### **The New Member States and the European Union**

Michael Baun, Dan Marek, 2013-03-05 This book examines the impact of EU membership on the foreign policies of the 12 new member states that joined the EU in 2004 and 2007. Among scholars of European politics there is a general consensus that membership in the European Union changes the countries that join. Yet considerable debate remains over what exactly changes to what extent, how or why these changes happen and why some countries' policies and institutions change more than others. Expert contributors examine the impact of EU integration and membership with chapters on the 12 new EU entrants since 2004: Poland, Czech Republic, Hungary, Slovakia, Slovenia, Estonia, Latvia, Lithuania, Cyprus, Malta, Bulgaria, and Romania. Utilizing a common analytical framework, each of the country case studies examines the impact of EU membership on the foreign policies of the new member states in three key areas: foreign policy making, institutions and procedures, interests and preferences, and strategies and actions. **The New Member States and the European Union** will be of interest to students and scholars of European Studies and European Union Politics.

**Party Attitudes Towards the EU in the Member States** Nicolò Conti, 2013-12-04 In a moment where the EU is facing an important number of challenges, there is growing interest in understanding how parties influence the way Europe evolves as a political issue, notably how parties structure domestic competition over European issues and they mobilise sentiments in referenda over European integration. This book examines the views of national parties towards the European Union and the different facets of a supranational citizenship. It provides an in-depth investigation into the variations to the cross-national patterns in ten countries, including old and new member states and different EU regions. Using original and innovative concepts, data and research techniques, the authors explore whether parties formulate specific positions and preferences on the most particular aspects of the EU process. Investigate whether the party's stance could be inserted into more pro-European or more Eurosceptical attitudes. Illustrate patterns of party contestation of the EU issues in the member states and explain these patterns in the light of the main theoretical arguments. Making an important contribution to party attitudes towards the EU and the Europeanisation of party politics, this book will be of interest to students and scholars of European politics, sociology, comparative politics, government and party politics.

**Small States in Europe** Robert Steinmetz, 2016-04-01 The effects of recent institutional change within the European Union on small states have often been overlooked. This book offers an accessible, coherent and informative analysis of contemporary and future foreign policy challenges facing small states in Europe. Leading experts analyze the experiences of a number of small states, including the Netherlands, the Czech Republic, Slovakia, Luxembourg, Cyprus, Iceland, Austria, and Switzerland. Each account, written to a common template, explores the challenges and opportunities faced by each state as a consequence of EU integration and how their behaviour regarding EU integration has been characterized. In particular, the contributors emphasize the importance of power, politics, institutional dynamics and lessons of the past. Innovative and sophisticated, the study draws on the relational understanding of small states to emphasize

the implications of institutional change at the European level for the smaller states and to explain how the foreign and European policies of small states in the region are affected by the European Union

**The Second Tier of Local Government in Europe** Hubert Heinelt, Xavier Bertrana, 2012-03-29 This book takes a comparative approach to local government across 14 European countries looking at processes of decentralisation regionalisation and reforms of local government Examining second levels of government such as UK Counties French D partements Italian and Spanish Provinces and German Landkreise this book reveals both the specific characteristics of particular countries and also similarities across Europe As the first book focussing on the second level of local governments this monograph combines comparative analysis of institutional trends and reforms of local government with examination of country specific features to provide an original and insightful evaluation of European governance Organised along common thematic lines leading experts in their field outline the historical development of local government and analyse recent or current reform debates The book argues democratic quality and effectiveness of this territorial level of government is in the focus of on going debates about the rescaling of statehood and a shift from government to governance The Second Tier of Local Government in Europe will be of interest to students and scholars studying local government public administration and multi level governance

EU Foreign Policy and the Europeanization of Neutral States Nicole Alecu de Flers, 2012-03-12 This book examines the effects of the Common Foreign and Security Policy CFSP of the European Union EU on the national foreign policies of Ireland and Austria Small and neutral EU member states provide a fascinating case study as the CFSP entails a dilemma for them Their size may create assumptions that they are more likely to adopt EU policy yet the traditional position of neutrality may act contrary to Europeanization By concentrating on this side of the reciprocal relationship between EU and national foreign policy the book takes a new and innovative approach to investigate prospects for a common European foreign policy and goes beyond an examination of changes in the national foreign policies of Ireland and Austria to provide an engaging explanation and understanding of Europeanization Based on a comprehensive conceptual framework this text investigates three dimensions of national foreign policy the Europeanization of foreign policy making the Europeanization of foreign policy substance and effects on neutrality to create an accessible and informed insight into the evolution of European cooperation in the field of foreign policy and the impact on national foreign policy EU Foreign Policy and the Europeanization of Neutral States will be of interest to students and scholars of European Studies International Relations and Foreign Policy

**Citizenship in Nordic Welfare States** Bjørn Hvinden, Håkan Johansson, 2007-06-11 This book offers an innovative analysis of the ways in which the relationship between citizens and welfare states social citizenship becomes more dynamic and multifaceted as a result of Europeanization and individualization Written by interdisciplinary contributors from politics sociology law and philosophy it examines the transformation of social citizenship through a series of illuminating case studies comparing Nordic countries and other European nations Dealing with the following areas of national and European welfare policy

legislation and practice activation reforms linking income maintenance and employment promotion scope for participation of marginal groups in deliberation and decision making impact of human rights legislation for welfare and legal protection against discrimination and social barriers to equal market participation coordination of social security systems to facilitate cross border mobility in Europe pension reform efforts to make pension systems sustainable Citizenship in Nordic Welfare States will be of interest to students and researchers of social policy comparative welfare social law political science sociology and European studies

The Theory of Multi-level Governance Simona Piattoni, 2010-02-25 This book explores the theoretical issues empirical evidence and normative debates elicited by the concept of multi level governance MLG The concept is a useful descriptor of decision making processes that involve the simultaneous mobilization of public authorities at different jurisdictional levels as well as that of non governmental organizations and social movements It has become increasingly relevant with the weakening of territorial state power and effectiveness and the increase in international interdependencies which serve to undermine conventional governmental processes This book moves towards the construction of a theory of multi level governance by defining the analytical contours of this concept identifying the processes that can uniquely be denoted by it and discussing the normative issues that are raised by its diffusion particularly in the European Union It is divided into three parts each meeting a specific challenge theoretical empirical normative It focuses on three analytical dimensions multi level governance as political mobilization politics as authoritative decision making policy and as state restructuring polity Three policy areas are investigated in vindicating the usefulness of MLG as a theoretical and empirical concept cohesion environment higher education with particular reference to two member states the UK and Germany Finally both the input and output legitimacy of multi level governance decisions and arrangements and its contribution to EU democracy are discussed As a loosely coupled policy making arrangement MLG is sufficiently structured to secure coordination among public and private actors at different jurisdictional levels yet sufficiently flexible to avoid joint decision traps This balance is obtained at the cost of increasingly blurred boundaries between public and private actors and a change in the established hierarchies between territorial jurisdictions

**Palgrave Handbook of Inter-Organizational Relations in World Politics** Rafael Biermann, Joachim A. Koops, 2016-11-29 This unique handbook brings together a team of leading scholars and practitioners in order to map synthesize and assess key perspectives on cooperation and rivalry between regional and global organizations in world politics For the first time a variety of inter disciplinary theoretical and conceptual perspectives are combined in order to assess the nature processes and outcomes of inter organizational partnerships and rivalries across major policy areas such as peace and security human rights and democratisation as well as finance development and climate change This text provides scholars students and policy makers of International Relations with an exhaustive reference book for understanding the theoretical and empirical dimensions of an increasingly important topic in International Relations IR Global Governance and related disciplines

The Politics of European Union Enlargement Frank

Schimmelfennig, Ulrich Sedelmeier, 2005-11-16 This is a key reference text presenting the latest first rate approaches to the study of European enlargement Developed and significantly expanded from a special issue of the leading Journal of European Public Policy this new volume draws on the insights from the recently emerging theoretically informed literature on the EU's eastern enlargement and complements these studies with original articles that combine a theoretical approach with comparative analyses These expert contributors focus on the broader theoretical debates and their implications for the enlargement of the EU as well as placing the enlargement of the EU within the broader context of the expansion of international organisations and the study of institutions in international relations

**The Political Economy of Collective Decision-Making** Tim Veen, 2011-07-28 The Council of the European Union is the institutional heart of EU policy making But who gets what when and how in the Council What are the dimensions of political conflict and which countries form coalitions in the intense negotiations to achieve their desired policy outcomes Focussing on collective decision making in the Council between 1998 and 2007 this book provides a comprehensive account of these salient issues that lie at the heart of political accountability and legitimacy in the European Union Based on a novel and unique dataset of estimates of government policy positions salience and power in influencing deliberations an explanatory model approximating the Nash Bargaining solution is employed to predict the policy outcomes on ten policy domains of central importance to this institution The book's analyses comprise investigations into the determinants of decision making success the architecture of the political space and the governments coalition behavior

**European Union Law** Alina Kaczorowska-Ireland, 2016-05-26 The fourth edition of this well established and highly regarded work on EU law maintains its character by combining comprehensive yet accessible coverage with in depth analysis of the law and student friendly pedagogy It is fully up to date so encompassing critical examination of new important judgments of EU and national courts and developments in institutional constitutional and substantive EU Law The book keeps its unique style in that it is both a textbook and a casebook Case summaries are highlighted in colour tinted boxes for ease of reference and are accompanied by key facts and critical analysis often in the light of subsequent developments The student friendly approach is enhanced by market driven pedagogical features including Concise outlines at the beginning of each chapter describing its content and assisting in revision An aide mmoire often presented in diagrammatic form at the end of each chapter to highlight and reinforce key points End of chapter recommended reading lists to encourage and facilitate further research End of chapter problem and essay questions testing the students ability to apply what they have learnt Cross references to show how topics are interrelated and A map identifying EU Member States candidate States and potential candidate States The book's companion website offers a range of teaching and learning resources including an interactive timeline of the EU useful web links self test questions and much more This book is essential reading for those studying EU law on both undergraduate and postgraduate courses and will be of interest to students of political science social science and business studies
