European Idea In History In The 19th And 20th Centuries A View From Moscow:

The European Idea in History in the Nineteenth and Twentieth Centuries Alexander Tchoubarian, 2014-04-08 First Published in 1995 One of the principal inferences of this book is that Russia was and remains an inalienable part of European civilization and culture After the French Revolution and the Napoleonic Wars Russian society was quick to grasp ideas of Enlightenment liberty equality and fraternity while other thinkers rejected this and insisted on Russian exclusivity The book concludes with a view of the future of Europe as the twenty first century approached **Kiev and Moscow in History**

Pietro Giuseppe Frè, 2024-12-12T00:00:00+01:00 In democracies unlike autarchies public opinion matters and partially determines History The unprovoked unexpected illegitimate and criminal Russian aggression against Ukraine has shocked disoriented and traumatized Western public opinion Outrage must remain strong and determined but critical understanding is also needed This book offers a twofold key to understanding current events which is focused both on the synthesis of their historical roots and on the experience of a diplomat pro tempore who since 2010 has directly witnessed Russian Federation's autocratic repressive and aggressive involution unravel As Tatiana Yankelevich Sakharov's adoptive daughter stresses in her Foreword to this book author's purpose is to open people's minds compel them to recognize their responsibility to the peaceful future of Europe do all they can and more to in turn compel their governments to stand forcefully for Ukraine's rights and freedom Should Europe fail to do that the price for its own freedom will be much higher **Europe's Long**

Century Spencer Di Scala, 2013 The twentieth century has been interpreted as a short century marked by extremes According to this view the century lasted only from 1914 to 1989 or 1991 These dates coincide with the rise and fall of communism that came to power in Russia in 1917 and ended with the fall of the Berlin wall 1989 or that of the Soviet Union 1991 Thus the concept of a short century is unduly influenced by a Cold War perspective In Europe's Long Century Spencer Di Scala presents an alternative view that will be more helpful to undergraduate history students in the twenty first century namely that twentieth century Europe was actually a long century lasting approximately from 1900 to 2000 with patterns and antecedents discernible before the century began and that continue to be elaborated today Comprehensive current and affordable Europe's Long Century integrates the histories of Eastern Europe Scandinavia and the Balkans that are often neglected in similar treatments It also thoroughly covers the role of science in shaping modern European life and the book's biographical sketches profile the lives of important though not always well known people who influenced Europe's long century **Europe as an Idea and an Identity** H. Mikkeli, 1998-01-28 Heikki Mikkeli charts the history of the idea of

Europe and European identity The first part introduces the various attempts to unify Europe from antiquity to the European Union In the second part the relationship of Europe with America and Russia is considered as well as the ambivalent role of Central Europe **Views on Europe** Lilli Riettiens, Elke Kleinau, 2022-04-04 The history of travel has long been constructed and described almost exclusively as a history of European male mobility without however explicitly making the gender and

whiteness of the travellers a topic The anthology takes this as an occasion to focus on journeys to Europe that gave non Europeans the opportunity to glance at Europe and to draw a picture of it by themselves So far little attention has been paid to the questions with which attributes these travellers endowed Europe and its people which similarities and differences they observed and which ideas of Europe they produced The focus is once again on Europe but not as the starting point for conquests or journeys From a postcolonial and gender historical view the anthology's contributions rather juxtapose self representations of Europe with perspectives that move in a field of tension between agreement contradiction and oscillation

Rethinking the Age of Emancipation Martin Baumeister, Philipp Lenhard, Ruth Nattermann, 2020-03-20 Since the end of the nineteenth century traditional historiography has emphasized the similarities between Italy and Germany as late nations including the parallel roles of great men such as Bismarck and Cavour Rethinking the Age of Emancipation aims at a critical reassessment of the development of these two late nations from a new and transnational perspective Essays by an international and interdisciplinary group of scholars examine the discursive relationships among nationalism war and emancipation as well as the ambiguous roles of historical protagonists with competing national political and religious loyalties

Europe Sven Tägil, 2001-01-01 This anthology gives an overview and an in depth description of Europe in historical terms providing explanation for the current period of dramatic development and integration process that has led to the increased strength of the European Union It also explores the simultaneous trend towards disintegration with an increased number of nationalist strivings of the traditional kind attempting to foresee the future structures by understanding the underlying processes through an analysis of the historical background

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991 Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin This study combines research into these texts and inquiry into those who write publish approve or criticize them Bringing together these perspectives provides a more complex view of school textbooks as final products of both top down and bottom up processes

This volume is aimed at postgraduates researchers and academics specializing in Soviet history contemporary Russian politics and society and history education and textbooks

Mapping Modernities Alan Dingsdale, 2013-02-01 When the communist governments of Eastern Europe and the Soviet Union collapsed between 1989 and 1991 there was a revived interest in a region that had been largely neglected by western geographers Mapping Modernities draws on the resulting work and other original theoretical and empirical sources to describe interpret and explain the place and spatial order of modernities in Central and Eastern Europe since 1920 to give a theoretically underpinned regional geography of the area The book interprets the geography of Central and Eastern Europe from 1920 to 2000 in terms of spatial modernity It details
