Kenneth Richmond,2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people s research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion *Ideas of Education* Christopher Brooke,Elizabeth Frazer,2013-07-18 Provides an overview of the distinctive thinking of a fascinating mix of educational pioneers and thinkers from the canon of philosophers and philosophical schools from the classical medieval early modern and modern Includes Plato Aristotle Hobbes Locke Rousseau Wollstonecraft Humboldt Utopian socialists J S Mill Carpenter and Dewey *Utopias and Utopians* Richard C.S. Gilchrist,2017-09-04 This book considers the role played by co operative agriculture as a critical economic model which in Australia helped build public capital drive economic development and impact political arrangements In the case of colonial Western Australia the story of agricultural co operation is inseparable from that of the story of Charles Harper Harper was a self starting pioneering frontiersman who became a political commercial and agricultural leader in the British Empire s most isolated colony during the second half of the Victorian era He was convinced of the successful economic future of Western Australia but also pragmatic enough to appreciate that the unique challenges facing the colony were only going to be resolved by the application of unorthodox thinking Using Harper s life as a foil this

book examines Imperial economic thinking in relation to the co operative form of economic organisation the development of public capital and socialism It uses this discussion to demonstrate the transfer of socialistic ideas from the centre of the Empire to the farthest reaches of the Antipodes where they were used to provide a rhetorical crutch in support of purely pragmatic co operative establishments

Foley, 1992-02-27 This study explores the meanings ascribed to sexual difference in the theories of Charles Fourier the Saint Simonians and Flora Tristan Their concept of the feminine as a moral force justified a wide range of social roles for women In addition the feminine became a symbol of the harmony and co operation envisaged for the future The study shows that while these socialists challenged contemporary sex role definitions the new distinctions which they created nevertheless circumscribed the possibilities for female liberty
