

# Main Characteristics of European Fascism

- All-Powerful Leaders
  - Fascists believed that a single all-powerful leader like Mussolini or Hitler, could best represent the national will and lead the nation
- Extreme Militarism
  - Fascists used violence to defeat their political opponents and prepared to use war for their national expansion. Fascists saw war as a glorious experience.

# European Fascism

**A. Kallis**

## **European Fascism:**

**Who Were the Fascists** Stein Ugelvik Larsen, Bernt Hagtvet, Jan Petter Myklebust, 1980      **Fascism in Europe** S.J. Woolf, 2020-09-10 What was fascism why did it gain support between the wars and could it happen again This collection of essays published in 1981 by leading authorities on the subject offers a comprehensive study of European fascism with a detailed analysis of its roots its extraordinary strength between the two world wars and its prospects in modern Europe The essays discuss the economic political and social conditions out of which individual fascist movements arose the crucial problem of why a few fascist parties succeeded but most failed The essays on Italy Germany and Spain examine the continuities and contradictions between the fascist movements in opposition and the fascist regimes in power The introductory and conclusive essays are concerned with the overall problem of the historical nature of the fascist phenomenon but all the papers address themselves directly to this theme testing the generalizations made by social scientists against the historical experiences of individual countries Besides Italy and Germany which harboured the major fascist movements the countries discussed range from those with traditional parliamentary democracies such as England France Belgium and Norway to the new states which emerged from the collapse of the central European empires such as Austria Hungary Romania and Poland Originally published in 1968 under the title *European Fascism* this survey acquired a worldwide reputation for its excellent and wide ranging account of the history role and functions of fascism in Europe The present edition contains six new or wholly re written essays and three substantially revised ones      **Fascism in Europe, 1919-1945** Philip Morgan, 2003-09-02 *Fascism in Europe 1919 1945* surveys the phenomenon which is still the object of interest and debate over fifty years after its defeat in the Second World War It introduces the recent scholarship and continuing debates on the nature of fascism as well as the often contentious contributions by foreign historians and political scientists From the pre First World War intellectual origins of Fascism to its demise in 1945 this book examines the two waves of fascism in the immediate post war period and in the late 1920s and early 1930s whether the European crisis created by the Treaty of Versailles allowed fascism to take root why fascism came to power in Italy and Germany but not anywhere else in Europe fascism s own claim to be an international and internationalist movement the idea of totalitarianism as the most useful and appropriate way of analyzing the fascist regimes      **Rethinking Fascism and Dictatorship in Europe** A. Kallis, 2014-09-25 *Fascism* exerted a crucial ideological and political influence across Europe and beyond Its appeal reached much further than the expanding transnational circle of fascists crossing into the territory of the mainstream authoritarian and traditional right Meanwhile fascism s seemingly inexorable rise unfolded against the backdrop of a dramatic shift towards dictatorship in large parts of Europe during the 1920s and especially 1930s These dictatorships shared a growing conviction that fascism was the driving force of a new post liberal fiercely nationalist and anti communist order The ten contributions to this volume seek to capture theoretically and empirically the complex transnational dynamic

between interwar dictatorships This dynamic involving diffusion of ideas and practices cross fertilisation and reflexive adaptation muddled the boundaries between fascist and authoritarian constituencies of the interwar European right

**The Oxford Handbook of European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

**Varieties of Right-Wing Extremism in Europe** Andrea Mammone, Emmanuel Godin, Brian Jenkins, 2013-05-07 Beginning with an analysis of the complex relationship between fascism and the post war extreme right the book discusses both contemporary parties and the cultural and intellectual influences of the European New Right as well as patterns of socialization and mobilization It then analyses the effects of a range of factors on the ideological development of right wing extremism including anti-Semitism Islamophobia religious extremism and the approach towards Europe and the European Union The final sections investigate a number of activist manifestations of the extreme right from youth participation and the white power music scene to transnational rallies the Internet and football hooliganism In the process the book questions the notion that the contemporary extreme right is either completely novel or fully populist in character Drawing together a wide range of contributors this is essential reading for all those with an interest in contemporary extremism and fascism The book is a companion volume to Mapping the Extreme Right Routledge 2012 which has the same editors

[The Far-Right in International and European Law](#) Natalie Alkiviadou, 2019-04-18 Since the Second World War the international community has sought to prevent the repetition of destructive far right forces by establishing institutions such as the United Nations and by adopting documents such as the Universal Declaration of Human Rights Jurisprudence and conventions directly prohibit far right speech and expression Nevertheless recently violent far right entities such as Golden Dawn of Greece have received unprecedented electoral support xenophobic parties have done spectacularly well in elections and countries such as Hungary and Poland are being led by right wing populists who are bringing constitutional upheaval and violating basic elements of

doctrines such as the rule of law In light of this current reality this book critically assesses the international and European tools available for States to regulate the far right It conducts the analysis through a militant democracy lens This doctrine has been considered in several arenas as a concept more generally in the sphere of the European Convention on Human Rights in relation to particular freedoms such as that of association and as a tool for challenging the far right movement through the spectrum of political science However this doctrine has not yet been applied within a legal assessment of challenging the far right as a single entity After analysing the aims objectives scope and possibility of shortcomings in international and European law the book looks at what state obligations arise from these laws It then assesses how freedom of opinion and expression freedom of association and freedom of assembly are provided for in international and European law and explores what limitation grounds exist which are directly relevant to the regulation of the far right The issue of the far right is a pressing one on the agenda of politicians academics civil society and other groups in Europe and beyond As such this book will appeal to those with an interest in International European or Human rights Law and political science

**The Social Basis of European Fascist Movements** Detlef Mühlberger, 2015-10-16 Between 1919 and 1945 most countries in Europe spawned some form of fascism Some have become considerably more notorious than others this book first published in 1987 sets out to analyse the social forces that went into the making of the fascist parties of the major European countries and to show the similarities and differences in their constitution as well as to suggest reasons for their different degrees of penetration and success Few books have surveyed the whole field the team of contributors engaged in the present enterprise offer a systematic and thorough survey of the social characteristics of European fascist movements a subject of central importance to social and political history

The Extreme Right in Europe and the USA Paul Hainsworth, 2016-10-06 The rise of extreme right parties and neo fascist movements in recent years as a response to economic crisis has become a major concern for most European countries The phenomenon is likely to increase as more disillusioned and discontented sectors of the population become drawn towards intense nationalism and the scapegoating of foreigners Paul Hainsworth has assembled a team of experts in the field to present a comparative empirical assessment of the historical evolution nature and extent of the extreme right in Europe and the United States from the 1940s to the early 1990s This volume evaluates the nature and influence of the extreme right in the post war context

*Clerical Fascism in Interwar Europe* Matthew Feldman, Marius Turda, Tudor Georgescu, 2013-10-31 This edited volume arose from an international workshop convened in 2006 by Feldman and Turda with Tudor Georgescu supported by Routledge and the universities of Oxford Brookes Northampton and CEU Budapest As the field of fascist studies continues to integrate more fully into pan European studies of the twentieth century and given the increasing importance of secular political religion as a taxonomic tool for understanding such revolutionary movements this collection of essays considers the intersection between institutional Christian faiths theology and congregations on the one hand and fascist ideology on the other In light of recent debates concerning the

intersecting secularisation of religion and usually Christian based the sacralisation of politics Clerical Fascism in Interwar Europe approaches such conundrums from an alternative perspective How in Europe between the wars did Christian clergy laity and institutions respond to the rise of national fascist movements In doing so this volume provides case studies from the vast majority of European countries with analyses that are both original in intent and comprehensive in scope In dealing with the relationship of various interwar fascist movements and their respective national religious institutions this edited collection promises to significantly contribute to relevant academic historiographies and as such will appeal to a wide readership This book was previously published as a special issue of *Totalitarian Movements and Political Religions*     The European Union and the Anti-Enlightenment Tradition Tamas Dezso Ziegler, 2025-04-10 This book analyses EU and Member State decision making through a constructivist perspective and claims that a kind of latent intellectual phantom war is going on in Western societies This war is fought through social practices political debates and policy choices for and against the values and ideals of the Enlightenment The book accurately describes how the values of the Enlightenment and a contrary tradition the anti Enlightenment tradition shape and reshape law and public policy choices in Europe both at the level of the European Union and its member states The hidden war among historical phantoms affects European integration the values practices and policies including the legal background of democracy and the rule of law in our societies These traditions also affect how we think about humanism and universalism so they affect EU policies on refugees and other migrants the role of rationality in public decision making and the weakening and defense of checks and balances only to mention some crucial examples     **World Fascism** Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale *World Fascism A Historical Encyclopedia* covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal     Fascism and the Right in Europe 1919-1945 Martin Blinkhorn, 2014-07-22 This new text places interwar European fascism squarely in its historical context and analyses its relationship with other right wing authoritarian movements and

regimes Beginning with the ideological roots of fascism in pre 1914 Europe Martin Blinkhorn turns to the problem torn Europe of 1919 to 1939 in order to explain why fascism emerged and why in some settings it flourished while in others it did not In doing so he considers not just the major fascist movements and regimes of Italy and Germany but the entire range of fascist and authoritarian ideas movements and regimes present in the Europe of 1919 1945 *Fascism without Borders* Arnd Bauerkämper,Grzegorz Rossoliński-Liebe,2017-05-01 It is one of the great ironies of the history of fascism that despite their fascination with ultra nationalism its adherents understood themselves as members of a transnational political movement While a true Fascist International has never been established European fascists shared common goals and sentiments as well as similar worldviews They also drew on each other for support and motivation even though relations among them were not free from misunderstandings and conflicts Through a series of fascinating case studies this expansive collection examines fascism s transnational dimension from the movements inspired by the early example of Fascist Italy to the international antifascist organizations that emerged in subsequent years **A Companion to Modern European History** Martin Pugh,1997-10-22 Its sixteen thematic chapters each written by an expert in the field cover social and economic developments the rise and fall of all the major political movements as well as the immense changes generated by war and international diplomacy across Europe Fascism and Ideology Salvatore Garau,2015-03-24 This book develops a number of new conceptual tools to tackle some of the most hotly debated issues concerning the nature of fascism using three profoundly different national contexts in the inter war years as case studies Italy Britain and Norway It explores how fascist ideology was the result of a sustained struggle between competing internal factions which created a precarious but also highly dynamic balance between revolutionary totalitarian and conservative authoritarian tendencies Such a balance meant that these movements were hybrids with a surprising degree of internal diversity which cannot be explained away as simple opportunism or lack of ideological substance The book s focus on fascist ideology s internal variety and aggregative potential leads it to argue that when fascism succeeded this was less an effect of its revolutionary ideas than of the opposite namely its power to integrate elements from other pre existing ideologies Given the prevailing opinion that fascism is revolutionary by definition the book ultimately poses a challenge to the dominant view in the field of fascist studies *A History of Eastern Europe* Robert Bideleux,Ian Jeffries,2006-04-10 A History of Eastern Europe Crisis and Change is a wide ranging single volume history of the lands between the lands which have lain between Germany Italy and the Tsarist and Soviet empires Bideleux and Jeffries examine the problems that have bedevilled this troubled region during its imperial past the interwar period under fascism under communism and since 1989 While mainly focusing on the modern era and on the effects of ethnic nationalism fascism and communism the book also offers original striking and revisionist coverage of ancient and medieval times the Hussite Revolution the Renaissance the Reformation and the Counter Reformation the legacies of Byzantium the Ottoman Empire and the Hapsburg Empire the rise and decline of the Polish Lithuanian Commonwealth the impact of the

region's powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the 1920s land reforms and the 1930s Depression Providing a thematic historical survey and analysis of the formative processes of change which have played the paramount roles in shaping the development of the region A History of Eastern Europe itself will play a paramount role in the studies of European historians

**Conservatives and Right Radicals in Interwar Europe** Marco Bresciani, 2020-12-30 This book features a broad range of thematic and national case studies which explore the interrelations and confrontations between conservatives and the radical Right in the European and global contexts of the interwar years It investigates the political social cultural and economic issues that conservatives and radicals tried to address and solve in the aftermaths of the Great War Conservative forces ended up prevailing over far right forces in the 1920s with the notable exception of the Fascist regime in Italy But over the course of the 1930s and the ascent of the Nazi regime in Germany political radicalisation triggered both competition and hybridisation between conservative and right wing radical forces with increased power for far right and fascist movements The book will be of great interest to students and scholars of politics history fascism and Nazism

**Transnational Fascism in the Twentieth Century** Matteo Albanese, Pablo del Hierro, 2016-09-22 Developing a knowledge of the Spanish Italian connection between right wing extremist groups is crucial to any detailed understanding of the history of fascism Transnational Fascism in the Twentieth Century allows us to consider the global fascist network that built up over the course of the 20th century by exploring one of the significant links that existed within that network It distinguishes and analyses the relationship between the fascists of Spain and Italy at three interrelated levels that of the individual political organisations and the state whilst examining the world relations and contacts of both fascist factions from Buenos Aires to Washington and Berlin to Montevideo in what is a genuinely transnational history of the fascist movement Incorporating research carried out in archives around the world this book delivers key insights to further the historical study of right wing political violence in modern Europe

**Interwar East Central Europe, 1918-1941** Sabrina Ramet, 2020-05-07 This monograph focuses on the challenges that interwar regimes faced and how they coped with them in the aftermath of World War One focusing especially on the failure to establish and stabilize democratic regimes as well as on the fate of ethnic and religious minorities Topics explored include the political systems and how they changed during the two decades under review land reform Church state relations and culture Countries studied include Poland Czechoslovakia Hungary Yugoslavia Romania Bulgaria and Albania Sabrina Ramet has assembled a team of highly respectable country specialists to offer a fresh and historiographically updated reading of interwar developments in East Central Europe The volume is bookended by two excellent comparative and theoretically informed essays carefully weighing the multiplicity of factors contributing to the instability of the interwar regimes As a result this survey succeeds admirably in producing a nuanced narrative and analysis Maria Todorova University of Illinois at Urbana Champaign USA Sabrina Ramet together with a roster of other eminent scholars has produced an exciting new

history of interwar East Central Europe The volume has a clear focus on the failure of democracy 1918 to 1941 and on the bedeviling issues of ethnic minorities and of peasants the latter made up an overwhelming majority of much of the region s population The book will be of great interest to political scientists and historians of East Central Europe and of Europe more generally and it is perfect for classroom use Irina Livezeanu University of Pittsburgh USA

## **European Fascism** Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has be evident than ever. They have the ability to inspire, provoke, and ignite change.
