The Evaluation of the Washington State Family Independence Program Sharon Long, Demetra S.

Nightingale, Douglas A. Wissoker, 1994 This volume the result of the Urban Institute s evaluation of the Washington State Family Independence Program FIP examines a state s effort to implement a welfare reform program designed to help welfare families become more economically self sufficient The implementation of FIP was expected relative to the regular Aid to Families with Dependent Children program to increase participation in education training and employment which would in turn reduce welfare participation FIP did not achieve these results Relative to traditional welfare in the comparison sites FIP had little or no impact on education and training it reduced employment and earnings a little and it increased welfare participation sunstantially The authors present the data gathered by the Urban Institute over the past five years and analyze the reasons for FIP s failure to meet its original goals

Handbook of Practical Program Evaluation Joseph S. Wholey, Harry P. Hatry, Kathryn E. Newcomer, 2010-11-04 Praise for the third edition of the Handbook of Practical Program Evaluation Mix three of the most highly regarded evaluators with a team of talented contributors and you end up with an exceedingly practical and useful handbook that belongs on the reference shelf of every evaluator as well as program and policy officials Jonathan D Breul executive director IBM Center for The Business of Government Joe Wholey and his colleagues have done it again a remarkably comprehensive thoughtful and interesting guide to the evaluation process and its context that should be useful to sponsors users and practitioners alike Eleanor Chelimsky former U S Assistant Comptroller General for Program Evaluation and Methodology Students and practitioners of public policy and administration are fortunate that the leading scholars on evaluation have updated their outstanding book This third edition of the Handbook of

Practical Program Evaluation will prove once again to be an invaluable resource in the classroom and on the front lines for a public service under increasing pressure to do more with less Paul L Posner director public administration George Mason University and immediate former president the American Society of Public Administration The third edition of the Handbook of Practical Program Evaluation reflects the evolving nature of the field while maintaining its value as a guide to the foundational skills needed for evaluation Leslie J Cooksy current president the American Evaluation Association This third edition is even more of a must have book than its earlier incarnations for academics to give their students a comprehensive overview of the field for practitioners to use as a reference to the best minds on each topic and for evaluation funders and consumers to learn what is possible and what they should expect I've been in evaluation for 35 years and I used the first and second editions all the time Michael Hendricks Ph D independent evaluation consultant Status Report ,1995 **Welfare to Work** Daniel G. Rodriguez,1997-03 Reviews the evaluations of the numerous state welfare to work experiments completed since the reforms enacted in 1988 Responds to these questions 1 How do they resemble the welfare reforms currently being discussed and 2 What approaches have been effective in increasing employment and earnings or reducing receipt among welfare clients Presents the results of an evaluation synthesis of nine published high quality studies from eight states of welfare to work experiments for adult AFDC recipients All nine studies used comparison groups Tables **Evaluating JTPA Programs for Economically Disadvantaged Adults** William Bowman,1993 **The End of Welfare** Michael Tanner,1996 Argues for the abolishment of the current system **Handbook of Family Literacy** , **From Welfare to Work** Judith M. Gueron,Edward Pauly,1991-08-29 From Welfare to Work appears at a critical moment when all fifty states are wrestling with tough budgetary and program choices as they implement the new federal welfare reforms This book is a definitive analysis of the landmark social research that has directly informed those choices the rigorous evaluation of programs designed to help welfare recipients become employed and self sufficient It discusses forty five past and current studies focusing on the series of seminal evaluations conducted by the Manpower Demonstration Research Corporation over the last fifteen years Which of these welfare to work programs have worked For whom and at what cost In answering these key questions the authors clearly delineate the trade offs facing policymakers as they strive to achieve the multiple goals of alleviating poverty helping the most disadvantaged curtailing dependence and effecting welfare savings The authors present compelling evidence that the generally low cost primarily job search oriented programs of the late 1980s achieved sustained earnings gains and welfare savings However getting people out of poverty and helping those who are most disadvantaged may require some intensive higher cost services such as education and training The authors explore a range of studies now in progress that will address these and other urgent issues They also point to encouraging results from programs that were operating in San Diego and Baltimore which suggest the potential value of a mixed strategy combining job search and other low cost activities for a broad portion of the caseload with more specialized services for smaller groups Offering both an authoritative synthesis

of work already done and recommendations for future innovation From Welfare to Work will be the standard resource and required reading for practitioners and students in the social policy social welfare and academic communities **A**
