## **European Enterprise Policy From Sme Policy To Entrepreneurship Policy:**

**European Enterprise Policy** Rudy Aernoudt, 2003 Since the findings that small firms were creating more jobs than large firms regional national and European authorities set up or intensified their SME policies Evaluations however showed that such policies often became a patchwork quilt of complexity and idiosyncrasy Moreover the support did not go to the SMEs that most needed it but to those that were well informed and eager to obtain grants In addition it led to discrimination amongst SMEs themselves Therefore authorities are exploring new ways of conducting enterprise policy In this context it is not amazing that so much emphasis has been put on the concept of entrepreneurship One of the key issues in this context is the compatibility of a classical SME policy with an entrepreneurship approach This book outlines the general principles of enterprise policy with concrete examples in different fields such as financing and incubators It analyses the role of big companies towards SMEs and focuses on the shift from an SME policy towards an entrepreneurship policy

**European Entrepreneurial Culture** Veronika Minkova, 2014-04-11 Inhaltsangabe Introduction From the 1940s to the 1980s large enterprises in Europe was clearly the dominant form of business organisation Small businesses were believed to be less efficient than their larger counterparts and only marginally involved in innovative activities This has gradually changed to the extent that at present national and supranational policy makers have given strong priority to entrepreneurship and small and medium sized enterprises SMEs Scholars argue that the outlook of the European economies has undergone a transformation from the managed to the entrepreneurial economy This sharp change of direction has been primarily driven by a combination of factors including the growing importance of the knowledge economy in terms of occupational choices factors of production and changing patterns of commercial activities concerns for high unemployment rates declining international competitiveness in comparison to the USA and Japan and rates of economic growth as well as an evidence of shifting patterns of consumer demand Evidently a

new vision of the EU's economic strategy has been conceived in terms of the belief that economic, social and environmental goals must go hand in hand in the 21st century. In the centre of this vision is the innovative entrepreneur who is believed to be a major ingredient for the revitalisation of European economies. The subject of entrepreneurship has been the topic of scholarship and research in a variety of academic fields. The interdisciplinary nature of scholarship reflects the subject as entrepreneurship itself is a multifaceted social and economic phenomenon. However, since there is no explicit horizontal entrepreneurship policy domain at the European level, the topic has not caught sufficient attention from European Union public policy analysts. The main purpose of the dissertation is to discuss how the EU accommodates the image of entrepreneurial economy within its policy making apparatus. A generalisation of European entrepreneurial economy has been made which underlines the supranational level of analysis and gives more attention to what has been undertaken collectively rather than individually by Member States. The dissertation begins in the following chapter by addressing the question of how entrepreneurship is understood and defined at the conceptual level. While it is clear that no specific definition of entrepreneurship exists, most studies conclude that it centres

*European Corporate Law* Adriaan F.M. Dorresteyn et al., 2022-07-26. This fully updated new edition provides an overview of the law regarding companies, business organizations and capital markets in Europe at both the European Union (EU) and Member State levels. It introduces the reader to the EU harmonization programme and describes how this has influenced corporate law in the various EU Member States. The authors describe common denominators as well as differences in the approach of national corporate laws. The authors highlight current and emerging trends in these areas of corporate law, including the freedom of establishment of companies within the EU, the European harmonization process and Member States' implementation of EU legislation, employee involvement in business organizations, the division of power between the different corporate bodies, the

functioning and regulation of company groups and cross border business combinations takeovers and restructuring tools The laws of France Germany and the Netherlands in particular are discussed and contrasted This discussion also includes the United Kingdom although no longer an EU Member State As in earlier editions the authors demonstrate that analysis and comparison of national corporate laws yield highly valuable general principles and observations not least because business organizations wherever located tend to show a fundamentally similar set of legal characteristics The Fourth Edition will continue to be of great value to practitioners and academics who wish to acquire a better understanding of European corporate law in its supranational dimension as well as in the similarities and differences among the various national legal systems It can also be used as a handbook for comparative corporate law courses

**European Corporate Law** Adriaan F.M. Strategic Management - New Rules for Old Europe Christian Scholz, Joachim Zentes, 2007-11-05 Perhaps it was not really meant the way it was said but when Donald Rumsfeld used the term Old Europe in his famous speech of January 22 2003 he coined a phrase to depict not the birthplace of modern society but a graveyard of old and outdated ideas Even though it is legitimate for many of us in Europe to oppose the underlying message of going to war in Iraq it makes absolute sense to examine the rules of the game which Europe is currently playing and which it will play in the future In doing so it becomes obvious that important changes are taking place Strategic Management New Rules for Old Europe makes the hidden rules governing strategic management in Europe transparent The book follows a from to logic and takes the reader along the course of changing conditions and contingencies Europe has not only witnessed major transformations such as the dramatic fall of the Iron Curtain economic and monetary integration and the incorporation of new member states Fundamental change can also be perceived with respect to the corporate responses to these ongoing dynamic changes Strategic Management New Rules for Old Europe is divided into four parts Each of these consists of several contributions starting with the focus on people then on culture then on systems
