European Imperialism in the Nineteenth and Twentieth Centuries Woodruff D. Smith, 1982 This is a small book on a very large subject It is written for the general reader and for students who want an overview of modern European imperialism and an indication of some of the major issues with which historians of imperialism are currently concerned Obviously such a book cannot go into detail on any aspect of the subject I have attempted wherever possible to use particular cases of imperialism to represent larger phenomena that occurred in many different places and at different times I have also included references to important works on the subjects discussed in each section of the book preference has been given to recently published studies and to those in English which are most likely to be available to the reader Although the book is not purely a narrative and is organized around a number of theses the presentation of the theses is necessarily abbreviated and the support for them incomplete They should be considered as means of structuring the material fuller exposition must await future publications Preface

Europe in the Nineteenth and Twentieth Centuries, 1789-1950 Arthur James Grant, Harold William Vazeille Temperley, 1952 *The Power of Ideology* Alex Roberto Hybel, 2013-05-13 Since the Roman Empire leaders have used ideology to organize the masses and instill amongst them a common consciousness and equally to conquer assimilate or repel alternative ideologies Ideology has been used to help create safeguard expand or tear down political communities states empires and regional or world systems This book explores the multiple effects that competing ideologies have had on the world system for the past 1 700 years the author examines the nature and content of Christianity Islam Confucianism Protestantism secularism balance of power doctrine nationalism imperialism anti imperialist nationalism liberalism communism fascism Nazism ethno nationalism and transnational radical Islamism alongside the effects their originators sought to craft and the consequences they generated This book argues that for centuries world actors have aspired to propagate through the world arena a structure of meaning that reflected their own system of beliefs values and ideas this would effectively promote and protect their material interests and believing their

system to be superior to all others they felt morally obliged to spread it Radical transnational Islamism Hybel argues is driven by the same set of goals This book will be of interest to students and scholars of international politics international relations theory history and political philosophy So, About Modern Europe... David Imhoof,2020-12-10 The West Europe and the USA has kind of had its way with the world for a few centuries Why else does everyone speak English listen to hip hop and want to buy Mercedes Starting with the Enlightenment Europeans developed big ideas that have increased opportunities for people around the world and raised standards of living But those same ideas have also produced wars genocide colonialism and the potential for global environmental disaster This book describes the origins and legacy of this mixed bag of ideas which includes everything from democracy and feminism to those old foes communism and capitalism After all it s a bag which still shapes how most people on the planet look at things today In a natural funny and engaging style So About Modern Europe expertly guides readers through the good the bad and the indifferent of modern European history convincingly arguing the need to tip the cap to the Enlightenment and its influence along the way **The Origins of International Investment Law** Kate Miles,2013-10-24 An examination of the origins of international investment law and their continued resonance in the twenty first century The Cambridge Companion to Twentieth Century Literature and Politics Christos Hadjiyiannis,Rachel Potter,2022-12-15 Many twentieth century literary writers were directly involved in political parties and causes and many viewed their writing as part of their activism This book explores literature s direct relationship to politics offering new ways of thinking about the troubled relationship between literature and politics **European Colonialism since 1700** James R. Arielli,B. Collins,2012-11-28 Warfare in the modern era has often been described in terms of national armies fighting national wars This volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present Truly global in scope it offers an alternative way of reading the military history of the last 250 years **Islam and the European Empires** David Motadel,2014 The first comparative account of the engagement of all major European empires with Islam in the eighteenth and nineteenth centuries exploring an array of themes ranging from the accommodation of Islam under imperial rule to
