European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

major influence over domestic politics and economics and when the interest in Marxism can be expected to grow The book continues to provide a critique of the neo Gramscians and of what the author argues is their one sided reading of Gramsci Placing coercion at the centre of a mode of production analysis of world order the author elaborates a Marxist alternative to neo Gramscianism that provides more robust explanations of world order dynamics and change Using a combination of IR theory and historical explanation including of contemporary world order dynamics and US power this book will appeal to both students and scholars of International Relations international studies and international history **Research Yearbook 2000/2001** Arthur Fleiss, 2002 **The NEBI YEARBOOK 1999** P. Joenniemi, Lars Hedegaard, A. Östhol, Bjarne Lindström, K. Peschel, C.-E. Stalvant, 2012-12-06 Thorvald Stoltenberg Ambassador Chairman of the Editorial Advisory Board A 5 the second volume of the this yearbook goes to press Europe faces new and to some degree unexpected dangers of political and ideological division It is a frightening realisation that not even ten years after the fall of the Berlin Wall the subsequent dissolution of the Soviet Empire and the democratisation and economic transformation of most of the old Soviet dominated Central and Eastern Europe fissures have appeared that threaten to undo some of what has been accomplished in terms of East West rapprochement The immediate crisis over Kosovo may well have been resolved by the time this is being read However it is hard to escape a foreboding that some of the mutual ill will between Russia and the Western powers that has surfaced in the wake of that conflict may linger for years to come It is therefore imperative that Russia and the Western powers sit down to discuss what can be done to avoid similar conflicts in the future and how to overcome mutual recriminations so that they do not harden into new political front lines between East and West in Europe The recent developments make the promotion of integration in the NEBI area even more urgent So far this process has been based on two equally important platforms economic integration and political integration including measures to dismantle old conflict potentials Yearbook of Muslims in Europe, Volume 7 Oliver Scharbrodt, Samim Akgönül, Ahmet Alibašić, Jørgen Nielsen, Egdūnas Raciūnas, 2016-04-26 Now in a new format with a more current and topical focus on a country level While the strength of the Yearbook has always been the comprehensive geographical remit starting with volume 7 the reports primarily concentrate on more specific and topical information The most current research available on public debates transnational links legal or political changes that have affected the Muslim population and activities and initiatives of Muslim organizations from surveyed countries are available throughout the Yearbook At the end of each country report an annual overview of statistical and demographic data is presented in an appendix By using a table format up to date information is quickly accessible for each country To see how these changes affect the articles please read this sample chapter about Austria The Yearbook of Muslims in Europe is an essential resource for analysis of Europe's dynamic Muslim populations Featuring up to date research from forty six European countries the reports provide cumulative knowledge of on going trends and developments around Muslims in different European countries In addition to offering a relevant framework for original

Two-Level Role Theory and EU Migration Magdalena Kozub-Karkut, 2024-12-02 Applying role theory and Putnam s two level game framework to the European migration crisis of 2015 Magdalena Kozub Karkut expertly shows how the Czech Republic Slovakia Hungary and Poland used the crisis to contest their roles in the European Union EU and how each country and the V4 as a group subsequently used their new contested roles in the bargaining process within the EU structures In doing so Kozub Karkut demonstrates how international negotiations might be used by the chief negotiators as a way of triggering contestation and enhancing their position at the domestic level as well as how role contestation processes from the domestic level might be used at the international one Two Level Role Theory and EU Migration is an excellent resource for scholars and students of Foreign Policy Analysis International Relations Theory European Studies and Migrations Studies Chapter 3 and 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The European Union and the Cyprus Conflict Thomas Diez, 2002 In the lead essay for this volume Joshua Foa Dienstag engages in a critical encounter with the work of Stanley Cavell on cinema focusing skeptical attention on the claims made for the contribution of cinema to the ethical character of democratic life In this debate Dienstag

mirrors the celebrated dialogue between Rousseau and Jean D Alembert on theatre casting Cavell as D Alembert in his view that we can learn to become better citizens and better people by observing a staged representation of human life with Dienstag arguing with Rousseau that this misunderstands the relationship between original and copy even more so in the medium of film than in the medium of theatre Dienstag s provocative and stylish essay is debated by an exceptional group of interlocutors comprising Clare Woodford Tracy B Strong Margaret Kohn Davide Panagia and Thomas Dumm The volume closes with a robust response from Dienstag to his critics
