Ed School Follies The Miseducation Of Americas Teachers

John Hummel

Ed School Follies The Miseducation Of Americas Teachers:

Ed School Follies Rita Kramer, 1991 Revealing that our teacher training institutes have reached an all time low this scathing expose shows a betrayal of traditional ideals and values and a remarkably low intellectual level throughout the educational establishment

The Trouble with Ed Schools David F. Labaree, 2008-10-01 American schools of education get little respect They are portrayed as intellectual wastelands as impractical and irrelevant as the root cause of bad teaching and inadequate learning In this book a sociologist and historian of education examines the historical developments and contemporary factors that have resulted in the unenviable status of ed schools offering valuable insights into the problems of these beleaguered institutions David F Labaree explains how the poor reputation of the ed school has had important repercussions shaping the quality of its programs its recruitment and the public response to the knowledge it offers He notes the special problems faced by ed schools as they prepare teachers and produce research and researchers And he looks at the consequences of the ed school s attachment to educational progressivism Throughout these discussions Labaree maintains an ambivalent position about education schools admiring their dedication and critiquing their mediocrity their romantic rhetoric and their compliant attitudes

Designing Performance Assessment Systems for Urban Teacher Preparation

Francine P. Peterman, 2005-05-06 Designing Performance Assessment Systems for Urban Teacher Preparation presents an argument for and invites critical examination of teacher preparation and assessment practices in light of both the complexity and demands of urban settings and the theories of learning and learning to teach that guide teacher education practices This dynamic approach distinguishes the authors stance on urban teacher assessment as one that can help address social justice issues related to gender race socioeconomic class and other differences and at the same time promote the professional development of all educators engaged in the process of learning to teach The contextually bound sociocultural stance that informs this book promises greater teacher and student achievement Culminating six years of vital dialogue and focused local activity among teachers and teacher educators from institutions in the Urban Network to Improve Teacher Education Designing Performance Assessment Systems for Urban Teacher Preparation presents the historical context that was examined for this work a theoretical framework to undergrad teacher preparation assessment and design principles to guide the development of assessment systems four case studies of participants struggles and successes in designing and implementing these systems and a discussion of the importance of context and current trends in assessment practices in urban teaching This volume is particularly relevant for university and school based teacher educators who help prepare teachers to work in urban schools and for personnel in state departments of education and other agencies who are responsible for certification and beginning teacher support While the focus is on preparing teachers for urban settings the theoretical and practical foundations and the case studies have broad implications and provide useful insights for anyone involved in developing and using performance assessment systems teacher educators university and school administrators

classroom teachers and educational researchers *Who's Teaching Your Children?* Vivian Troen, Katherine C. Boles, 2008-10-01 Many of the problems afflicting American education are the result of a critical shortage of qualified teachers in the classrooms The teacher crisis is surprisingly resistant to current reforms and is getting worse This important book reveals the causes underlying the crisis and offers concrete affordable proposals for effective reform Vivian Troen and Katherine Boles two experienced classroom teachers and education consultants argue that because teachers are recruited from a pool of underqualified candidates given inadequate preparation and dropped into a culture of isolation without mentoring support or incentives for excellence they are programmed to fail Half quit within their first five years Troen and Boles offer an alternative a model of reform they call the Millennium School which changes the way teachers work and improves the quality of their teaching When teaching becomes a real profession they contend more academically able people will be drawn into it colleges will be forced to improve the quality of their education and better prepared teachers will enter the classroom and improve the profession **Promoting and Sustaining a Quality Teacher Workforce** Alexander W. Wiseman, Gerald K. LeTendre, 2015-10-27 The volume considers teacher professionalization by examining how to create pipelines from secondary education into teaching preparing teacher educators creating linkages between providers of teacher education and the schools **Secondary English Teacher Education in the United States** Donna L. Pasternak, Samantha Caughlan, Heidi L. Hallman, Laura Renzi, Leslie S. Rush, 2017-12-14 Winner of the ELATE Richard A Meade Award 2018 Identifying key areas of teacher education that cross countries and disciplines this book provides the first extensive research based insight into how secondary English teachers are prepared at institutions of higher education in the United States of America US since the last major study in 1995 In the two decades since then English teacher education programs have developed in contextually dependent ways that often have been driven by institutional economic social and political considerations The authors provide an overview of their nationwide study of English teacher educators which was conducted over a four year period They analyze the context under which teacher educators currently prepare pre service English teachers in the US and support teacher educators in other countries to make comparisons to their own unique historical and cultural settings The authors also offer a comprehensive evaluation of the content practices and skills being taught to future teachers of English in university based teacher preparation programs in the US The book draws on evidence from a nationwide questionnaire case studies of teacher educators in their respective programs course syllabi and focus group interviews to focus on areas of instruction that resonate with teacher educators in countries where English is the dominant language of communication These areas include field experiences standards and assessment teaching literacy to integrate reading and writing working with English language learners to address cultural and linguistic diversity new technologies in English education **The Village Proposal** Christopher Paslay, 2011-09-01 The Village Proposal is based on the African proverb that it takes a village to raise a child Part education commentary part memoir the book analyzes the

theme of shared responsibility in public schools and evaluates the importance of sound teacher instruction the effectiveness of America s teacher colleges the need for strong school leaders and supports the need for strong parental and community involvement the effectiveness of multiculturalism and social justice in closing the achievement gap the relevancy of education policy the impact of private business and politics on schools and how the media and technology are influencing education

Behavior Analysis, Education, and Effective Schooling John Hummel,2000-05-01 Behavior Analysis Education and Effective Schooling explores topics in contemporary education and pedagogical practice through the lens of behavior analysis More than just thoughts on applying BA to education the book critiques current educational models and proposes ways our educational system could accomplish greater further reaching goals *From Athens to America* Lewis D.

Solomon,2007-10-01 *From Athens to America* calls for the reversal of the withdrawal of the character forming function from the political domain arguing for public sector_federal state and local_involvement in character formation Solomon focuses on four specific virtues to serve as a guide to public policy formation self esteem joy and optimism equanimity and personal responsibility He calls for the public sector to move beyond the efforts of families faith communities and civic organizations and take a vital role in fostering character development and promoting these virtues Combining political science with philosophy the Judeo Christian tradition and medical research this book illustrates how we formulate public policies that enable people to grow and develop into healthy humans what each of us is fully capable of becoming *Building a*

Higher Education John M. Ellis,2021-08-10 A series of near riots on campuses aimed at silencing guest speakers has exposed the fact that our universities are no longer devoted to the free exchange of ideas in pursuit of truth But this hostility to free speech is only a symptom of a deeper problem writes John Ellis Having watched the deterioration of academia up close for the past fifty years Ellis locates the core of the problem in a change in the composition of the faculty during this time from mildly left leaning to almost exclusively leftist He explains how astonishing historical luck led to the success of a plan first devised by a small group of activists to use college campuses to promote radical politics and why laws and regulations designed to prevent the politicizing of higher education proved insufficient Ellis shows that political motivation is always destructive of higher learning Even science and technology departments are not immune The corruption of universities by radical politics also does wider damage to primary and secondary education to race relations to preparation for the

workplace and to the political and social fabric of the nation Commonly suggested remedies new free speech rules or enforced right of center appointments will fail because they don t touch the core problem a controlling faculty majority of political activists with no real interest in scholarship This book proposes more drastic and effective reform measures The first step is for Americans to recognize that vast sums of public money intended for education are being diverted to a political agenda and to demand that this fraud be stopped

Topical Exploration in Literacy Education Cheu - Jey Lee, This book is a Topical Exploration in Literacy Education It s critically examine two interrelated aspects of literacy education and It s attempts to explore issues on literacy by addressing two specific questions what do we mean by literacy and what does it imply for literacy education

Controversial Therapies for Developmental Disabilities John W. Jacobson, Richard M. Foxx, James A. Mulick, 2005-01-15 One of the largest and most complex human services systems in Western nations has evolved to address the needs of people with developmental disabilities In the U S for example school budgets are stretched thin by legally mandated special education and billions of Medicaid dollars annually are consumed by residential and professional services to this population The temptation of a quick fix is strong Many parents desperately seek the latest ideas and place pressure on program administrators who often are not trained to think critically about the evidence base for intervention efforts The problems of people with developmental disabilities have historically been targeted by a wide range of professionals who rely on clinical experience and intuition and do not submit their claims to the tests of scientific research Professional entrepreneurs have energetically promoted their treatments to a public perhaps too trustful of those with credentials Thus families and their children are buffeted by reforms founded on belief and ideologically driven management Services fluctuate with the currents of social movements and rapidly shifting philosophies of care as policymakers and providers strive for increased responsiveness and individualization These forces affect not only where and how but how well people are served Too often services are less effective than they could be or worse damaging to personal growth and quality of life Many treatments are based on poorly understood or even disproven approaches What approaches to early intervention education therapy and remediation really help those with mental retardation and developmental disabilities improve their functioning and adaptation And what approaches represent wastes of time effort and resources This book brings together leading behavioral scientists and practitioners to focus light on the major controversies surrounding these questions The authors review the origins perpetuation and resistance to scrutiny of questionable practices and offer a clear rationale for appraising the quality of services In an era of increasing accountability no one with a professional stake in services to individuals with mental retardation and developmental disabilities can afford not to read this book

The Schools We Need E.D. Hirsch, Jr., 2010-02-17 This paperback edition with a new introduction offers a powerful compelling and unassailable argument for reforming America s schooling methods and ideas by one of America s most important educators and author of the bestselling Cultural Literacy For over fifty years American schools have operated under the assumption that challenging

children academically is unnatural for them that teachers do not need to know the subjects they teach that the learning process should be emphasized over the facts taught All of this is tragically wrong Renowned educator and author E D Hirsch Jr argues that by disdaining content based curricula while favoring abstract and discredited theories of how a child learns the ideas uniformly taught by our schools have done terrible harm to America s students Instead of preparing our children for the highly competitive information based economy in which we now live our schools practices have severely curtailed their ability and desire to learn With an introduction that surveys developments in education since the hardcover edition was published The Schools We Need is a passionate and thoughtful book that will appeal to the millions of people who can t understand why America s schools aren t educating our children Teacher Education Policy and Practice Joce Nuttall,Alex

Kostogriz,Mellita Jones,Jenny Martin,2017-05-08 This volume addresses both evidence of impact and impact of evidence to reveal the complex dialogue between the enterprise of teacher education and evidence of its effects in the early 21st century taking a critical position on the very notions of evidence and impact that underpin contemporary policy frameworks Teacher education programs in Australia and internationally are challenged by contemporary policy frameworks to demonstrate evidence of the impact they have on the capacity of graduating teachers to act with confidence and competence in school and early childhood education classrooms At the same time the field of teacher education is increasingly working to build a robust platform of research evidence that speaks to these policy frameworks and to broader issues concerning the role of teaching and teacher education in society **Culture Wars** Roger Chapman,2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today Schools and Societies

Steven Brint,1998-01-14 For use as the core text for Sociology of Education courses offered in Sociology Departments and Social Foundations of Education courses offered in Schools of Education Schools and Societies is a gem of volume that combines in one comprehensive text superb theoretical acuity and scholarly judgment a keen sense of the connection of research to policy and a breadth of coverage that reflects the multidimensionality of education as an institution in a manner rare in social scientific treatments of education It deserves to be the leading survey of this field for a long time to come Paul DiMaggio Princeton University Our Underachieving Colleges Derek Bok,2009-02-28 Drawing on a large body of empirical evidence former Harvard President Derek Bok examines how much progress college students actually make toward widely accepted goals of undergraduate education His conclusions are sobering Although most students make gains in many

important respects they improve much less than they should in such important areas as writing critical thinking quantitative skills and moral reasoning Large majorities of college seniors do not feel that they have made substantial progress in speaking a foreign language acquiring cultural and aesthetic interests or learning what they need to know to become active and informed citizens Overall despite their vastly increased resources more powerful technology and hundreds of new courses colleges cannot be confident that students are learning more than they did fifty years ago Looking further Bok finds that many important college courses are left to the least experienced teachers and that most professors continue to teach in ways that have proven to be less effective than other available methods In reviewing their educational programs however faculties typically ignore this evidence Instead they spend most of their time discussing what courses to require although the lasting impact of college will almost certainly depend much more on how the courses are taught In his final chapter Bok describes the changes that faculties and academic leaders can make to help students accomplish more Without ignoring the contributions that America s colleges have made Bok delivers a powerful critique one that educators will ignore at their peril

Achieving World Class Standards OERI Study Group on Educating Teachers for World Class Standards,1993 In the spirit of education reform American education is challenged as never before to meet higher standards of teaching and learning In order to respond to these challenges the Office of Educational Research and Improvement convened a study group representing a cross section of individuals and organizations interested in the education of teachers Ideas and recommendations discussed by the study group centered around six issues 1 the kind of teaching needed to achieve world class standards 2 problems in educating teachers for world class standards 3 teacher education issues specific to core subject areas 4 needed changes in policies and practices in educating teachers 5 the potential of current reforms to facilitate needed changes and 6 recommendations for educating teachers for world class standards This report includes the following presentations What Kind of Teaching Do We Need for World Class Standards What Problems Must be Solved in Educating Teachers for World Class Standards How Will Changes in the Core Subject Areas Affect the Education of Teachers What Changes Are Needed in Policies and Practices That Affect the Education of Teachers and Will Current Reforms Contribute to the Changes Needed Two appendices provide a meeting agenda and a list of speakers and participants LL **Excellence for All** Jack Schneider,2011-12-15 Understanding the ideological underpinnings of education reform in the past three decades
