European Security Without The Soviet Union:

European Security Without the Soviet Union Stuart Croft, Phil Williams, 1992 The dramatic events that occurred in Europe since 1989 have altered the course of European security The revolutions in eastern Europe the disappearance of the Warsaw Pact the collapse of the Soviet Union German unification and civil war in Yugoslavia have presented NATO and the West European Union with new challenges This study identifies the changing patterns of security in Europe by examining the major themes the primary security organizations and the policies of countries at the forefront of the security debate

Soviet Foreign Policy and European Security ,1972 European Security Michael Charles Pugh, 1992 This work covers the period from the end of the Cold War to the end of the century and specifically addresses the roles of the United States and the Soviet Union European Community security police Germany's role as bridge or frontier between East and West and transnational processes

Redefining European Security Carl C. Hodge, 2002-09-11 Redefining European Security is a collection of essays concerned with changing perspectives on peace and political stability in Europe since the end of the Cold War in both the hard security terms of military capacity and readiness and in the realm of soft security concerns of economic stability and democratic reform European governments the European Union and the North Atlantic Treaty Organization are dealing with the fundamental problem of determining the very parameters of Europe politically economically and institutionally This book defines security as the efforts undertaken by national governments and multilateral institutions beginning with the end of the Cold War and the reunification of Germany to continue to protect European populations from acts of war and politically motivated violence in light of the dissolution of the imminent political threat posed to Western Europe by the Soviet Union 1945 1991 Together these essays assess the progress made in Europe toward preventing conflict as well as in ending conflict when it occurs after the abrupt passing of a situation in which the source and nature of a conflict were highly predictable and the emergence of new circumstances in which potential security threats are multiple variable and difficult to measure Contemporary Europe is a mixture of old and new of arrested and accelerated history Europe's governments and institutions have been only partly successful in meeting new security challenges to a high degree because of failing unity and political will Yesterday Europe only just avoided perishing from imperial follies and frenzied ideologies wrote the late Raymond Aron in 1976 she could perish tomorrow through historical abdication

European Security in the 1990s W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This

is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion. There is also a problem in the perceived relative economic decline of the United States vis-à-vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe. Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels, transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism.

Central European Security Concerns Jacob Kipp, 2021-01-26 This book first published in 1993 examines the security concerns of the Central European countries in the immediate aftermath of the Cold War. The collapse of the Soviet Union brought considerable uncertainty and instability to its satellite states now free from Moscow's influence. This collection of essays by leading Central European experts analyses the problems and difficulties faced by these countries as well as the opportunities offered in forging new security doctrines and alliances.

NATO's Security Discourse After the Cold War Andreas Behnke, 2013 This book provides a critical investigation into the discursive processes through which the North Atlantic Treaty Organisation NATO reproduced a geopolitical order after the end of the Cold War and the demise of its constitutive enemy the Soviet Union.
