European Economy Between The Wars:

The European Economy Between the Wars C. H. Feinstein, Peter Temin, Gianni Toniolo, 1997 The European Economy Between the Wars provides a full and up to date economic history of Europe in the inter war period The authors place the Great Depression of 1929 33 and the associated financial crisis at the centre of the narrative and present these as both the culmination of the economic consequences of the First World War the post war peace treaties and the policies and practices of the 1920s and as a powerful influence on the subsequent economic history of the 1930s Indescribing and explaining these developments the authors show that errors in international economic policy especially the commitment to the gold standard were a principal cause of both the deep crisis and the partial recovery The overall theme is illustrated at every point by a discussion of similarities and contrasts in the economic history and policies of individual countries large and small The basic approach is chronological the style is clear and straightforward and the book is accessible to students in a range of disciplines The work takes full account of recent research and there is an annotated guide to further reading with a substantial bibliography *The World Economy between the Wars* Peter Temin, Gianni Toniolo, 2008-02-12 The European Economy between the Wars OUP 1997 has become the definitive economic history of Europe in the inter war period Placing the Great Depression of 1929 33 and the associated financial crisis at the center of the narrative the authors comprehensively examined the lead up to and consequences of the depression and recovery The authors now expand their scope to include the entire world economy and have created a new edition The World Economy between the Wars New material focuses on the structure of the world economy in the 1920s including a special focus on the United States Japan and Latin America **Innovations in the European Economy between the Wars** Francois Caron, Paul Erker, Wolfram Fischer, 2011-11-02 No detailed description available for Innovations in the European Economy between the Wars *Europe Between the Wars* Martin Kitchen, 2014-01-14 Martin Kitchen s compelling account of Europe between the wars sets the twenty year crisis within the context of the profound sense of cultural malaise shared by many philosophers and artists the economic crises that plagued a Europe ruined by war and the social upheavals caused by widespread unemployment and grinding poverty amid a noticeable improvement of living standards This thoroughly revised edition with completely new sections on intellectual cultural and social history is richly illustrated with contemporary photographs It is an up to date and lively account of a critical period of European history when the old world collapsed the dictators offered seemingly exciting alternatives and democracies were put to the supreme test Written for undergraduate students studying 20th century European history this new edition of a classic will challenge and provoke a deeper understanding of the interwar years **Evolving Financial Markets and International Capital Flows** Lance E. Davis, Robert E. Gallman, 2001-05-07 This study examines the impact of British capital flows on the evolution of capital markets in four countries Argentina Australia Canada and the United States over the years 1870 to 1914 In substantive chapters on each country it offers parallel histories

of the evolution of their financial infrastructures commercial banks non bank intermediaries primary security markets formal secondary security markets and the institutions that provide the international financial links connecting the frontier country with the British capital market At one level the work constitutes a quantitative history of the development of the capital markets of five countries in the late nineteenth century At a second level it provides the basis for a useable taxonomy for the study of institutional invention and innovation At a third it suggests some lessons from the past about modern policy issues

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

The Great Depression of the 1930s Nicholas Crafts, Peter Fearon, 2013-02-28 Understanding the Great Depression has never been more relevant than in today's economic crisis This edited collection provides an authoritative introduction to the Great Depression as it affected the advanced countries in the 1930s The contributions are by acknowledged experts in the field and cover in detail the experiences of Britain Germany and the United States while also seeing the depression as an international disaster The crisis entailed the collapse of the international monetary system sovereign default and banking crises in many countries in the context of the most severe downturn in western economic history The responses included protectionism regulation fiscal and monetary stimulus and the New Deal The relevance to current problems facing Europe and the United States is apparent The chapters are written at a level which will be comprehensible to advanced undergraduates in economics and history while also being a valuable source of reference for policy makers grappling with the current economic crisis The book will be of interest to modern macroeconomists and students of interwar history alike and seeks to bring the results of modern research in economic history to a wide audience The focus is not only on explaining how the Great Depression happened but also on understanding what eventually led to the recovery from the crisis A key feature is that every chapter has a full list of bibliographical references which can be a platform for further study

Europe - On Air

Suzanne Lommers,2012 During the interwar years broadcast radio became a popular way for Europeans to consume local national and international news The medium not only began to shape European policy and politics but also laid the foundation for European unification and global interconnectedness In Europe On Air Suzanne Lommers has documented the rich and often underexposed history of broadcast radio through the lens of international European relations She specifically explores the roles of Radio Moscow Radio Luxembourg Vatican Radio and the International Broadcasting Union as institutions that played an important role in national identities and establishing standards for broadcasting The radio also offered new opportunities to politicians who seized upon a vibrant and more direct way to communicate with their constituents Essential reading for scholars of technology and European history Europe On Air reveals broadcast radio to be a technology that revolutionized international relations during the brief respite between the chaos of war in Europe

Innovations in the European Economy between the Wars Francois Caron,1995 *The Economics and Management of Technological Diversification* John Cantwell,Alfonso Gambardella,Ove Granstrand,2004-04-22 And conclusionsFurther bibliography Index Capitals of Capital Youssef Cassis,2010 useful reading for anyone interested in the antecedents of today s vibrant international financial markets **A Modern History of European Cities** Rosemary Wakeman,2020-01-23 Rosemary Wakeman s original survey text comprehensively explores modern European urban history from 1815 to the present day It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European The focus is on the built environment the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society Including over 60 images that serve to illuminate the analysis the book examines whether there is a European city and if so what are its characteristics Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries A Companion to Europe, 1900 - 1945 Gordon Martel,2011-03-21 This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth century Europe Brings together contributions from a distinguished group of international scholars Provides an overview of current thinking on the period Traces the great political social and economic upheavals of the time Illuminates perennial themes as well as new areas of enquiry Takes a pan European approach highlighting similarities and differences across nations and regions An Economic History of Twentieth-Century Europe Ivan T. Berend,2016-09-22 This new edition of Ivan T Berend s leading overview of economic regimes and economic performance from the start of the twentieth century to the present is fully updated to incorporate recent events including the causes and impacts of the 2008 financial economic crisis Praised for

its clear prose and uncluttered analytical style as well as its use of illustrative case studies this is an integrated comparative account of European economic development from the evolution of capitalism to the fascist and communist regimes and their collapse and Europe's current economic problems The book examines both successes and failures in responding to the challenges of this crisis ridden but highly successful age It introduces the main factors behind economic growth and the various economic regimes that were invented and trialled It also shows how the vast disparity which had existed between the European regions started gradually decreasing as a result of increased integration

An overview of many currently topical issues around food and agriculture with particular emphasis on their implications for development These include Nobel Laureate Robert Fogel's discussion of nutritional standards and the implications of new theories of evolution in assessing the extent of malnutrition Historical analysis informs contemporary surveys including Yair Mundlak's comparison of the postwar record of 130 countries in agricultural technology and outputs The important implications of labour markets income distributions and the impact of welfare states on these issues are considered by a number of papers The contributors include many leading academics from North America Europe Africa Australia and Israel

The Economics of World War I Stephen

Broadberry, Mark Harrison, 2005-09-29 This unique volume offers a definitive new history of European economies at war from 1914 to 1918 It studies how European economies mobilised for war how existing economic institutions stood up under the

strain how economic development influenced outcomes and how wartime experience influenced post war economic growth Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain Germany France Russia the USA Italy Turkey Austria Hungary and the Netherlands The editors overview draws some stark lessons about the role of economic development the importance of markets and the damage done by nationalism and protectionism A companion volume to the acclaimed *The Economics of World War II* this is a major contribution to our understanding of total war

The Fall of France in the Second World War Richard Carswell, 2019-02-01 This book examines how the fall of France in the Second World War has been recorded by historians and remembered within society It argues that explanations of the fall have usually revolved around the four main themes of decadence failure constraint and contingency It shows that the dominant explanation claimed for many years that the fall was the inevitable consequence of a society grown rotten in the inter war period This view has been largely replaced among academic historians by a consensus which distinguishes between the military defeat and the political demise of the Third Republic It emphasizes the contingent factors that led to the military defeat At the same time it seeks to understand the constraints within which France's policy makers were required to act and the reasons for their policy making failures in economics defence and diplomacy
