European Drug Policies and Enforcement Nicholas Dorn, Jorgen Jepsen, Ernesto Savona, A.P. Thirlwall, 1996-06-12 Drug problems present sharp challenges for policing and democracy in the European Union Harmonisation of anti trafficking measures contrasts with diversity of local policies on drug users Open drug scenes trigger innovative but often volatile responses This collection presents vivid experiences of drug policy making at city regional and higher levels For the future beyond 1996 EU confederal and intergovernmental scenarios have distinct implications for drugs Finally international dimensions are explored drug control through money laundering countermeasures trade and development policies security and EU enlargement *European Drug Policies* Renaud Colson, Henri Bergeron, 2017-01-27 The drug control regime established by the international community has not succeeded in curbing either the demand for or the offer of narcotics But despite a series of developments in the Americas including the legalisation of cannabis in Uruguay and in several states in the United States of America there is still little support in Europe for repealing drug prohibition laws Nevertheless a gradual policy convergence reveals the emergence of a European model favouring public health strategies over a strictly penal approach to combatting drugs while growing transnational support for legalisation indicates the persistence of an alternative paradigm for drug policy This book examines the various influences on drug policies in Europe as grassroots movements NGO networks private foundations and academic research centres increasingly confront the prevailing discourses of drug prohibition Pursuing an interdisciplinary approach and bringing together legal scholars social scientists and practitioners it provides a comprehensive and critical assessment of drug policy reform in Europe [Policies and Strategies to Combat Drugs in Europe](#) Georges Estievenart, 2023-08-28 This volume arose from a European Scientific Seminar on Strategies and Policies to Combat Drugs which was organized by the Commission of the European Communities at the European University Institute in Florence in December 1993 The significance of the seminar lay in the manner in which it sought to address the full range of issues associated with the drug problem at international national and local level Equally important was its success in attracting participants from a number of different disciplines scientific experts national and EU administrators working in the drugs field and members of the European Parliament That provided for a lively and wide ranging exchange of views and ideas which is reflected in the contributions and conclusions contained in this publication which comprises varied contributions and approaches to drug policies at international European national and local level It also focuses on the possibilities of a comprehensive Drug Strategy within the framework of the European Union **Anti-Drugs Policies of the European Union** M. Elvins, 2003-08-06 Martin Elvins book is the first to trace the evolution of anti drugs policies at European Union level from the late 1960s to the present Phases of drug policy development key policy actors and institutions are described with particular reference to the influence of transnational networks of expertise Policy development is placed in the context of both European integration and a broad harmonization of international policies against drug trafficking
