EU External Relations and Systems of Governance Paul James Cardwell, 2009-12-04 This book takes a fresh look at the external relations of the European Union EU and in particular the Common Foreign and Security Policy CFSP Rather than focusing exclusively on the competence aspects of the institutions and actors the book makes the case that the CFSP can be understood as a system of governance which produces effects beyond the traditional tools associated with foreign policy The theoretical approach draws on insights from new institutionalism constructivism and the institutional theory of law and emphasises how the institutionalised forms of cooperation in the external sphere contribute to a social reality in which the added value of the CFSP can be seen Paul James Cardwell takes the Euro Mediterranean Partnership EuroMed as a case

study Not initially a CFSP project EuroMed has become the frame for EU foreign policy in the region as an emerging system of governance in which the EU institutions play a central role Having recently been relaunched as the Barcelona Process Union for the Mediterranean it is a topical subject With the increasing importance of migration on the EU s agenda the book looks at the relationship between migration EuroMed and the CFSP and argues that the legal effects of the CFSP can be felt beyond the Treaty based instruments EU External Relations and Systems of Governance will be of interest to students and scholars of Law Politics and European studies researching in the dynamic fields of EU external relations and foreign policy as well as policy makers and non governmental organisations striving to better understand how the EU and its systems of governance operate

Germany's Role in European Russia Policy Liana Fix, 2021-04-24 This book contributes to the debate about a new German power in Europe with an analysis of Germany s role in European Russia policy It provides an up to date account of Germany s Ostpolitik and how Germany has influenced EU Russia relations since the Eastern enlargement in 2004 partly along partly against the interests and preferences of new member states The volume combines a rich empirical analysis of Russia policy with a theory based perspective on Germany s power and influence in the EU The findings demonstrate that despite Germany s central role exercising power within the EU is dependent on legitimacy and acceptance by other member states

Law and Governance in Postnational Europe Michael Zürn, Christian Joerges, 2005-02-03 This 2005 book argues that Europeanization and globalization have led to ever more intensive legalization at transnational level What accounts for compliance beyond the nation state The authors tackle this question by comparing compliance with regulations that have been formulated in a very similar way at different levels of governance They test compliance with rules at the national level at the regional level EU and at a global level WTO finding that in fact the EU has higher levels of compliance than both international and national rules The authors argue that this is because the EU has a higher level of legalization combined with effective monitoring mechanisms and sanctions In this respect it seems that the European Union has indeed achieved a high level of legalization and compliance though the authors add that this achievement does not settle the related queries with the legitimacy of transnational governance and law

The EU's Common Foreign and Security Policy in Germany and the UK Nicholas Wright, 2018-10-11 This book examines the impact on member states of long term foreign policy co operation through the EU s Common Foreign and Security Policy CFSP Focusing on Germany and the UK it provides an up to date account of how they have navigated and responded to the demands co operation places on all member states and how their national foreign policies and policy making processes have changed and adapted as a consequence As well as exploring in depth the foreign policy traditions and institutions in both states the book also offers detailed analyses of how they addressed two major policy questions the Iranian nuclear crisis and the establishment and development of the European External Action Service The book s synthesis of country and case studies seeks to add to our understanding of the nature of inter state co operation in the area of foreign and security policy and what it means for the states involved The

EU, Strategy and Security Policy Laura Chappell, Jocelyn Mawdsley, Petar Petrov, 2016-05-26 This edited collection is a timely and in depth analysis of the EU's efforts to bring coherency and strategy to its security policy actions. Despite a special European Council summit in December 2013 on defence it is generally acknowledged that fifteen years since its inception the EU's Common Security and Defence Policy (CSDP) has yet to acquire a clear sense of purpose. This book investigates those areas where the EU has established actorness in the security and defence field and asks whether they might constitute the elements of an emergent more coherent EU strategy on security. Taking a critical view the contributors map the EU's strategic vision's across particular key regions where the EU has been active as a security actor, the strategic challenges that it has pinpointed alongside the opportunities and barriers posed by a multiplicity of actors' interests and priorities identified by both member states and EU actors. By doing this we demonstrate where gaps in strategic thinking lie where the EU has been unable to achieve its aims and offer recommendations concerning the EU's future strategic direction. This book will be of much interest to students of European security, EU policy, strategic studies and IR in general. Complying with Europe Gerda Falkner, 2005-05-26 What does EU law truly mean for the member states? This book presents the first encompassing and in depth empirical study of the effects of voluntaristic and partly soft EU policies in all 15 member states. The authors examine 90 case studies across a range of EU Directives and shed light on burning contemporary issues in political science, integration theory and social policy. They reveal that there are major implementation failures and that to date the European Commission has not been able adequately to perform its control function. *The Formulation of EU Foreign Policy* Nicola Chelotti, 2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP/CSDP. Although the importance of these committees and their participants has been increasingly recognised we still know relatively little about them. Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues. It explores three key areas: the formulation of the national position, the identity of CFSP/CSDP policy makers, negotiation practices and outputs. In doing so it provides an innovative observation point from which EU foreign policy can be analysed. This book will be of key interest to scholars and students of EU foreign and defence policy, external relations of the EU, European integration and politics, diplomacy and more broadly international relations. **The Book Review Digest**, 2005 *Making EU Foreign Policy* Daniel C. Thomas, 2011-05-03 A novel explanation of how EU member states overcome their divergent preferences to reach agreement on common foreign policies with fourteen in depth case studies covering diplomatic and security issues, enlargement, trade, development and environmental protection. **International Relations and the European Union** Christopher Hill, Michael Smith, Sophie Vanhoonacker, 2017 The most comprehensive introduction to the EU's role in the international system written by a team of international experts and incorporating the study of the EU's world role into the

EU Security Missions and the Israeli-Palestinian Conflict Amr Nasr El-Din, 2016-12-19 This book explores and analyses the various factors that affected the formulation of the common EU policy towards the Middle East Peace Process MEPP as well as the specifics of the process by which the EU created EUPOL COPPS and EUBAM Rafah It answers two central questions firstly why and how did the EU decide to create and deploy these missions Secondly where do these two missions fit into the general EU approach to the conflict in the Middle East Based on confidential interviews with various actors in the process uniquely granted to the author it reveals the mechanics of decision making behind the scenes and argues that the EU decision to expand its role in the MEPP through the creation of the two missions was closely related to the EU's defined common interests in the Middle East Further it shows the missions were mainly the result of the EU's already established approaches to further its role in the international political arena This text will be of key interest to scholars and students of European foreign policy EU Politics Middle East politics and studies foreign policy analysis and more broadly to international relations
