Educational Freedom In Urban Americahc2004:

Educational Freedom in Urban America David F. Salisbury, Casey Lartigue, 2004 This book offers a prescription for reform that includes freedom of choice among public and private schools

Educational Freedom in Urban America David Salisbury, Casey Lartigue Jr., 2004-05-25 In 1954 the U S Supreme Court declared segregated public schools unconstitutional The ruling in *Brown v Board of Education* set public education on a course toward equality Yet five decades later schools are not equal Minority children living in America s inner cities suffer disproportionately from a failing education system with black and Hispanic students dropping out of public high schools at much higher rates than whites There is however reason for hope The expansion of school choice offers new opportunities for children struggling in failing schools In this collection a dozen leading scholars educators and reformers including Andrew Coulson Floyd Flake Frederick Hess and Paul E Peterson examine the legacy of *Brown v Board* and its relation to the modern day school choice movement A school administrator and a charter school founder also reveal the challenges and obstacles faced by enterprising teachers in trying to help their students Together these experts expose the modern barriers that deprive inner city children of a good education and call for increased school choice as the most effective way to achieve the goals of *Brown v Board*

Educational Freedom in Urban America is essential reading for anyone concerned with the condition of our inner city schools and the racial and social inequities that still exist in American education

Liberation and Freedom in an Urban Learning Community Walter Norman Watts, 1973

The One Best System David B. Tyack, 1974 The *One Best System* presents a major new interpretation of what actually happened in the development of one of America s most influential institutions At the same time it is a narrative in which the participants themselves speak out farm children and factory workers frontier teachers and city superintendents black parents and elite reformers And it encompasses both the achievements and the failures of the system the successful assimilation of immigrants racism and class bias the opportunities offered to some the injustices perpetuated for others David Tyack has placed his colorful wide ranging view of history within a broad new framework drawn from the most recent work in history sociology and political science He looks at the politics and inertia the ideologies and power struggles that formed the basis of our present educational system Using a variety of social perspectives and methods of analysis Tyack illuminates for all readers the change from village to urban ways of thinking and acting over the course of more than one hundred years

We Want to Do More Than Survive Bettina L. Love, 2019-02-19 Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories research and historical events an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists Drawing on her life s work of teaching and researching in urban schools Bettina Love persuasively argues that educators must teach students about racial violence oppression and how to make sustainable change in their communities through radical civic initiatives and

movements She argues that the US educational system is maintained by and profits from the suffering of children of color Instead of trying to repair a flawed system educational reformers offer survival tactics in the forms of test taking skills acronyms grit labs and character education which Love calls the educational survival complex To dismantle the educational survival complex and to achieve educational freedom not merely reform teachers parents and community leaders must approach education with the imagination determination boldness and urgency of an abolitionist Following in the tradition of activists like Ella Baker Bayard Rustin and Fannie Lou Hamer We Want to Do More Than Survive introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice **City**

reading and the volume concludes with a bibliography Urban, Social, and Educational Issues Barry Persky, 1976

Schools as Radical Sanctuaries René Antrop-González, 2011-11-01 Large comprehensive urban high schools were designed and constructed with the belief that they could meet the needs of all its students academic and otherwise By and large however these schools have only done a good job of sorting students for specific jobs in a society based on capitalism and White supremacy Consequently students schooled in these large institutions are often sorted depending on how they are situated and or perceived by institutional agents i e teachers administrators guidance counselors and other staff along racial ethnic class gender sexual orientation and ability lines The overall result of such structurally and culturally based discriminatory practices has led to astronomically horrendous dropout pushout rates among urban youth particularly those of color who live in poverty However in such a sea of despair there exist islands of hope and miracles These islands of hope and miracles are constituted of small high schools that have become sanctuaries for their students their families and communities of color Moreover not only do these school sanctuaries exist but they have the potential to serve as inspirations to communities that are looking to the small schools initiative as a possible solution to the widespread failure of large comprehensive high schools to serve their needs Although much recent small schools research discusses the benefits of smallness very little of this research demonstrates or acknowledges the various ways in which communities have created small schools that have established the necessary conditions to make them sustainable culturally relevant and linked to social justice while greatly impacting the improved academic achievement of their students Therefore the focus of this book is to advance the school as radical sanctuary concept as described through the history curricula and experiences of urban youth and their teachers in two small urban high schools This book is important for those educationists who wish to deepen their understanding of small school reform and its implications for urban education *What Freedom in New York Schools?*

Hayes, 2019-12-15 As battles over school desegregation helped define a generation of civil rights activism in the United States a less heralded yet equally important movement emerged in Chicago Following World War II an unprecedented number of African Americans looked beyond the issue of racial integration by creating their own schools This golden age of private education gave African Americans unparalleled autonomy to avoid discriminatory public schools and to teach their children in the best ways they saw fit In *Schools of Our Own* Worth Kamili Hayes recounts how a diverse contingent of educators nuns and political activists embraced institution building as the most effective means to attain quality education He chronicles the extraordinary measures they employed to secure what many in the United States took for granted Even as the golden age came to an end it foreshadowed the complex and sometimes controversial reform efforts of the twenty first century *Schools of Our Own* makes a fascinating addition to scholarly debates about education segregation African American history and Chicago still relevant in contemporary debates about the fate of American public schooling *Civil Liberties of*
