*Community Health Education and Promotion* Mary Ellen Wurzbach, 2004. Utilizing a practical hands-on approach, *Community Health Education and Promotion* Second Edition provides both students and practicing health professionals with an easy-to-use guide to the various stages of health care education program development, including planning and design, implementation, promotion, and evaluation, with special emphasis on populations with shared risks, exposures, and behaviors. Learning objectives begin each chapter. Goals and objectives for Healthy People 2010 Practice-oriented, ready-to-use handouts, checklists, sample forms, and worksheets. All-inclusive index to easily locate specific items and cross-reference subject areas.

*Health Promotion Programs* Society for Public Health Education (SOPHE), 2010-03-18. *Health Promotion Programs* introduces the theory of health promotion and presents an overview of current best practices from a wide variety of settings that include schools, health care organizations, workplace, and community. The 43 contributors to *Health Promotion Programs* focus on students and professionals interested in planning, implementing, and evaluating programs that promote health equity. In addition to the focus on best practices, each chapter contains information on:

- Identifying health promotion programs
- Eliminating health disparities
- Defining and applying health promotion theories and models
- Assessing the needs of program participants
- Creating and supporting evidence-based programs
- Implementing health promotion programs
- Tools, program staff, and budgets
- Advocacy
- Communicating health information effectively
- Developing and increasing program funding
- Evaluating, improving, and sustaining health promotion programs
- Health promotion challenges and opportunities
- Health promotion resources and career links

The authors have clearly connected the dots among planning, theory, evaluation, health disparity, and advocacy and have created a user-friendly toolbox for health promotion empowerment.

**Rethinking Health Promotion** Theodore H. MacDonald, 2012-10-12 In today s world health means far more than merely the absence of illness In *Rethinking Health Promotion* Theodore H MacDonald sweeps away the confusion surrounding the function and position of health promotion He argues that far from being a modern innovation health promotion has existed as a distinct and separate enterprise for as long as biomedicine and cautions against health promotion becoming organized merely an off shoot of medical care Drawing on the author s experience as a World Health Organisation consultant the book also tackles the question of whether health promotion has relevance on an international scale or whether it is purely a eurocentric phenomenon Against this background individual chapters explore universal factors such as sexual health diet unemployment alcohol and tobacco use With its critical and historical approach this book breaks new ground in assessing health promotion and will be stimulating reading for the wide variety of students and professionals studying health promotion
