European Politics In The Age Of Globalization:

West European Politics in the Age of Globalization Hanspeter Kriesi (politicalologist), Edgar Grande, Romain Lachat, Dr Martin Dolezal, Simon Bornschier, Timotheos Frey, 2014-05-14 Examines the new configuration of political power in Western Europe as the radical right mobilises globalisation's losers West European Politics in the Age of Globalization, 2008 Over the past three decades the effects of globalisation and denationalisation have created a division between winners and losers in Western Europe This study examines the transformation of party political systems in six countries Austria France Germany the Netherlands Switzerland and the UK using opinion surveys **West European Politics in the Age of Globalization** Hanspeter Kriesi, Edgar Grande, Romain Lachat, Martin Dolezal, Simon Bornschier, Timotheos Frey, 2008-09-18 Over the past three decades the effects of globalization and denationalization have created a division between winners and losers in Western Europe This study examines the transformation of party political systems in six countries Austria France Germany the Netherlands Switzerland and the UK using opinion surveys as well as newly collected data on election campaigns The authors argue that as a result of structural transformations and the strategic repositioning of political parties Europe has observed the emergence of a tripolar configuration of political power comprising the left the moderate right and the new populist right They suggest that through an emphasis on cultural issues such as mass immigration and resistance to European integration the traditional focus of political debate the economy has been downplayed or reinterpreted in terms of this new political cleavage This new analysis of Western European politics will interest all students of European politics and political sociology *European Politics in the Age of Globalization* Howard J. Wiarda, 2001 This text focuses on European regional integration and the effects of globalization It emphasises the post Cold War issues and trends in the forefront of contemporary comparative political analysis and discusses the decline of political parties and ideologies European Politics Tim Bale, 2017-04-28 A fully revised fourth edition of a popular introduction to the comparative politics of Europe written by a highly respected authority on the subject This lively and thematically organised text provides an accessible guide to the institutions and the issues that matter in a continent where the boundaries between East and West and between domestic and European affairs are increasingly breaking down Covering a wide array of countries it is a concise yet comprehensive overview of one of the world's most important and fascinating regions Written in an approachable style and packed with up to date real world examples and information this is the ideal place for students to begin and to deepen their understanding of Europe's politics It can be adapted as a standalone text on modules on Comparative European Politics and will be of use as a key reading on undergraduate courses on Comparative Politics more broadly as well as European Union Politics New to this Edition Updated throughout to provide coverage of developments such as the Eurozone crisis the growth of left and right wing populism the rise of nationalism and Europe's on going immigration challenge Includes a short concluding chapter rounding up and considering the future of the book's core themes of Europeanization and multilevel

governance Additional country profiles on Croatia and Greece to ensure representative treatment of the key countries in Europe today **European Party Politics in Times of Crisis** Swen Hutter, Hanspeter Kriesi, 2019-06-27 A study of party competition in Europe since 2008 aids understanding of the recent often dramatic changes taking place in European politics

The Structure of Political Competition in Western Europe Zsolt Enyedi, Kevin Deegan-Krause, 2013-09-13 Is European party politics hovering above society Why do voters pick one party over others Is it a question of class Of religion Of attitudes about taxes or immigration or global warming Or is it something else entirely The Structure of Political Competition in Western Europe takes a detailed look at the ways in which Western Europe's party systems are anchored in social and ideological structures The book's first section focuses on the role of social structures particularly education class and religion and analyzes the complex interplay among these factors The second section addresses the ways that the sociological structures such as class and religion interact with voters' values The third section examines the way that these structures and values shape the space of political competition among parties The conclusion integrates the findings of the empirical articles putting them into broader comparative perspective discussing whether relatively predictable structures have been overwhelmed by media driven spectacles political personalities and focus on short term economic performance This volume will appeal to scholars and graduate students in Europe and those from North America Asia and other regions who study European politics political parties cleavages and political behaviour This book was published as a special issue of West European Politics

Street Politics in the Age of Austerity Marcos Ancelovici, Pascale Dufour, 2025-10-01 The past few years have seen an unexpected resurgence of street level protest movements around the world from the uprisings of the Arab Spring to the rise of the anti austerity Indignados in Spain and Greece to the global spread of the Occupy movement This collection is designed to offer a comparative analysis of these movements setting them in international socio economic and cross cultural perspective in order to help us understand why movements emerge what they do how they spread and how they fit into both local and worldwide historical contexts As the most significant wave of mass protests in decades continues apace this book offers an authoritative analysis that could not be more timely

The Politics of Welfare State Reform in Continental Europe Silja Häusermann, 2010-03-15 This book challenges existing theories of welfare state change by analyzing pension reforms in France Germany and Switzerland between 1970 and 2004 It explains why all three countries were able to adopt far reaching reforms adapting their pension regimes to both financial austerity and new social risks In a radical departure from the neo institutionalist emphasis on policy stability the book argues that socio structural change has led to a multidimensional pension reform agenda A variety of cross cutting lines of political conflict emerging from the transition to a post industrial economy allowed governments to engage in strategies of political exchange and coalition building fostering broad cross class coalitions in support of major reform packages Methodologically the book proposes a novel strategy to analyze lines of conflict configurations of political actors and coalitional dynamics over time This strategy combines

quantitative analyses of actor configurations based on coded policy positions with in depth case studies Varieties of Populism in Europe in Times of Crises Manuela Caiani, Paolo Graziano, 2021-03-25 Populism is booming across all the nuances of the political spectrum It occupies relevant positions in national parliaments in governmental coalitions with mainstream parties or as successful challengers of the political status quo This volume sheds new light on the topic from different methodological and theoretical angles and offers evidence from a variety of cases on the why and how questions on populism s emergence and consolidation in Europe over the past 30 years The volume composed of eight chapters investigates how different populist parties in the European Union have been affected by the various crises disentangling the role of the Great Recession vis vis other factors such as political and party system factors but also structural social changes or cultural opportunities in the growing strength of populist parties in various European countries More specifically the volume aims are to promote critical discussion on the concept of populism reflecting on its conceptual usability beyond the traditional party families to which it is usually related use a preliminary theoretical clarification to shed new light on the different ways in which populism has been articulated in the various European countries either in Continental and Southern Europe or in the lesser known and studied East Central countries since the economic crisis which has acted as an external shock for many party systems either giving birth to new political actors or consolidating existing ones investigate the connections between populism and the national contextual political and cultural specificities that can determine the development of different types of populisms across countries elaborating on different configurations of triggering conditions for populism and reflecting on the limitations of a discrete conceptualisation of the phenomenon The chapters in this book were originally published as a special issue of West European Politics *The European Union Beyond the Polycrisis?* Jonathan Zeitlin, Francesco Nicoli, 2020-06-09 The European Union beyond the Polycrisis explores the political dynamics of multiple crises faced by the EU both at European level and within the member states In so doing it provides a state of the art overview of current research on the relationship between politicization and European integration The book proposes that the EU s multi dimensional crisis can be seen as a multi level politics trap from which the Union is struggling to escape The individual contributions analyze the mechanisms of this trap its relationship to the multiple crises currently faced by the EU and the strategies pursued by a plurality of actors the Commission the European Parliament national governments to cope with its constraints Overall the book suggests that comprehensive grand bargains are for the moment out of reach although national and supranational actors can find ways of relaxing the politics trap and in so doing perhaps lay the foundations for more ambitious future solutions This book dedicated to the exploration of the political dynamics of multiple simultaneous crises offers an empirical and theoretical assessment of the existing political constraints on European integration Analysing domestic and European political reactions to the EU s polycrisis and assessing how EU institutions national governments and broader publics have responded to a new era of politicization The European Union beyond the Polycrisis will be of great

interest to scholars of European politics and the EU as well as professionals working in EU institutions national administrations and European advocacy groups The chapters were originally published as a special issue of the Journal of European Public Policy

Political Conflict in Western Europe Hanspeter Kriesi, Edgar Grande, Martin Dolezal, Marc Helbling, Dominic Höglinger, Swen Hutter, Bruno Wüest, 2012-07-26 What are the consequences of globalization for the structure of political conflicts in Western Europe How are political conflicts organized and articulated in the twenty first century And how does the transformation of territorial boundaries affect the scope and content of political conflicts This book sets out to answer these questions by analyzing the results of a study of national and European electoral campaigns protest events and public debates in six West European countries While the mobilization of the losers in the processes of globalization by new right populist parties is seen to be the driving force of the restructuring of West European politics the book goes beyond party politics It attempts to show how the cleavage coalitions that are shaping up under the impact of globalization extend to state actors interest groups and social movement organizations and how the new conflicts are framed by the various actors involved

Radical Left Voters in Western Europe Raul Gomez, Luis Ramiro, 2022-10-07 Radical Left Voters in Western Europe explores who votes for Radical Left Parties in contemporary Western Europe and why Once considered a relic of the past which was doomed to disappear in affluent societies Radical Left Parties were able to survive unprecedented electoral crises in the 1980s and 1990s to become a stable and significant feature of contemporary West European politics Despite this our knowledge of the electorate of contemporary Radical Left parties is extremely limited To fill this gap this book analyzes the radical left electorate in 17 West European countries Belgium Cyprus Denmark Finland France Greece Germany Iceland Ireland Italy Luxembourg the Netherlands Norway Portugal Spain Sweden and Switzerland for a period of 18 years 2000 18 The research combines data from multiple sources surveys country level data and party level data to show how amidst social and political change Radical Left Parties have been able to maintain a relatively sizeable and clearly identifiable electorate with fairly similar socio demographic and attitudinal features Moreover the book argues that in order to explain electoral support for Radical Left Parties it is important to consider not only voter characteristics but also the characteristics of the parties themselves and of the political and economic context in which they compete for votes This book will be of interest to scholars of comparative politics political sociology electoral behaviour and political parties

Dalton,2018-10-18 The process of electoral change is accelerating in contemporary democracies and this book explains why The emergence of Green parties in the 1980s and recent far right parties Brexit and Trump s 2016 victory are parts of this overall process Political Realignment tracks the evolution of citizen and elite opinions on economic and cultural issues from the 1970s to the 2010s and the impact of these changes on electoral politics and public policy Citizen positions on these cleavages have realigned over time producing a similar realignment in the structure of the party systems to represent these demands Economic issues remain important now joined by divisions on cultural issues as a backlash to modernization

Assembling an unprecedented time series of empirical evidence this study explains the new forces of elector change in both Europe and the United States **Europe's Migrant Policies** Suzanne Mulcahy,2011-10-18 What determines Europe s

migrant policies and where does the EU fit into this picture This book is a comparative analysis of the impact of the EU if any on the policies and politics of immigrant integration in its member states It investigates whether the EU can be a force for good in this policy area **Politicising Europe** Swen Hutter,Edgar Grande,Hanspeter Kriesi,2016-04-07 Maps and explains

how and why European integration has become politicised **Digital Media, Political Polarization and Challenges to Democracy** Maren Beaufort,2020-06-29 This book assesses the interplay between social media political polarization and civic engagement focusing on countries with differing media environments cultural specifics and degrees of democratization Taken from a variety of disciplinary perspectives and based on innovative theoretical interventions and empirically grounded research the contributions to this volume share a common aspiration to understand the democratic character of the new and thus far largely unknown media regime Such a regime has the potential to both enhance and undermine democracy in a time where the vulnerability of democracy is more obvious than ever before Featuring research from the USA Western Europe the Middle East and East Asia this book will be of interest to those studying recent political events in these regions as well as to those scholars of media studies whose research focuses on the inter relation of politics communication and the media This book was originally published as a special issue of Information Communication Society *The Oxford Handbook of Political Representation in Liberal Democracies* Robert Rohrschneider,J. J. A. Thomassen,2020 How can democracies effectively

represent citizens The goal of this Handbook is to evaluate comprehensively how well the interests and preferences of mass publics become represented by institutions in liberal democracies It first explores how the idea and institutions of liberal democracies were formed over centuries and became enshrined in Western political systems The contributors to this Handbook made up of the world s leading scholars on the various aspects of political representation examine how well the

political elites and parties who are charged with the representation of the public interest meet their duties. Clearly institutions often fail to live up to their own representation goals. With this in mind the contributors explore several challenges to the way that the system of representation is organized in modern democracies. For example actors such as parties and established elites face rising distrust among electorates. Also the rise of international problems such as migration and environmentalism suggests that the focus of democracies on nation states may have to shift to a more international level. All told this Handbook illuminates the normative and functional challenges faced by representative institutions in liberal democracies.
