European Moslems William G. Lockwood, 1975 **Being Muslim the Bosnian Way** Tone Bringa, 2020-09-01 I have been able to follow a Bosnian community over a period of six years during which it has undergone dramatic changes In the late 1980s people were working hard against economic crisis In 1990 they were full of optimism for the future In January 1993 the village was in fear surrounded by war on all sides In April 1993 it was attacked by Croat forces In October 1993 none of the Muslims in the village remained They had either fled been placed in detention camps or been killed Thus begins Tone Bringa s moving ethnographic account of Bosnian Muslims lives in a rural village located near Sarajevo Although they represent a majority of the population in the Republic of Bosnia and Herzegovina Bosnian Muslims are still members of a minority culture in the region that was once Yugoslavia The question of ethno national identity has become paramount in this society and the author focuses on religion as the defining characteristic of identity Bringa pays particular attention to the roles that women play in defining Muslim identities and she examines the importance of the household as a Muslim identity sphere In so doing she illuminates larger issues of what constitutes nationality This is a gripping and heartfelt account of a community that has been torn apart by ethno political conflict It will attract readers of all backgrounds who want to learn more about one of the most intractable wars of the late twentieth century and the people who have been so tragically affected

Bosnia Remade Gerard Toal, Carl T. Dahlman, 2011-02-16 Bosnia Remade is an authoritative account of ethnic cleansing and its partial undoing from the onset of the 1990s Bosnian wars up through the present Gerard Toal and Carl Dahlman combine a bird s eye view of the entire war from onset to aftermath with a micro level account of three towns that underwent ethnic cleansing and later the return of refugees There have been two major attempts to remake the ethnic geography of Bosnia since 1991 In the first instance ascendant ethno nationalist forces tried to eradicate the mixed ethnic geographies of Bosnia s towns villages and communities These forces devastated tens of thousands of homes and lives but they failed to destroy Bosnia Herzegovina as a polity In the second attempt which followed the war the international community in league with Bosnian officials endeavored to reverse the demographic and other consequences of this ethnic cleansing While progress has been uneven this latter effort has transformed the ethnic demography of Bosnia and moved the nation beyond its recent segregationist past By showing how ethnic cleansing was challenged Bosnia Remade offers more than just a comprehensive narrative of Europe s worst political crisis of the past two decades It also offers lessons for addressing an enduring global problem

The Anthropological Field on the Margins of Europe, 1945-1991 Aleksandar Boskovic, Chris Hann, 2013 The social lives of the peoples of the Balkans have long stimulated the imaginations of their northern European neighbors These peoples and places have anthropological traditions of their own shaped initially by nationalist movements and later by socialism and other political constraints From an anthropological perspective this book explores the region between Greece and Slovenia when political pressures were strongest in the era of the Cold War Yet the environments were by no means uniformly repressive The study provides indispensable insights for new generations pursuing innovative research agendas in this region in the new century It raises deeper issues about the boundaries and substance of the anthropological endeavor Series *Halle Studies in the Anthropology of Eurasia* Vol 29 *From Yugoslavia to the Western Balkans* Robert Hayden, 2012-10-12 This book brings together important original contributions to scholarly and political policy debates over the disintegration of Yugoslavia and especially the war in Bosnia The analyses are grounded on empirically based arguments about social and political dynamics resonate with much larger enduring issues of social science inquiry and consistently challenge commonly held beliefs about the Balkans that are based more on ignorance

misunderstanding or outright prejudice than on intimate knowledge of the region its peoples and their histories When first published some of these essays represented sharply distinctive analyses which have since then become common wisdom Hayden s arguments about how this multinational European federation collapsed following a severe economic crisis are disturbingly relevant to analyzing the crisis of the European Union twenty years later

Why America's Top Pundits Are Wrong Catherine Besteman,Hugh Gusterson,2005-01-17 In this fresh literate and biting critique of current thinking on some of today s most important and controversial topics leading anthropologists take on some of America s top pundits This absorbing collection of essays subjects such popular commentators as Thomas Friedman Samuel Huntington Robert Kaplan and Dinesh D Souza to cold hard scrutiny and finds that their writing is often misleadingly simplistic culturally ill informed and politically dangerous Mixing critical reflection with insights from their own fieldwork twelve distinguished anthropologists respond by offering fresh perspectives on globalization ethnic violence social justice and the biological roots of behavior They take on such topics as the collapse of Yugoslavia the consumer practices of the American poor American foreign policy in the Balkans and contemporary debates over race welfare and violence against women In the clear vigorous prose of the pundits themselves these contributors reveal the hollowness of what often passes as prevailing wisdom and passionately demonstrate the need for a humanistically complex and democratic understanding of the contemporary world Available November 2004 Pub Date January 2005

Military Anthropology Montgomery McFate,2018-05-01 In almost every military intervention in its history the US has made cultural mistakes that hindered attainment of its policy goals From the strategic bombing of Vietnam to the accidental burning of the Koran in Afghanistan it has blundered around with little consideration of local cultural beliefs and for the long term effects on the host nation s society Cultural anthropology the so called handmaiden of colonialism has historically served as an intellectual bridge between Western powers and local nationals What light can it shed on the intersection of the US military and foreign societies today This book tells the story of anthropologists who worked directly for the military such as Ursula Graham Bower the only woman to hold a British combat command during WWII Each faced challenges including the negative outcomes of exporting Western political models and errors of perception Ranging from the British colonial era in Africa to the recent wars in Iraq and Afghanistan Military Anthropology illustrates the conceptual cultural and practical barriers encountered by military organisations operating in societies vastly different from their own

A Muslim Diaspora in Australia Lejla Voloder,2017-02-28 In a world of increasingly mixed identities what does it mean to belong As western democracies increasingly curtail their support for multiculturalism how can migrants establish belonging as citizens A Muslim Diaspora in Australia explores how a particular migrant group has faced the challenges of belonging The author illustrates how Bosnian migrants in Australia have sought to find places for themselves as migrants as refugees and as Muslims in Australia and Australian society Challenging the methodological nationalism that tends to

dominate discussions of migrant identities the author exposes the ways in which dignity emerges as a dominant concern for people as they relate to varied local national and translational contexts Very little is known about how migrants themselves read and react to the multiple challenges of belonging and this pioneering work offers a timely and much needed critical insight into what it means to belong *Incest: A Biosocial View* MOST,2014-06-28 *Incest A Biosocial View* **The Oxford Handbook of Applied Ethnomusicology** Svanibor Pettan,Jeff Todd Titon,2015 Applied studies scholarship has triggered a not so quiet revolution in the discipline of ethnomusicology The current generation of applied ethnomusicologists has moved toward participatory action research involving themselves in musical communities and working directly on their behalf The essays in *The Oxford Handbook of Applied Ethnomusicology* edited by Svanibor Pettan and Jeff Todd Titon theorize applied ethnomusicology offer histories and detail practical examples with the goal of stimulating further development in the field The essays in the book all newly commissioned for the volume reflect scholarship and data gleaned from eleven countries by over twenty contributors Themes and locations of the research discussed encompass all world continents The authors present case studies encompassing multiple places other that discuss circumstances within a geopolitical unit either near or far Many of the authors consider marginalized peoples and communities others argue for participatory action research All are united in their interest in overarching themes such as conflict education archives and the status of indigenous peoples and immigrants A volume that at once defines its field advances it and even acts as a large scale applied ethnomusicology project in the way it connects ideas and methodology *The Oxford Handbook of Applied Ethnomusicology* is a seminal contribution to the study of ethnomusicology theoretical and applied **The Bosnian Muslims** Francine Friedman,2018-10-08 Although their plight now dominates television news worldwide the Bosnian Muslims were until recently virtually unknown outside of Yugoslavia This meticulously researched comprehensive book traces the turbulent history of the Bosnian Muslims and shows how their mixed secular and religious identity has shaped the conflict in which they are now so tragically embroiled Although their plight now dominates television news worldwide the Bosnian Muslims were until recently virtually unknown outside of Yugoslavia Who are these people Why are they the focus of their former neighbors rage What role did they play in Yugoslavia before they became the victims of ethnic cleansing Why has Bosnia Hercegovina once a model of ethnic tolerance and multicultural harmony suddenly exploded into ethnic violence Focusing on these questions Friedman provides a comprehensive study of this national group whose plight has riveted governments the press and the public alike With a name reflecting both their religious and their national identity the Bosnian Muslims are unique in Europe as indigenous Slavic Muslims Descendants of schismatic Christians from the Middle Ages they converted to Islam after the Ottoman conquest of Bosnia The book follows them as they went from victims of crusades during the Middle Ages to members of the ruling elite within the Ottoman Empire from rulers back to subjects under Austria Hungary and later subjects again this time under the Serbs in the interwar Yugoslav Kingdom and the Communists after World War II The

Bosnian Muslims have survived through it all even thriving during certain periods most notably when they were recognized by Tito as a nation Meticulously tracing their turbulent history and assessing the issues surrounding Bosnian Muslim nationhood in Yugoslavia Friedman shows us how the mixed secular and religious identity of the Bosnian Muslims has shaped the conflict in which they are now so tragically embroiled
