European Impressions of the New England Coast, 1497-1620 Douglas R. McManis, 1972 **Imagining New England** Joseph A. Conforti, 2003-01-14 Say New England and you likely conjure up an image in the mind of your listener the snowy woods or stone wall of a Robert Frost poem perhaps or that quintessential icon of the region the idyllic white village Such images remind us that as Joseph Conforti notes a region is not just a territory on the ground It is also a place in the imagination This ambitious work investigates New England as a cultural invention tracing the region's changing identity across more than three centuries Incorporating insights from history literature art material culture and geography it shows how succeeding generations of New Englanders created and broadcast a powerful collective identity for their region through narratives about its past Whether these stories were told in the writings of Frost or Harriet Beecher Stowe enacted in historical pageants or at colonial revival museums or conveyed in the pages of a geography textbook or Yankee magazine New Englanders used them to sustain their identity revising them as needed to respond to the shifting regional landscape

Cohen, 2004-05-11 Trees hold a powerful place in American constructions of what is good in nature and the environment As we attempt to cope with environmental crises trees are increasingly enlisted with great fervor as agents of our stewardship over nature In this innovative and impassioned book Shaul E. Cohen exposes the way that environmental stewardship is undermined through the manipulation of trees and the people who plant them by a partnership of big business the government and tree planting groups He reveals how positive associations and symbols that have been invested in trees are

exploited by an interlocking network of government agencies private timber companies and nongovernmental organizations to subvert the power of people who think that they are building a better world Planting Nature details the history of tree planting in the United States and the rise of popular sentiment around trees including the development of the Arbor Day holiday and tree planting groups such as the National Arbor Day Foundation and American Forests Drawing from internal papers government publications advertisements and archival documents Cohen illustrates how organizations promote tree planting as a way of shifting attention away from the causes of environmental problems to their symptoms masking business as usual agendas Ultimately Planting Nature challenges the relationships between a green public the organizations that promote their causes and the powers that be providing a cautionary tale of cooperation and deception that cuts across the political spectrum

After a California Earthquake Risa Palm, Michael E. Hodgson, 1992-04-15 Shortly before the Loma Prieta earthquake devastated areas of Northern California in 1989 Risa Palm and her associates had surveyed 2 500 homeowners in the area about their perception of risk from earthquakes After the quake they surveyed the homeowners again and found that their perception of risk had increased but that most respondents were fatalistic and continued to ignore self protective measures those who

personally experienced damage were more likely to buy insurance A rare opportunity to analyze behavior change directly before and after a natural disaster this survey has implications for policy makers insurance officials and those concerned with risk management

The Politics of Planting Shaul Ephraim Cohen,1993-06 On the open landscape of Israel and the West Bank where pine and cypress forests grow alongside olive groves tree planting has become symbolic of conflicting claims to the land Palestinians cultivate olive groves as a vital agricultural resource while the Israeli government has made restoration of mixed growth forests a national priority Although both sides plant for a variety of purposes both have used tree planting to assert their presence on and claim to disputed land Shaul Ephraim Cohen has conducted an unprecedented study of planting in the region and the control of land it signifies In *The Politics of Planting* he provides historical background and examines both the politics behind Israel's afforestation policy its consequences Focusing on the open land surrounding Jerusalem and four Palestinian villages outside the city this study offers a new perspective on the conflict over land use in a region where planting has become a political tool For the valuable data it presents collected from field work previously unpublished documents and interviews and the insight it provides into this political struggle this will be an important book for anyone studying the Israeli Palestinian conflict

Beyond the Basilica Chad F. Emmett,1995-02-07 Nazareth the largest Arab city in Israel is a surprising example of ethnic harmony in a region dominated by conflict A recent trend toward integration of its historical Greek Orthodox Roman Catholic and Muslim quarters however has disrupted the harmony In *Beyond the Basilica* Christians and Muslims in Nazareth Chad F. Emmett provides penetrating analysis of the complex relationship between the structure of Nazareth's quarters and the relations between its ethnic communities Emmett describes both the positive and negative effects of Nazareth's residential patterns He shows that the addition of new and ethnically mixed quarters has promoted mixed schools joint holiday celebrations a common political culture and social networks that cross ethnic boundaries But he also finds that tensions exist among Christian groups and between Muslims and Christians in regard to intersectorian marriages religious conversion attempts to establish a joint Christian cemetery and the emergence of a local Islamic party Extensive interviews with leaders of religious groups political parties and residents reveal the way in which members of each ethnic community perceive one another A survey of 300 families gives a wealth of details about the make up of Nazareth's population including residential histories religion level of religious conviction friendship and shopping patterns and much more Fourteen maps trace changes in the distribution of religious groups and political affiliation in Nazareth from the mid nineteenth century to the present *Beyond the Basilica* will interest cultural geographers historians demographers political scientists and anyone who would like to learn more about an ethnically divided community in the residents cooperate more than they fight

The Sea Mark Russell M. Lawson,2015-04-07 By age thirty four Captain John Smith was already a well known adventurer and explorer He had fought as a mercenary in the religious wars of Europe and had won renown for fighting the Turks He was

most famous as the leader of the Virginia Colony at Jamestown where he had wrangled with the powerful Powhatan and secured the help of Pocahontas By 1614 he was seeking new adventures He found them on the 7 000 miles of jagged coastline of what was variously called Norumbega North Virginia or Cannada but which Smith named New England This land had been previously explored by the English but while they had made observations and maps and interacted with the native inhabitants Smith found that the Coast is even as a Coast unknown and undiscovered The maps of the region such as they were were inaccurate On a long painstaking excursion along the coast in a shallop accompanied by sailors and the Indian guide Squanto Smith took careful compass readings and made ocean soundings His Description of New England published in 1616 which included a detailed map became the standard for many years the one used by such subsequent voyagers as the Pilgrims when they came to Plymouth in 1620 The Sea Mark is the first narrative history of Smith s voyage of exploration and it recounts Smith s last years when desperate to return to New England to start a commercial fishery he languished in Britain unable to persuade his backers to exploit the bounty he had seen there The Complete Works of Captain John Smith, 1580-1631, Volume I Philip L. Barbour, 2018-01-01 Edited by the late Philip L Barbour acknowledged as the leading authority on Captain John Smith this annotated three volume work is the only modern edition of the works of the legendary figure who captured the interest of scholars and general readers for over four centuries A hero and adventurer Smith was the leader who saved Jamestown from self destruction and he was also instrumental in the exploration and settlement of New England He produced one of the basic ethnological studies of the tide water Algonkians an invaluable contemporary history of early Virginia the earliest well defined maps of Chesapeake Bay and the New England coast and the first printed dictionary of English nautical terms This is Volume I of three volumes Originally published in 2011 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *First Images of America, Volume II* Fredi Chiappelli, 2023-12-22 **Chapters in the Archeology of Cape Cod**, 1984 *Chapters in the Archeology of Cape Cod, I*, 1984 **Chapters in the Archeology of Cape Cod, III**, 1986 **The Embattled Northeast** Kenneth M. Morrison, 1984-01-01 The Embattled Northeast breaks with established wisdom concerning the dynamics of Indian white relations It shows that Euramericans technological superiority did not undermine the Abenaki s self confidence but that trade pushed the tribes toward reaching an alliance among themselves as the first step in dealing with colonials The study also tells how the Abenaki adapted to the post contact world in order to secure their lives in religious terms combining their own religious beliefs with compatible French Jesuit teachings Jacket
