its ability to maintain a leading position in international climate change politics
