## **Evangelical Movement Growth Impact Controversy Dialog:**

*Everything You Know about Evangelicals Is Wrong (Well, Almost Everything)* Steve Wilkens, Don Thorsen, 2010-08-01 While evangelicals make up a significant portion of American society they still constitute a mystery for many. They exert considerable influence on virtually every aspect of American life and culture yet by those who don't appreciate them they're seen as rednecks, crypto fundamentalists and people without education. Wilkens and Thorsen contend that evangelicals are tired of being caricatured and provide an insider's look at myths and realities surrounding the movement. They winsomely and sometimes humorously assess the breadth and depth of evangelical beliefs, values and practices, arguing that evangelicalism is identifiable by a family resemblance, vitality and relevance that transcends particular theological and political stereotypes that arise inside as well as outside of it. The book provides a synthetic presentation of contemporary evangelical Christianity as well as critiques of it.

The Dispensational-Covenantal Rift R. Todd Mangum, 2007-06-01 This groundbreaking study explores how the fight between dispensationalists and covenant theologians started and how a unique dynamic of personalities and sociological factors enflamed it. Readers may be surprised to discover that even the terminology of dispensationalists and covenant theologians originated in the 1930s; disputes that the majority of the original protagonists on both sides were Presbyterians and that soteriology rather than eschatology was the original bone of contention between them. This study examines how two respective strands of fundamentalism came to identify one another as theological rivals as they each vied for position in their recently formed separatist bodies. The significance of disagreements over dispensationalism is explored in the founding of the Orthodox Presbyterian and Bible Presbyterian churches. And then as the debate traveled southward, the response of the PCUS is examined with special attention given to the consummative reports of an ad hoc committee that found dispensationalism to be out of harmony with the Westminster doctrinal standards. Significant misunderstandings that impeded fruitful dialogue from the beginning are clarified, particularly those that have persisted most stubbornly to the present day. Perhaps most surprising of all, the reader will discover that nearly all of the original points of debate between dispensationalists and covenant theologians have since been resolved as each side has honed its position in light of pertinent critiques. Why has this development gone almost unnoticed? This study suggests an answer and proposes that understanding how the feud began may hold the key to rapprochement today.
