**Gastonia 1929** John A. Salmond, 2014-10-27 Of the wave of labor strikes that swept through the South in 1929 the one at the Loray Mill in Gastonia North Carolina is perhaps the best remembered In Gastonia 1929 John Salmond provides the first detailed account of the complex events surrounding the strike at the largest textile mill in the Southeast His compelling narrative unravels the confusing story of the shooting of the town's police chief the trials of the alleged killers the unsolved murder of striker Ella May Wiggins and the strike leaders conviction and subsequent flight to the Soviet Union Describing the intensifying climate of violence in the region Salmond presents the strike within the context of the southern vigilante tradition and as an important chapter in American economic and labor history in the years after World War I He draws particular attention to the crucial role played by women as both supporters and leaders of the strike and he highlights the importance of race and class issues in the unfolding of events

**Distant Kinship** Matthias N. Lorenz, 2022-07-28 This study of Joseph Conrad's influential work *Heart of Darkness* presents for the first time the German language reception of this reference text in the debate on postcolonialism The spectrum ranges from Conrad's contemporaries like Kafka to many canonical authors of the 20th century including Thomas Mann Ernst Jünger Christa Wolf to the most recent names in literature i.e. Christian Kracht and Lukas Bärfuss Beyond the readings of their works the study contributes to the study of cultural transfers as well as to Conrad philology and it expands the theory of intertextuality with parameters that capture the complex factor of power in postcolonial relations

*Amenities of Literature, Consisting of Sketches and Characters of English Literature* Isaac D'Israeli, 1841

**Remembering Africa** Dirk Göttsche, 2013 A groundbreaking treatment of the themes of colonialism and Africa in German literary fiction as presented in some fifty novels from the past three decades In the late 1990s in the wake of German unification multiculturalism and globalization a surge of historical novels about German colonialism in Africa and its previously neglected legacies hit the German literary scene This development accelerated by the centenary in 2004 of Germany's colonial war in South West Africa has continued to the present making colonialism an established theme of literary memorialization alongside Germany's dominant memory themes National Socialism and the Holocaust the former GDR and its demise in the Wende and more recently 1968 This is the first comprehensive study of contemporary German literature's intense engagement with German colonialism and with Germany's wider involvement in European colonialism Building on the author's decade of research and publication in the field the book discusses some fifty novels by German Swiss and Austrian writers among them Hans Christoph Buch Alex Capus Christof Hamann Lukas Hartmann Ilona Maria Hilliges Gisela W. Hoffmann Dieter Kehn Hermann Schulz Gerhard Seyfried Thomas von Steinaecker Uwe Timm Ilija Trojanow and Stephan Wackwitz Drawing on international postcolonial theory the German tradition of cross cultural literary studies and on memory studies the book brings the hitherto neglected German case to the international debate in postcolonial literary studies Dirk Göttsche is Professor of German at the University of Nottingham

The Reform Advocate ,1911      **Energy from the West: Geothermal** University of Oklahoma. Science and Public Policy Program,Irvin L. White,1979      **Scientific Materialism in Nineteenth Century Germany** F. Gregory,2012-12-06 A comprehensive study of German materialism in the second half of the nineteenth century is long overdue Among contemporary historians the mere passing references to Karl Vogt Jacob Moleschott and Ludwig Buchner as materialists and popularizers of science are hardly sufficient for few individuals influenced public opinion in nineteenth century Germany more than these men Buchner for example revealed his awareness of the historical significance of his *Kraft und Stoff* in comments made in 1872 just seventeen years after its original appearance A philosophical book which has undergone twelve big German editions in the short span of seventeen years which further has been issued in non German countries and languages about fifteen to sixteen times in the same period and whose appearance although its author was entirely unknown up to then has called forth an almost unprecedented storm in the press such a book can be nothing ordinary the world calling it enjoys at present must be justified through its wholly special characteristics or by the merits of its form and content Vogt Moleschott and Buchner explicitly held that their materialism was founded on natural science But other materialists of the nineteenth century also laid claim to the scientific character of their own thought It is likely that Marx and Engels would have permitted their brand of materialism to have been called scientific provided of course that scientific was understood in their dialectical meaning of the term Socialism Engels maintained had become a science with Marx      The Ambiguity of Taste Jocelyne Kolb,1995 An exploration into the role of food in the aesthetic revolution of Romanticism      **Deutsch's Letters** Solomon Deutsch,1878      The Cape Law Journal ,1888      **European Ecosystems** G. Marcuzzi,2012-12-06 There are many works written in several European languages on general animal and more especially vegetational ecology but the space devoted to the study and description of the various ecosystems both terrestrial and aquatic of Europe is very limited and this even in the books of European workers Indeed today we are in the strange position that while some extra European continents or parts of continents such as South Africa the west part of South American Australia the arid zones of the Old World not to mention Antarctica that recently has attracted the attention of a great number of students have been very thoroughly studied and illustrated for European ecosystems we have very scant information if we make allowance for the many analytical works on single natural or artificial environments generally belonging to Central or Northern Europe We have a beautiful book on the animal ecology of Palestine today comprising Israel plus Jordan written in the mid thirties by Bodenheimer However Palestine does not belong to Europe although some of the ecological and geographical peculiarities of the western part of the country do correspond very closely to those of Southern Europe      **The Recreations of a Country Parson** Andrew Kennedy Hutchison Boyd,2019-12-19 In *The Recreations of a Country Parson* Andrew Kennedy Hutchison Boyd offers a pastoral exploration of rural life through the lens of a clergyman's daily experiences and reflections Written in a conversational yet contemplative style this collection of essays beautifully interweaves humor theological

musings and vivid depictions of the countryside The book emerges from the backdrop of Victorian England capturing the zeitgeist of a time when the Church grappled with the tensions of modernity and tradition providing a unique perspective on the challenges and joys of clerical existence Boyd s own experiences as a country parson formed the foundation of his writings which reveal not just the duties of a clergyman but also his love for nature and the simple pleasures of rural life Having encountered a variety of pastoral challenges and joys in his service Boyd s insights reflect a deep understanding of both human complexity and divine grace His work embodies a profound empathy for his parishioners inviting readers to appreciate the rich tapestry of life that unfolds in a quiet village For readers seeking a thoughtful examination of faith community and the inherent beauty of the rural landscape Boyd s engaging narrative is both a comforting refuge and a reflective journey The *Recreations of a Country Parson* is a testament to the enduring power of literature that speaks to the human experience making it a timeless addition to any literary collection **The American Midland Naturalist** ,1951

South African Law Journal ,1888 **The Poems of Ossian** James Macpherson,1814 The Real Story Book Wallace Wadsworth,1927 Brain Science under the Swastika Lawrence A. Zeidman,2020-05-25 Eighty years ago the largest genocide ever occurred in Nazi Europe This began with the mass extermination of patients with neurologic and psychiatric disorders that Hitler s regime considered useless eaters The neuropsychiatric profession was systematically cleansed beginning in 1933 but racism and eugenics had infiltrated the specialty long before that With the installation of Nazi principled neuroscientists mass forced sterilization was enacted which transitioned to patient murder by the start of World War II But the murder of roughly 275 000 patients was not enough The patients brains were stored and used in scientific publications both during and long after the war Also patients themselves were used for unethical experiments Relatively few neuroscientists resisted the Nazis with some success in the occupied countries Most neuroscientists involved in unethical actions continued their careers unscathed after the war Few answered for their actions and few repented The legacy of such a depraved era in the history of neuroscience and medical ethics is that codes now exist to protect patients and research subjects But this protection is possibly subject to political extremes and individual neuroscientists can only protect patients and colleagues if they understand the dangers of a utilitarian unethical and uncompassionate mindset *Brain Science under the Swastika* is the only comprehensive and scholarly published work regarding the ethical and professional abuses of neuroscientists during the Nazi era The author has crafted a scathing tour de force exploring the extremes of ethical abuse but also ways that this can be resisted and hopefully prevented by future generations of neuroscientists and physicians
