Thirty-three articles from the Encyclopedia form this concise reference, which focuses on such topics as social and emotional development, anxiety in schools, effects of mood on motivation, peer learning, and friendship, and social networks. Saves researchers time in summarizing in one place what is otherwise an interdisciplinary field in cognitive psychology, personality, sociology, and education. Level of presentation focuses on critical research, leaving out the extraneous and focusing on need-to-know information. Contains contributions from top international researchers in the field.
