## Ever Single Woman:

**The New Single Woman** E. Kay Trimberger, 2006-10-15 Drawing on stories from diverse women who have been single for many years Trimberger explodes the idea that fulfillment comes only through coupling with a soulmate Instead she presents an exciting new identity for women in the twenty first century the new single woman a woman who is content with her single life These gripping personal accounts of how single women's lives evolve over time combined with Trimberger's incisive analysis blend to provide a much needed cultural roadmap for every single woman who is striving to create a satisfying and meaningful life Trimberger's all inclusive paradigm shifting notion is one that ultimately strengthens and enriches both single women and couples *Single Lives* Katherine Fama, Jorie Lagerwey, 2022-05-13 Inspired by the current public fascination with single women *Single Lives* traces the relationship between modern and contemporary representations of single women The original essays collected here analyze a broad range of texts that examine the ways films cookbooks archives popular literature and other British and American texts express norms ideals and challenges for single women and their relationship to dominant ideals of marriage and the family This volume looks backwards to constellate existing scholarship constituent fields and unrecognized single voices and forward to consider new methods for interdisciplinary singles studies *Celebrating the Single Life* David Yount, 2009-02-24 American society is no longer defined by marriage Today an increasing majority of American households are headed by single men and women Even those Americans who do marry spend at least half of their adult lives alone Living on one's own presents unique challenges depending on one's age health and circumstances So the script for successful single living calls for different strategies for young adults the recently divorced single parents and those widowed or experiencing single life in later adulthood Here Dr Yount considers each group's special needs and challenges and offers a guide for leading a productive rewarding and fulfilling single life Single living he contends requires some core abilities overcoming loneliness reaching out to others developing faith in oneself and self respect keeping up with daily activities and maintaining good health security and a sense of humor This book helps readers learn to celebrate their single status and to find contentment and peace while living on their own These days if you are unmarried and pining for romance you are in a small minority Until recently most Americans considered single life to be a temporary situation during which one would simply wait for a soul mate to come along Those who remained unwed were pitied as bachelors and spinsters No longer These days most single men and women find autonomy in negotiating their way through life by relying on their own resources with marriage remaining one option but not an imperative Even those who do marry are getting married later and those who divorce or are widowed often choose to stay single With this trend toward singlehood increasing affirming the single life and making a success of it becomes all the more important Yount offers advice for creating a gratifying and happy single life at any stage and provides insight into those things that can contribute to a satisfying single lifestyle He pinpoints areas that often get ignored by singles and proposes solutions to some of the pitfalls

that can lead to loneliness or unhappiness Leading a fulfilling single life is not only possible it can in fact be rewarding in itself and Yount shows readers how to lead productive and creative lives as modern singles AMS. ,1956 **Fertility of Women by Residence, Age, Color, Marital Status, Education, Occupation of Husband, Etc** United States.
