

received by Lord Albemarle for his capture of Havana in 1762? To be sure, this is of interest to specialists in British history, but are they likely to read a 1600 page book on Cuba? Does it really matter whether the rebels and/or government officials rode to military camps in Buicks or Cadillacs? Although the explanations of policy decisions in other countries dealing with Cuba are useful in placing the events in perspective, the detailed accounts of American and Spanish policy making in 1898 constitute diversions from the mainstream of Cuban developments, and represent a restatement of material that is readily available.

Inevitably in a work of this size, there are bound to be a few slips. For example, upon encountering references to Jose Marti's arrest as a youth, the reader is surprised to learn on page 295 that he was sentenced to six years in prison, having been told on page 256 that his term was six months. At one point (p. 313) Charles Dana rather than Joseph Pulitzer is identified as the owner of the *New York World*, although this is corrected in other references to the paper. A series of footnotes in chapter LXII to 1942 *Foreign Relations* cite volume V instead of volume VI (see p. 732 for example).

More important, however, is the matter of footnote citations and the use of quotations. A random check revealed several instances when an omission in a quotation was not indicated by ellipses (see for example, the quotations from George Cabot Lodge on p. 1180, from Lee Lockwood on p. 1326, from Ruby Hart Phillips on p. 607, and from *Foreign Relations*, 1942 on p. 732). In addition, in the quote from Lodge (p. 1180) the word "trucks" has been changed to "lorries" without the use of brackets or any indication that the phraseology has been altered. Professor Thomas cites only the page numbers of *Foreign Relations* volumes, without an identification of the document involved. The terminology "evidence of John Smith" is never explained, leaving the reader in doubt as to whether this means an interview, a manuscript, or documentation in private hands (and if the latter, what type of documentation). The bibliography lists only secondary works, and hence fails to collect, explain, or identify the location of other types of sources.

Professor Thomas has produced a formidable and extremely valuable reference work, but it must be used with caution. Unfortunately its readership will doubtless be more limited than should be the case, due to its size. It merits attention by all those interested in Cuba, for it provides a handy compendium of information available in the vast array of secondary works on Cuba. The portions on the early Castro years represent a significant contribution to an understanding of the complex currents of this era.
